Challenge of Connecting Learning, The (AAC), 24
Change, in higher education, 28–29, 36, 37–38. See also Curricular reform and innovation
Chemistry research: departmental considerations for, 78; opportunities in, 63
Chicago Manual of Style, 57
Choice. See Intentionality; Student choice
Citations, 57, 195
Citizenship goals, 20–22, 191–192
Class size: considerations in, 115–116; equation for, 50; importance of small, 24–25, 26; research findings on, 49–51, 115–116
Classics, undergraduate research in, 66
Classroom activities: research findings on, 52–54; sequencing of, 130–133; supplemental, 53, 123–124, 132, 194
Classroom discussions, 53
Cognitive skill development: assessment of, 185–186, 189; as capstone objective, 33–34; as capstone outcome, 5, 6
Collaborative course design, 105–106
Collaborative Replications and Education Project (CREP), 98–99, 101, 210n4
Collaborative research, 95, 96–100, 128
College of Wooster, 7, 49; campuswide presentations at, 58; capstone goals of, 34, 202n2 (chap. 3); capstone prerequisites at, 113; evaluation rubrics at, 186; faculty mentors at, 55–56, 205n8
Collegiality, 94–95
Colorado College, 49
Communication discipline, undergraduate research in, 64–65
Communities of practice, 158
Community-based learning, 179–181. See also External partnerships; Internships
Comprehensive exams, 45, 52, 54
Conference presentations, 57, 86, 93, 156, 159, 161, 188
Consensus view, in goal setting, 18–20, 22–23; debate versus, 17–18, 20, 22–23, 24
Conservation biology capstone, 45–46
Contribution to field, 82, 90, 96–98
Core curriculum: for academic preparedness, 145–146; connecting capstone design to, 106–107; connecting capstone goals to, 30–35; undergraduate research in, 61–87
Costs: of alternative capstone course formats, 39; of assessment, 183; of hosting student interns, 181; of undergraduate research projects, 69, 72–77, 93. See also Resource allocation
Council on Social Work Education, 212n3
Council on Undergraduate Research (CUR), 46, 62, 63–64, 93
Course catalogue, 86, 117–118
Course description, 116–118, 139, 194
Course mapping exercise, 188
Creating Effective Undergraduate Research Programs in Science (Taraban and Blanton), 148, 200n2
Credit, academic, 48–49
Criminal justice capstone. See Saint Martin’s University, Criminal Justice/Legal Studies Senior Seminar
Critical thinking: assessment of, 185–186; goal of, 33, 34, 201n1 (chap. 2), 203n5
Crowd-sourcing science project, 99
CUR Quarterly, 93
Curricular reform and innovation: contextual limitations in, 109–110; as driver of capstone course adoption, 28–29, 56, 103; intentionality in capstone design and, 104–105; research leading to capstone courses and, 3–5. See also Change, in higher education
D
Dartmouth College, 3
Data-collection research projects: costs and benefits of, 76–77; disciplinary considerations in, 122–123. See also Research projects
Data sharing, 94–95, 96–100, 102
Delivery options, research findings on, 51–52
DePaul University, 178
Description, capstone course, 116–118, 139, 194
Design, capstone course, 103–136; adjustment of, 147; best-practice recommendations for, 193–195; collaboration in, 105–106; constraints analysis in, 211n1; curricular fit and, 106–107; drivers of, 103–104; elements and guidelines for, 118–136; factors in, 103; faculty responsibility for, 17, 37; foundational components of, 104–108; intentionality in, 104–105, 138–139;
Design, capstone course (continued)
internal components of, 110–118; learning objectives as basis for, 108–111; professional standards and, 107–108; stakeholders in, 17, 105–106, 110–111, 212n2; of structural framework, 108–118; student preparedness and, 147; teaching to the planned, 137–140, 198

Designing and Managing Your Research Project (Thomas and Hodges), 87

“Digital Resource Data Sharing and Management” (National Science Board), 95

Disciplinary debate and deliberation: consensus view versus, 18–20, 22–23, 24; importance of, 16, 17–18, 24; process of, 22–23; as subject of capstone courses, 25–26

Distance education capstone courses, 45, 51–52

Doctorate-granting universities. See PhD-granting universities

Durham University, 71

E

Earth science research project, 74–75

Eastern Michigan University, 132

Economics capstones: admission to, 111, 112; alternative forms of, 45; proficiencies list and, 139–140; writing requirement in, 119

Emory University, 178

Empirical data-gathering projects, 76–77, 122–123. See also Research projects

Empowerment. See Student choice

Engagement. See Student motivation and engagement

Engineering capstones: for accreditation assessment, 173–175; collaborative design of, 105–106; learning objectives in, 108–109, 154; real-world, 121, 207n5; task sequencing of, 133; team-based, 128

Engineering research, 95, 107

English, undergraduate research in, 66

Enrollment size, 115–116, 194

Ethical issues: capstone design and, 107–108; in empirical research, 90–92, 94–95

Ethical standards, 107–108

Exhibitions, 47–48, 52, 54

Exit interviews and surveys, 184, 188

Expectations. See Student expectations

External partnerships: assessment of capstones in, 179–181; capstone course design and, 105–106, 108–109; collaborative relationships with, 105–106, 157–158; with research or grant proposal projects, 75; role relationships in, 157–158, 181, 197. See also Internships

Externally-mandated assessments, 5, 25–24, 56, 168, 169, 172–175. See also Assessment

F

Faculty incentives and support, for undergraduate research, 65, 80

Faculty instructors: design and implementation responsibility of, 17, 37, 118; Hawthorne effect of, 148; instructor effect of, 206n3; prevalence of, by type, 50; role of, in monitoring internships, 157–158; topic selection and, 55, 56, 126–129. See also Single-instructor model

Faculty-led research, 70–72

Faculty mentors: factors related to, 55–56, 79–80, 205n8; negative experiences of, 93; student satisfaction with, 9; topic selection and, 55, 56, 126–129; in undergraduate research, 79–80, 87. See also Single-instructor model

Faculty research productivity: integration of teaching with, 94; literature reviews and; 73; pressures of, 93–94, 209n2; undergraduate research and, 80, 93–94, 96

Faculty-student meetings, 55, 116, 133–134, 196, 205n7

Faculty-student ratio, 24–25, 26

Faculty time and workload: assessment and, 169–170, 183; compensation and, 169–170; at large public universities, 209n2; with mentor role, 55–56; with research-based capstones, 142–143; research productivity pressures and, 93–94, 209n2; with research projects, 65, 74,
Subject Index

Portfolios: art exhibition, 47–48, 77; for better students, 159–160; defining expectations for, 120; prevalence of, 53; public recognition of, 159–160; web-based, 120, 212n3
Portland State University (PSU), 111, 175–177
Positive assessments: intrinsic motivation and, 82–83; research findings on, 5, 8–9
Postcollege preparation: assessment of, 189–190; goals of, 20–22, 30, 31, 35
Poster conference, 208n9
Practical skills improvement, findings on, 5
Practicum-based capstone courses. See External partnerships; Internships
Preparation for capstones: addressing insufficient, within capstone course, 146–163, 197–198; approaches to improving, 144–163; core curriculum for, 145–146; prerequisites and, 112–114; prevalence of courses for, 7; problem of insufficient, 144–145; structural approach to, 144–145; support services for, 155; undergraduate research for, 68, 85–87, 89–103. See also Student preparedness
Prerequisite courses, 112–114, 194
Presentations, 39; for assessment, 188; for better students, 159–163; conference, 57, 86, 93, 156, 159, 161, 188; public, 57–58, 159–162, 208n9. See also Exhibitions; Oral presentations; Performances
Pretesting, 146
Prevalence of capstone courses: alternative format, 44–48; discipline based, 5, 6, 42–44, 178; by institutional type and size, 42–44; interdisciplinary/general education, 5, 178; research overview on, 5–9; in twenty-first century, 3, 5, 13, 42–48; by type of capstone experiences, 44–48; by type of final product, 52–54; typical format, 5, 8, 42–44, 48
Private institutions: capstone course type preferred by, 7; classroom activities in, 53; goal preferences of, 34; prevalence of capstone courses in, 43–44; prevalence of online capstones in, 52
Problem-solving skills: as capstone goal, 33, 34; with ill-structured versus well-structured problems, 141–142, 150, 154
Procrastination, 147, 148–149, 196, 197
Producing versus authoring, 70–72
Products, capstone: assessment of, 182–186; characteristics of, 39–59; classroom activities in, 52–54; defining elements of, 39, 42–48, 58–59; design of, 103–136; faculty workload in, 142–143; major paper in, 54–58; recommendations for ideal, 193–199; teaching, 137–165; as typical format, 39, 48, 58–59
Proposals, research/grant, 74–75
Psi Chi, 98, 210n4
Psychology capstone courses: alternative forms of, 45; assessment of, 184–185, 189–190; characteristics of, 40; classroom activities in, 53; data collection and analysis in, 122–123; faculty-student meetings in, 55, 205n7; goals of, 8, 15, 33, 191–192; history and systems, 181–182; impediments to completion of, 92; internship, 157–158; major papers in, 56–57, 119; overview of research on, 7–8; peer review in, 124; student engagement in, 144
Psychology research: across multiple institutions, 98; benefits of, 69–70; crisis
of confidence in, 91, 94; empirical, data collection type of, 76; opportunities in, 63; range of types of, 84
Public administration capstones, 45
Public institutions: capstone course type preferred by, 7; classroom activities in, 53; faculty time pressures at, 209n2; goal preferences of, 34; prevalence of capstone courses in, 43–44; prevalence of online capstones in, 52
Publication: of better students’ work, 160–162; of fraudulent research, 91; paper standards and, 205n9; preparation for, 161–162; of research papers, 73, 84, 96, 100–101, 160, 161–162; revision of process of, 91–92, 102
Purdue University, 207n5

Q
Question framing: for ill-defined problems, 142; for research projects, 126–129, 142

R
Rational model of organizational action, 29
Reading lists, common, 53
Real-world problem-based learning, 119, 121, 157, 179. See also Internships
Redundancy, 107
References: minimum number of, 56, 130; policies on, 129–130, 195; type of, 57
Reinventing Discovery: The New Era of Networked Science (Nielson), 95
Religion, undergraduate research in, 66
Religion capstone courses: alternatives types of, 45; approach to, 85–86; curricular alignment of, 107; design of, 107, 110; negotiation assessments of, 10; peer review in, 135; portfolio, 120
Replicability, 90–92
Research, undergraduate. See Undergraduate research
Research methods courses: nonscience majors’ barriers to, 64; sequencing of, 85
Research paper. See Paper, major
Research project capstone courses. See Project/paper-based capstone course
Research projects: across multiple institutions, 98–100; authoring versus producing, 70–72; collaborative, 95, 96–100; considerations in implementing, 78–83; that contribute to professional research, 82, 90, 96–98; costs and benefits of, 72–77; defining expectations for, 120; generic, mapping student journeys onto, 83–84; impediments to successful completion of, 92–95; project management of, 86–87; question framing for, 126–129, 142; role and design of, 61–87; scientific model for, 83–84; student learning benefits from, 66–70; student performance parameters and, 81–82; successful, defined, 80; transformative, 36, 80–83, 90, 100–101, 211n5; types of, 72–77, 84. See also Undergraduate research
Research proposals, 74–75
Research resources, 73, 74, 87
Research résumé, 85, 146
Research skill development, as capstone goal, 34
Research studies, on capstone courses: foundational, 5–9; that inspired adoption and development, 3–5, 29–30; longitudinal, 206n4; multidisciplinary, 40, 41–42, 58; website resources on, 9, 202n1
Research Synthesis and Meta-Analysis (Cooper), 74
Resource allocation: capstone design and, 109–110; class size and, 51; institutional change and, 36; institutional type and, 44; for undergraduate research, 78–80. See also Costs
Rider College, 26–27
Rite of passage, 20–22, 163–165, 197–198. See also Student transitions
