Part 1 Describing and Explaining Health in Geographical Settings 1

Chapter 1 Introducing Geographies of Health 3

Health and Geography: Some Fundamental Concepts 6
  Concepts of health 7
  Geographical concepts 10
Geographies of Health: Five Case Studies 15
  Neighborhoods and obesity in New York City 16
  Public places after the introduction of “smoke free” legislation 18
  The health of Aboriginal populations in Canada 19
  Habitus and heart health: The collision of place, body, and health 21
  Mental health in Australian immigration detention centers 23
Concluding Remarks 25

Chapter 2 Explaining Geographies of Health 29

Positivist Approaches to the Geography of Health 30
  Positivist explanation 30
  Further examples of positivist approaches 31
Social Interactionist Approaches to the Geography of Health 37
  Social interactionist explanation 38
  Further examples of social interactionist approaches 39

Infectious Disease 170
Neighborhoods and Access to Care 174
Concluding Remarks 178

Chapter 7  Systems of Health Care 184

Principles of Health Service Delivery 185
Levels and types of health care provision 185
Promoting health, preventing illness 186
Health Care Systems 190
Geographies of rationing 192
Efficiency and equity 193
The need for health care 195
Inequalities in the Provision of Health Services 196
Health care provision in the global south 196
Health care provision in the global north 202
Geographies of Care 205
Concluding Remarks 208

Chapter 8  Inequalities in the Utilization of Health Services 214

Use of Primary Health Care Services 215
Use of Secondary and Tertiary Health Care Services 226
Do Provision and Utilization Affect Outcome? 231
Concluding Remarks 238

Chapter 9  Ageing and Place 244

What is Age? 245
Ageing Populations: Global and Regional Perspectives 246
The Distribution of Ill-Health and Disability Among Older Adults 249
Health Inequalities in Older Adults 254
Healthy Ageing “In Place” 258
There’s No Place Like Home 264
Concluding Remarks 268

Chapter 10  People on the Move: Migration and Health 273

Migration, Disruption, and Health 274
Voluntary migration and mental health 274
Forced displacement 276
The Impact of Migration on the Spread of Disease 280
Migration and the Incidence of Disease and Ill-health 283
Direct effects 283
Longer-term health impacts of migration 285
Migration as a confounding variable 290
Impact of Health Status on Migration 295
The Relationship Between Migration and Access to Health Services 298
Concluding Remarks 301
# CONTENTS

## Part III  Health and Human Modification of the Environment  307

### Chapter 11  On Airs, Waters, Places  309

**Air**  311
- *Area sources*  314
- *Linear sources*  320
- *Point sources*  324

**Water**  329
- *Cholera*  331
- *Schistosomiasis*  334
- *Gastroenteritis*  335
- *Chemicals in drinking water*  337

**Concluding Remarks**  342

### Chapter 12  Health Impacts of Global Environmental Change  349

**Stratospheric Ozone Depletion**  352

**The Science of Climate Change and Its Role in Human Health**  356

**Health Impacts of Climate Change**  358
- *Air quality*  360
- *Contamination of food and water*  360
- *Temperature extremes*  363
- *Extreme weather events and natural hazards*  364
- *Impacts on infectious vector-borne disease*  367

**Concluding Remarks**  370

### Chapter 13  Emerging, Re-emerging, and Neglected Infectious Diseases  375

**Disease Transmission: The Role of Vectors**  376

**The Drivers of Emerging, Re-emerging, and Neglected Diseases**  378
- *Ecosystem change*  378
- *Political upheaval, conflict, and disaster*  382
- *Mobilities of people and goods*  385
- *Antimicrobial resistance*  387
- *Socioeconomic determinants and consequences*  388

**Concluding Remarks**  391

**Index**  395
