Acknowledgment ix
Preface xi
List of contributors xv

1 Microfiltration for casein and serum protein separation 1
   Kang Hu, James M. Dickson, and Sandra E. Kentish

2 Dairy stream lactose fractionation/concentration using polymeric ultrafiltration membrane 35
   Suwattana Pruksasri

3 Membrane fouling: a challenge during dairy ultrafiltration 67
   Dharmesh Kanani

4 Dairy protein fractionation and concentration using charged ultrafiltration membranes 86
   Mark R. Etzel and Abhiram Arunkumar

5 Demineralization of dairy streams and dairy mineral recovery using nanofiltration 112
   Sandra E. Kentish and G. Rice

6 Development and application of reverse osmosis for separation 139
   Masoumeh Zargar, Bo Jin, and Sheng Dai

7 Pervaporative extraction of dairy aroma compounds 176
   Boya Zhang, Panida Sampranpiboon, and Xianshe Feng
Contents

8 Membrane chromatography: current applications, future opportunities, and challenges 230
   Raja Ghosh

9 Electrodialysis applications on dairy ingredients separation 241
   Laurent Bazinet

Index 267
