INDEX

able-bodied heterosexual men, 74
agency, 12, 37, 43, 158
structure-agency debate, 43, 158
aggression, 19, 69, 130, 154, 157, 165, 167
AIDS, 110–112, 119, 120, 205
alcohol, 7, 19, 20, 126–40, 147, 152, 166, 174, 177, 187, 193, 208, 209
ambivalence toward, 126–40
attitudes toward, 126–40
binge drinking, 126–40
interplay between gender and health-related behaviours, 126–40
masculinity, relationship, 126–40
sex differences in reasons for drinking, 129
anabolic steroids, 163–79
aggression, 165, 167
side effects of/roid rage, 176, 177
anorexia, 206
anxiety, 23, 37, 40, 41, 43, 51, 90, 94, 96, 116, 146, 150–155, 192
arenas of homosociality and hypercompetitive masculine performance, 169
attention deficit and hyperactivity disorder [ADHD], 146, 151, 155, 156, 159
attitudes
help-seeking, 63–78
drinking, 126–40
backlash politics, 185
barebacking, 108–21
binge drinking, 126–40
definitions of, 126, 132, 137
ethnicity, 128
lower socioeconomic status, 128
biomedical, 39, 50, 84, 111, 145, 155, 156, 182, 187, 206, 207, 209
approach to race and health, 187
conceptions of health, 206, 207
reductionism, 207
body
dissatisfaction, 97
concepts, 86, 88
corporeal ethic, 178
feminisation, 12, 14–16, 19, 24, 26, 48, 115, 157
image, 92, 96, 98, 102
bodybuilding, 163–79
anabolic steroids, 163, 164
corporeal ethic, 178
diet, 74, 77
ethical practice and performance, 163, 164, 167–70
performance of health, 179
project of self-construction, 164
self-discipline, 172
bodybuilding, distinction, 176
Broom, Alex, 1–8, 35, 37, 42, 43, 44, 57, 71, 72, 78
bug-chasing, 110
bulimia, 206
cancer, 2, 4–6, 9, 15, 24, 33–56, 66, 71–3, 76, 89, 90
prostate cancer, 2, 5, 6, 15, 33–56, 71–8
skin cancer, 15
testicular cancer, 72, 73
care-getting, 101
caretaking, 95, 98, 101–3
caretaker/caretaking identity, 95, 100–104
Cartesian dualism, 206
chest pain, 72, 76, 77, 83, 84
chronic illness, 9, 15, 34, 35, 26, 50, 58, 85, 111, 210
living with, 35, 50
cigarette-smoking, 20, 93
class, 6, 8, 14, 17–21, 49–53, 65, 69, 73, 78, 84–104, 132, 182–97
inequalities, 49–53, 84–104
combat, 87, 151–9, 192
complementary and alternative medicines (CAMs), 206, 207
Connell, Raewyn, 3, 8, 11, 12, 14, 19–21, 28, 53, 58, 70, 73, 75, 77, 78, 83, 99, 105, 131, 139, 141, 176, 179, 182–6, 189–91, 198, 200, 205, 211
consumer-driven medical legitimation, 159
control, 14, 24, 43, 52, 68, 77, 94, 97, 129, 146–59, 167, 168, 176, 179, 184
coping mechanisms, 90, 147
coronary heart disease (CHD), 6, 66, 83, 85
chest pain, 72, 76, 77, 83, 84
coronary events, 6, 66, 83–104,
post-coronary gender identity/ies, 84, 103
corporeal ethic, 178
Courtenay, Will, 3, 4, 5, 8, 9–32, 36, 38, 58, 64–6, 70, 77, 79, 80, 85, 105, 129, 131, 141, 146, 148, 160, 182, 186, 191, 198
cultural beliefs, 14, 104
cultural production of risk, 109
denial, 14, 16, 21, 72, 85–101, 168, 205
depression, 2, 4, 65, 69, 75, 90, 146–54, 164, 187, 192, 209
deviance, 151, 155
diabetes, 15, 98, 157
diet, 23, 26, 34, 87–103, 174, 177, 193
differential vulnerability, 147, 148
digital rectal examination (DRE), 38, 71
disability, 15, 40, 75, 155, 186, 193, 209
disabled men, 74, 75, 78, 189
physical disabilities, 65, 186
disease, 1, 9, 10, 15, 24, 35–9, 64–6, 73, 76, 83–104, 111, 118, 119, 121, 154, 155, 185, 187, 193, 209
disuse atrophy, 47
domestic violence, 192, 195
dominance, physical, 14, 18, 22
drinking, 7, 19, 20, 126–40, 147, 152, 166, 174, 177, 187, 193, 208, 209
binge-drinking, 126–40
masculinity, 126–40
drug abuse/use, 108–14, 152, 164, 173, 176, 179, 187, 208
bodybuilding, 163–79
dualistic thought, 204–6
domination, 14, 18, 22
drinking, 7, 19, 20, 126–40, 147, 152, 166, 174, 177, 187, 193, 208, 209
binge-drinking, 126–40
masculinity, 126–40
drug abuse/use, 108–14, 152, 164, 173, 176, 179, 187, 208
bodybuilding, 163–79

emotion
emotional distance, 101, 157
emotional sustenance, 101
emotional weakness, 75
epidemiological approaches to health and illness, 187
erectile dysfunction (ED), 33–53
ethical self-formation, 163, 164, 167–70
ethnicity, 3, 5, 6, 7, 9, 10, 17–20, 34–8, 67, 72, 73, 78, 84, 85, 87, 95, 100, 103, 128, 151, 100–197, 205
ethnic identity, 77, 128
excessive alcohol consumption, 126–40
exercise, 18, 83–104, 133, 163–79, 193
femininity, 11–13, 16, 27, 75, 97, 98, 100, 103, 130, 157, 203
feminist/feminist theory 3, 4, 8, 10, 13, 16, 24, 27, 99, 104, 149–51, 158, 163, 165, 166, 169, 183, 184, 190, 203, 205, 206, 208
intersectional analysis, 8, 183
Foucauldian notion of ethics as self-formation, 179
functionalist explanations of gender-specific release patterns, 145–8
future research, 8, 159, 202–11
agenda, 202–11
into men’s health, 202–11
gay men, 20, 21, 73, 74, 107–21, 205, 189, 205
sexuality under heteronormative public health governance, 117
gender
constructions of, 11–26
equality, 153, 154
essentialism, 204
gender-appropriate behaviour, 76
gender identity model, 148
gender relations approach, 83–104, 182
gender role conflict, 68, 137, 138
gender role socialisation, 67, 69, 73
gender-role socialisation analytical framework, 73
gender role theory, 149
gender roles in drinking, 126–40
gender-specific coping mechanisms, 147
gender-stereotypic traits, 11
gendered character of patienthood, 153
gendered cognitions, 12
gendered health processes and outcomes, 85
gendered health synergies, 85, 99, 100, 104
gendering of risk, 16, 209
ideals, 4, 5, 9–27, 33–56, 63–78, 97, 165, 189, 208
identity/ies
  post-coronary gender identities, 84
  reconstruction of, 83–104
inequality, 163
issues facing immigrant and refugee men, 182–97
mental health, 145–59
regimes, 83, 99
social conventions of, 12
stereotypes, 12, 131, 132
gift-giving, 110
guilt and inadequacy, 83–104
  culturally inscribed feelings of, 98
Gulf War syndrome (GWS), 151, 157–9

health
  behaviours and beliefs, 9–27, 33–56, 63–78, 85, 86, 131, 132, 147, 186
  care, under-utilisation of, 67, 85
  of immigrant and refugee men, 182–97
  moral performance, 163–8
  performance of, 163–79
  promotion, 33, 37, 39, 63, 84, 134, 165, 182, 183, 185, 196, 197
  risks, 9–27, 36, 127, 148, 154, 183, 184, 186, 195
  services, 25, 38, 53, 63–78, 166, 174
  overutilisation of, 25
  sport, 163–8

health-protective or health-promoting behaviours, 10, 16, 129
health-related behaviour, 10, 24, 64, 70, 129–40
healthy diet, 23, 26, 87, 93
healthy expressions of masculine identity, 140
heart disease, 6, 66, 83–104,
hegemony
  ideals, 14, 16, 21, 23
  masculinity, 14, 16, 21, 22, 44, 53, 54, 63–78, 131, 135, 137, 163–8, 182–96
help-seeking behaviour and practices, 63–78
heteronormativity, 117, 120
  governance of good sexual health, 117
  resistance of, 117
heterosexuality, 2, 14, 18, 20, 21, 56, 69, 73, 74, 107, 115, 117, 131, 137, 205, 206
  predatory, 131
high-risk behaviours, 17, 68
  sexual activity, 20, 107–21
HIV/AIDS
  bug-chasing, 110
  discursive management of HIV risk and sexual practice, 111
  gift-giving, 110
  medical technologies, 112–18
  narrative strategies, 109
  prevention, 107–21
  risk-taking behaviour, 107–21
  transmission, 107–21
  living with, 107–21
  panic discourse, 109, 112
  politicised configuration of risk, 111
  strategic positioning, 112, 113, 121
  homogenisation of men, 148
  homophobia, 137–9, 166, 208
  homophobic, misogynistic and racist culture of men’s sport, 166
  homosexuality, 107–21, 205
  homosociality, 166, 169
  hostility, 154
  hyperactivity, 146, 151, 155, 156, 159
  hypermasculinity, 155–7, 191
identity
  embodied, 170, 171
enactment of masculinity, 5, 77, 195
post-coronary gender identity/ies, 84, 103
reconstruction of gender identity, 101
illness trajectory, 35, 37
immigrant/migrant men
  health, 182–97
  masculinity, 182–97
  social context of immigrant and refugee men’s health, 182–97
impotence, 6, 33–56, 76, 209
incontinence, urinary, 37, 45, 51
individualism, 109, 118–21, 159
internet-mediated partnering, 107–21, sexual interaction among heterosexual people, 115
intimacy, 92, 116
lifestyle, 10, 34, 36, 41, 71, 83–104, 156, 177, 178, 183, 184, 193
  changes, 102–4, 183
male crisis discourse, 184
marginalisation, 38, 52, 70, 85, 86, 191, 195, 209
  immigrant and refugee men, 191, 195
masculinity/ies
  alcohol consumption, 126–40
  compensatory, 19, 21, 170
  competitive and aggressive masculine culture, 36, 48, 69, 154, 163, 167, 169, 170, 174, 179
  compulsive, 19, 21
  construct/ed masculinity/ies, 15, 16, 18, 102, 191
  contemporary, 1, 4, 6
  critical masculinity studies, 2, 8, 183
  cultural conceptions of masculine identity, 2
  differing, non-dominant, masculinities, 74
  emasculating aspects, 47, 70, 76, 130
  enactment of, 1, 2, 4, 5, 7, 11, 19, 22, 38, 77, 88, 195
  ethnicity, 3–5, 9–27, 182–97
hegemonic, 14, 16, 21, 22, 44, 53, 54, 63–78, 131, 135, 137, 163–8, 182–96
hypermasculinity, 154–8, 191
identity, 2, 3, 19, 53, 63–78, 92, 126–40, 189
ideology, 20, 68
marginalised, 4, 6, 18, 19, 52, 73, 84, 188–91
migrant/immigrant men
  health, 182–97
  masculinity, 182–97
multiple, 73, 78, 182, 190
myths, 69, 99
non-hegemonic masculinities, 131, 190
pluralistic, 73, 135, 205
protest masculinity, 20, 21, 43, 191
racialised, 182–97
re-masculinised images of American masculinity, 158
reproduction of, 165, 166
rethinking and reshaping the meanings surrounding, 22, 92, 93, 100, 103
social construction of, 50, 53, 63–78, 145–59
  subordinated, 9–27, 73, 87, 187–92
testosterone-driven, 53
media
discourse, 21, 22, 107–112, 130, 155, 193, 203, 210
medical technologies, 112–18, 156
medicalisation, 145–59
men’s health
  help-seeking behaviour, 6, 63–78, 146
  mental health, 3, 7, 73–6, 145–59, 183–97,
narrative accounts, 2, 6, 7, 33–56, 63–78, 83–104, 109, 148, 163–79
mental health/illness, 3, 7, 73–6, 145–59, 182–97
disorders/problems, 145–59, 182–97
  personality disorders, 145–59
social-causation and social-constructionist perspectives of mental health, 145
social construction of medicalised categories of mental illness, 151
migrant/immigrant men
  health, 182–97
  masculinity, 182–97
  mental health, 182–97
narratives
HIV, 107–21
men’s health, 2, 6, 7, 33–56, 63–78, 83–104, 109, 148, 163–79
real-crime genre, 110, 116
neo-liberalism
approach to civil society, 118
new communications technologies,
dehumanising qualities of, 116
new men’s health, 3–5, 183–6
normativity, 1, 189, 23, 64, 77, 111, 147, 148, 169
expectations about men’s mastery of
their behaviour, 147
heterosexuality, 18
nurturance, 90, 102, 130
occupational role, 74, 78
ontological insecurity, 153
over- and underachievement, 154–6
panic discourse, HIV, 109, 112
pathologisation, 25, 148, 151, 163, 170, 205
pathologised identities, 205
patient–physician interactions, 43
patriarchy, 1, 4, 8, 14, 23, 26, 99, 100, 169, 170, 189, 196, 197, 208
penile shortening, 47
personality disorders, 145–59
physical growth and ethical status,
163–79
post-combat ailments, 151–9
combat stress reactions (CSR), 157
combat trauma, 187, 145–59, 192
conversion hysteria, 157
shell shock, 157
post-traumatic stress disorder (PTSD), 145–59
post-traumatic stress disorder (PTSD),
145–59
prevention
preventive behaviours/healthcare, 10, 63, 65, 84, 85, 93, 103, 165, 183
primary care, 101
prostate cancer, 2, 5, 6, 15, 33–56,
71–8
prostate-specific antigen (PSA) testing,
