Contributors ix  
Foreword xv  
Preface xvii  

**Introduction**  
1 Urban Biodiversity and the Case for Implementing the Convention on Biological Diversity in Towns and Cities 3  
*Norbert Müller and Peter Werner*  

**Fundamentals of Urban Biodiversity**  
*Rüdiger Wittig*  
3 Cultural Aspects of Urban Biodiversity 56  
*Andy Millard*  
4 Social Aspects of Urban Biodiversity – an Overview 81  
*Sarel Cilliers*  
5 Urban Biodiversity and Climate Change 101  
*David J. Nowak*  
6 Design and Future of Urban Biodiversity 118  
*Maria Ignatieva*  
7 Urban Patterns and Biological Diversity: A Review 145  
*Peter Werner and Rudolf Zahner*
## Contents

**History and Development of Urban Biodiversity**  
8. Urban Flora: Historic, Contemporary and Future Trends  
   *Philip James*  
   
9. Environmental History and Urban Colonizations from an Avian Perspective  
   *Timo Vuorisalo*  
   
10. Constraints of Urbanization on Vegetation Dynamics in a Growing City: A Chronological Framework in Rennes (France)  
    *Vincent Pellissier, Françoise Roze and Philippe Clergeau*  
   
11. Most Frequently Occurring Vascular Plants and the Role of Non-native Species in Urban Areas – a Comparison of Selected Cities in the Old and the New Worlds  
    *Norbert Müller*  
   
12. Factors Influencing Non-Native Tree Species Distribution in Urban Landscapes  
    *Wayne C. Zipperer*  

**Analysis and Evaluation of Biodiversity in Cities**  
    *Mathias Bochow, Theres Peisker, Sigrid Roessner, Karl Segl and Hermann Kaufmann*  
   
14. Analysis of the Planted and Spontaneous Vegetation at Selected Open Spaces in Apipucos District of Recife, Brazil  
    *Dietmar Sattler, Simone Schmidt and Marcus Vinicius da Silva Alves*  
   
15. Multivariate Approaches to the Study of Urban Biodiversity and Vegetation: An Example from a Southern Temperate Colonial City, Christchurch, New Zealand  
    *Glenn H. Stewart, Maria Ignatieva and Colin D. Meurk*  
   
16. The Biodiversity of Historic Domestic Gardens – A Study in the Wilhelminian Quarter of Erfurt (Germany)  
    *Norbert Müller*
## Contents

17 Old Masonry Walls as Ruderal Habitats for Biodiversity Conservation and Enhancement in Urban Hong Kong  
C.Y. Jim  
323

18 Green Roofs – Urban Habitats for Ground-Nesting Birds and Plants  
Nathalie Baumann and Friederike Kasten  
348

19 South Atlantic Tourist Resorts: Predictors for Changes Induced by Afforestation  
Ana Faggi, Pablo Perepelizin and Jose R. Dadon  
363

### Social Integration and Education for Biodiversity  
381

20 Urban Green Spaces: Natural and Accessible? The Case of Greater Manchester, UK  
Aleksandra Kaźmierczak, Richard Armitage and Philip James  
383

21 Urban Wastelands – A Chance for Biodiversity in Cities? Ecological Aspects, Social Perceptions and Acceptance of Wilderness by Residents  
Juliane Mathey and Dieter Rink  
406

22 Perception of Biodiversity – The Impact of School Gardening  
Dorothee Benkowitz and Karlheinz Köhler  
425

23 Landscape Design and Children’s Participation in a Japanese Primary School – Planning Process of School Biotope for 5 Years  
Keitaro Ito, Ingunn Fjortoft, Tohru Manabe, Kentaro Masuda, Mahito Kamada and Katsunori Fujiwara  
441

24 Attracting Interest in Urban Biodiversity with Bird Studies in Italy  
Marco Dinetti  
454

25 Allotment Gardens as Part of Urban Green Infrastructure: Actual Trends and Perspectives in Central Europe  
Jürgen H. Breuste  
463

### Conservation, Restoration and Design for Biodiversity  
477

26 Integration of Natural Vegetation in Urban Design – Information, Personal Determination and Commitment  
Clas Florgård  
479
27 Prospects of Biodiversity in the Mega-City of Karachi, Pakistan:
Potentials, Constraints and Implications 497
Salman Qureshi and Jürgen H. Breuste

28 Potential of Biodiversity and Recreation in Shrinking Cities:
Contextualization and Operationalization 518
Dagmar Haase and Sophie Schetke

29 Near-Natural Restoration Strategies in Post-mining Landscapes 539
Anita Kirmer and Sabine Tischew

30 Restoration and Design of Calcareous Grasslands in Urban and
Suburban Areas: Examples from the Munich Plain 556
Christine Joas, Johannes Gnädinger, Klaus Wiesinger, Rüdiger Haase
and Kathrin Kiehl

31 Contribution of Landscape Design to Changing Urban
Climate Conditions 572
Katrin Hagen and Richard Stiles

32 Economics and the Convention on Biodiversity: Financial
Incentives for Encouraging Biodiversity in Nagoya 593
Ryo Kohsaka

Conclusions 608
Norbert Müller, Peter Werner and John G. Kelcey

Index 611
