### Subject Index

**Absenteeism:**
- as counterproductive work behavior, 179, 186–189, 190–191
- employee health impacting, 240
- job satisfaction relationship to, 261–263
- organizational commitment relationship to, 275–276

**Abuse toward others,** 179, 189, 191–194, 204

**Academy of Management, Organizational Development and Change Division,** 524

**Action research,** 18, 19, 522, 527–529

**Adaptability:**
- adaptive responses to occupational stress, 215
- general adaptation syndrome, 208–209
- as productive behavior, 167, 173–174

**Administrative management,** 459–460

**Agreeableness,** 76, 157, 236, 258, 429

**Alcohol use/abuse.** See Substance use/abuse

**Amazon’s Mechanical Turk (MTurk),** 36, 39

**American Psychological Association, Industrial/Organizational Psychology Division,** 20

**Attraction:**
- anticipatory socialization and, 80–81
- applicant’s perspective on, 74–77
- Attraction-Selection-Attrition framework for, 74
- internal vs. external candidates for, 72, 279–280
- labor market information influencing, 71
- online tools for, 72–73, 75
- organizational attempt to influence during, 333
- organizational commitment relationship to, 279–280
- organizational culture relationship to, 76, 510
- organizational perspective on, 70–74

---

Subject Index

**Attraction (continued)**
- organizational reward systems impacting, 335, 336, 343, 349
- organizational socialization following, 77–103, 279
- overview of, 69–70, 103
- personality and organizational culture compatibility for, 76
- reading recommendations on, 104
- recruitment methods for, 71–74
- recruitment planning for, 70–71
- recruitment process as, 70–77
- research on, 75
- skills inventory considered in, 71, 74
- strategic planning influencing, 70
- succession planning influencing, 70–71
- values impacting, 76–77

**Balance, work-family**, 113–121. See also **Work-nonwork interface**

**Bartunek, Jean**, 525–526
**Beehr, Terry**, 209, 215–216

**Behavioral approaches**:  
- extinction as, 314
- feedback as, 315
- to leadership, 377–379
- to motivation, 292, 312–316, 328
- Organizational Behavior Modification based on, 315
- punishment as, 313–314
- reinforcement as, 312–313, 314–315
- shaping as, 314–315

**Beliefs and attitudes**:  
- cultural influences and perspectives on, 259–261, 274–275, 285
- job embeddedness as, 283–284, 285
- job satisfaction as, 248–269, 275, 278
- organizational commitment as, 269–280, 286
- organizational culture and climate reflecting, 489
- organizational identification as, 281, 283
- organizational justice as, 272, 284–286
- organizational theory and design impacted by, 470–472
- outcomes impacted by multiple, 286
- overview of, 247, 280, 286–288
- perceived organizational support as, 272, 281, 283, 286
- reading recommendations on, 288
- team dynamics and processes impacted by, 430–431, 440
- Bennett and Robinson's model of counterproductive behavior, 178–179
- Bills, Marion, 14
- Bingham, Walter, 12
- Bregman, Elsie, 14
- Bryan, Laura Koppes, 13–14
- Burke's Theory of Organizational Change, 531–533

**Cognitive process theories**:  
- control theory as, 308–310
- Equity Theory as, 297–303, 328
- Expectancy Theory as, 266, 303–305, 328
goal-setting theory as, 305–308, 309–310, 311–312, 328
overview of, 292, 296–297
practical value of, 328
self-regulation based on, 308–312
Social Cognitive Theory as, 310–312
team-related, 437, 439–445
Cognitive Resource Theory, 384
Computer technology. See Technology
Conscientiousness, 76, 155–157, 159, 161, 182, 189, 196, 236, 256, 258, 376, 429
Control theory, 308–310
Counterproductive work behavior:
absenteeism as, 179, 186–189, 190–191
abuse toward others as, 179, 189, 191–194, 204
Bennett and Robinson's two-factor model of, 178–179
causes of, 180–186
common forms of, 186–194
cultural influences on, 188–189, 190–191
definition of, 178
disciplinary procedures in response to, 366–368
employee health and well-being relationship to, 180, 199–201, 204, 213, 366–367
Gruys and Sackett's 11-factor model of, 180
injustice response as, 184, 195, 196, 286, 301
low base rate, 194–204
misuse of information as, 180, 181
organizational attempts to influence, 334
organizational- vs. individually-targeted, 178–179
overview of, 177, 204–206
personality impacting, 182–183, 183–184, 189, 196, 199
person-based causes of, 182–183
positive effects of, 204
production deviance as, 179, 194–195, 204
reading recommendations on, 206
sabotage as, 179, 194–195
sexual harassment as, 201–204
situation-based causes of, 183–184
social undermining as, 193–194
Spector's five-factor model of, 179
Stressor-Emotion Model of, 183–184, 196–197
structure of, 178–180
substance use/abuse as, 180, 199–201, 367
theft as, 179, 195–197
unsafe behavior as, 180, 366–367
withdrawal as, 179, 186–189, 190–191
workplace incivility as, 189, 191–192
workplace violence as, 197–199
Cultural influences. See also Organizational culture and climate
on beliefs and attitudes, 259–261, 274–275, 285
on counterproductive work behavior, 188–189, 190–191
cross-cultural research consideration of, 52–53
on equity perceptions, 299–300, 301
globalization as, 23, 483

- task combining in, 356
- team task design as, 431–432, 440
- Work Design Questionnaire on, 362

Job Diagnostic Survey, 354

Job embeddedness:
- beliefs and attitudes impacting, 283–284, 285
- innovation relationship to, 170
- socialization leading to, 82, 84, 87, 88

Job in General Scale, 251

Job performance:
- agreeableness impacting, 157
- conscientiousness impacting, 155–157, 159
- core self-evaluation impacting, 158
- cultural influences and considerations with, 144, 153
- declarative knowledge impacting, 150–151, 152
- definition and description of, 134–137
- determinants of, 150–160
- effectiveness vs., 135
- efficiency vs., 135
- emotional intelligence impacting, 154
- extra-role performance, 138, 139, 141, 143, 160, 165, 278
- extraversion impacting, 157
- general mental ability as predictor of, 152–154
- innovation in, 167–168
- instability in, over time, 147–150
- interpersonal/team relationships and, 140, 141, 142, 145
- job experience as predictor of, 154–155, 156
- job satisfaction relationship to, 266–269, 278
- leadership impacting, 393–395, 396, 397
- measurement of, 143–150
- models of, 136–143, 148–149, 150–152
- motivation impacting, 151, 156–157
- occupational stress impacting, 213, 224, 228–229
- openness to experience impacting, 157–158
- organizational citizenship behavior relationship to, 160, 165
- organizational commitment relationship to, 277–278
- perceived organizational support relationship to, 281
- personality as predictor of, 155–160
- procedural knowledge/skill impacting, 151, 152
- productivity vs., 135
- Psychological Capital as predictor of, 158
- restriction in variability of, 146–147
- socialization and proficiency of, 79–80
- typical vs. maximum, 145–146
- utility vs., 135, 137
Job satisfaction:
- absenteeism relationship to, 261–263
- attitudinal variables related to, 261
- beliefs and attitudes about, 248–269, 275, 278
- cross-cultural perspective on, 259–261, 325
