## Index

2-week packing list 13  
3% vinegar/acetic acid solutions 663  
4Dx® plus tests 424  
110 V vs 220 V 80  

### a

- abdominal illness and trauma, spay/neuter surgery 226–227  
- abdominal lavage 487–488  
- abdominal surgery, cryptorchid 224–225  
- abdominocentesis 315, 488–490  
- abducent nerve evaluation 474  
- acceptance, community engagement 30–31  
- accessory nerve evaluation 475–476  
- accommodation for spay/neuter teams 75–76  
- acerpromazine 132, 638  
- acetic acid solutions 663, 664–665  
- acetylcysteine 638  
- acquisition  
  - blood samples 667  
  - blood supplies 522  
  - oxygen 87  
  - of permits 73  
  - supplies 75–76, 87  
- activated charcoal 651  
- active learning methods 40  
- acute pain vs. chronic pain 143  
- acute renal failure (ARF) 400  
- adjunctive anesthesia 250–252  
- administration of  
  - epidural 175–176  
  - general anesthesia 126–127, 136–140, 152–160  
  - local anesthesia 165–177  
- vaccines 539–542  
- administration for emergency shelters and spay/neuter shelters 90–101, 596–602, 607–618  
- adoptions 604  
- adulticide therapy  
  - heartworm 309–311  
- adult learning 32  
- Advantage® (imidacloprid) 650  
- advertising 43, 76, 605–606  
- age estimation 533  
- Ahmedabad, India 19–20  
- AHPPA see Asociacion Humanitaria para la Proteccion Animal de Costa Rica  
- airline travel 74  
- airway equipment  
  - endotracheal tubes 95, 495–496  
- general anesthesia 130–131  
- Albon® (sulfadimethoxine) 658  
- alcohol, ethyl 639  
- alfaxalone 134, 135, 639  
- α₂-adrenergic agonists 132, 144–145  
- AlphaTrak monitor 436–437  
- altitude 79  

### American Society of Anesthesiologists (ASA)  
- scores 123–125  
- amoxicillin 639–640  
- amoxicillin–clavulanic acid 640  
- amphetamine testing 427  
- ampicillin 640  
- amputations 239–248  
- digit 245–248  
- forelimb 239–241  
- hindlimb 241–248  
- analgesics 121–122, 143–151  
- enucleation 250  
- spay/neuter clinics 91, 107  
- wound management 339  
- see also pain management  
- anal sac disease (ASD) 315–318  
- anaplasmosis 361–364, 423–424, 461  
- AnaSed® see xylazine  
- ancillary surgical procedures 5, 237–262  
- enucleation 249–262  
- oculocardiac reflex 256–258  
- postoperative management 258–259  
- special considerations 259–261  
- subconjunctival technique 252–255  
- transpalpebral technique 254–257  
- Ancylostoma caninum 345  
- ancylostomiasis see hookworms  
- anemias, blood smear evaluation 461–463
