Contents

List of contributors, ix
Foreword, xiii
Preface, xv

Section I: Common aspects of animal influenza

1 Influenza A virus, 3
   David L. Suarez

2 Diagnostics and surveillance methods, 31
   Erica Spackman, Giovanni Cattoli and David L. Suarez

3 The economics of animal influenza, 45
   Anni McLeod and Jan Hinrichs

4 Trade and food safety aspects for animal influenza viruses, 74
   David E. Swayne

5 Public health implications of animal influenza viruses, 92
   Nancy J. Cox, Susan C. Trock and Timothy M. Uyeki

Section II: Influenza in animals of the class aves

6 The innate and adaptive immune response to avian influenza virus, 135
   Lonneke Vervelde and Darrell R. Kapczynski

7 Wild bird infections and the ecology of avian influenza viruses, 153
   David E. Stallknecht and Justin D. Brown

8 The global nature of avian influenza, 177
   David E. Swayne

   Leslie D. Sims and Ian H. Brown

10 High-pathogenicity avian influenza outbreaks since 2008, excluding multi-continental panzootic of H5 Goose/Guangdong-lineage viruses, 248
    Ian Brown, Celia Abolnik, Juan Garcia-Garcia, Sam McCullough, David E. Swayne and Giovanni Cattoli

11 Low-pathogenicity avian influenza, 271
    Daniel R. Perez and J. J. (Sjaak) de Wit

12 Epidemiology of avian influenza in agricultural and other man-made systems, 302
    Leslie D. Sims, John Weaver and David E. Swayne

13 Pathobiology of avian influenza in domestic ducks, 337
    Mary J. Pantin-Jackwood

14 Avian influenza control strategies, 363
    Leslie D. Sims and David E. Swayne
Section III: Influenza in animals of the class mammalia

SubSection IIIA: Swine influenza

16 The clinical features, pathobiology, and epidemiology of influenza infections in pigs, 439  
Susan E. Detmer

17 Immunity, diagnosis, and intervention strategies for influenza infections in pigs, 452  
Montserrat Torremorell

18 Global evolution of influenza A viruses in swine, 459  
Amy L. Vincent, Nicola Lewis and Richard Webby

19 Vaccines and vaccination for swine influenza: differing situations in Europe and the USA, 480  
Kristien Van Reeth, Amy L. Vincent and Kelly M. Lager

SubSection IIIB: Equine influenza

20 The clinical features, pathobiology, and epidemiology of influenza infections in horses, 505  
Gabriele A. Landolt and Thomas M. Chambers

21 Vaccines and vaccination to control equine influenza, 524  
Thomas M. Chambers

SubSection IIIC: Sporadic and miscellaneous mammalian influenza

22 Canine influenza, 549  
Colin R. Parrish and Edward J. Dubovi

23 Sporadic influenza A virus infections of miscellaneous mammal species, 557  
Edwin J. B. Veldhuis Kroeze and Thijs Kuiken

24 Mammalian experimental models and implications for understanding zoonotic potential, 594  
Jessica A. Belser and Terrence M. Tumpey

Index, 619
