## CONTENTS

**ACKNOWLEDGEMENTS**  
xiii

1 DATA MINING IN CRM  
1. The CRM Strategy  
2. What Can Data Mining Do?  
   2.1 Supervised/Predictive Models  
   2.2 Unsupervised Models  
   2.3 Data Mining in the CRM Framework  
      2.3.1 Customer Segmentation  
      2.3.2 Direct Marketing Campaigns  
      2.3.3 Market Basket and Sequence Analysis  
   2.4 The Next Best Activity Strategy and “Individualized” Customer Management  
3. The Data Mining Methodology  
4. Data Mining and Business Domain Expertise  
5. Summary  

2 AN OVERVIEW OF DATA MINING TECHNIQUES  
17. Supervised Modeling  
   17.1 Predicting Events with Classification Modeling  
       17.1.1 Evaluation of Classification Models  
       17.1.2 Scoring with Classification Models  
       17.2 Marketing Applications Supported by Classification Modeling  
       17.3 Setting Up a Voluntary Churn Model  
       17.4 Finding Useful Predictors with Supervised Field Screening Models  
       17.5 Predicting Continuous Outcomes with Estimation Modeling  
20. Unsupervised Modeling Techniques  
   20.1 Segmenting Customers with Clustering Techniques  
   20.2 Reducing the Dimensionality of Data with Data Reduction Techniques  
   20.3 Finding “What Goes with What” with Association or Affinity Modeling Techniques  
   20.4 Discovering Event Sequences with Sequence Modeling Techniques  
   20.5 Detecting Unusual Records with Record Screening Modeling Techniques  
23. Machine Learning/Artificial Intelligence vs. Statistical Techniques  
24. Summary  

COPYRIGHTED MATERIAL
3 DATA MINING TECHNIQUES FOR SEGMENTATION

Segmenting Customers with Data Mining Techniques 65
Principal Components Analysis 65
  PCA Data Considerations 67
  How Many Components Are to Be Extracted? 67
  What Is the Meaning of Each Component? 75
  Does the Solution Account for All the Original Fields? 78
  Proceeding to the Next Steps with the Component Scores 79
  Recommended PCA Options 80
Clustering Techniques 82
  Data Considerations for Clustering Models 83
  Clustering with K-means 85
    Recommended K-means Options 87
  Clustering with the TwoStep Algorithm 88
    Recommended TwoStep Options 90
  Clustering with Kohonen Network/Self-organizing Map 91
    Recommended Kohonen Network/SOM Options 93
Examining and Evaluating the Cluster Solution 96
  The Number of Clusters and the Size of Each Cluster 96
  Cohesion of the Clusters 97
  Separation of the Clusters 99
Understanding the Clusters through Profiling 100
  Profiling the Clusters with IBM SPSS Modeler’s Cluster Viewer 102
  Additional Profiling Suggestions 105
Selecting the Optimal Cluster Solution 108
Cluster Profiling and Scoring with Supervised Models 110
An Introduction to Decision Tree Models 110
  The Advantages of Using Decision Trees for Classification Modeling 121
  One Goal, Different Decision Tree Algorithms: C&RT, C5.0, and CHAID 123
    Recommended CHAID Options 125
Summary 127

4 THE MINING DATA MART 133

Designing the Mining Data Mart 133
The Time Frame Covered by the Mining Data Mart 135
The Mining Data Mart for Retail Banking 137
  Current Information 138
    Customer Information 138
    Product Status 138
  Monthly Information 140
    Segment and Group Membership 141
    Product Ownership and Utilization 141
    Bank Transactions 141
  Lookup Information 143
    Product Codes 144

5 CUSTOMER SEGMENTATION

An Introduction to Customer Segmentation

Segmentation in Marketing

Segmentation Tasks and Criteria

Segmentation Types in Consumer Markets

Value-Based Segmentation

Behavioral Segmentation

Propensity-Based Segmentation

Loyalty Segmentation

Socio-demographic and Life-Stage Segmentation
CONTENTS

Needs/Attitudinal-Based Segmentation 199
Segmentation in Business Markets 200
A Guide for Behavioral Segmentation 203
Behavioral Segmentation Methodology 203
- Business Understanding and Design of the Segmentation Process 203
- Data Understanding, Preparation, and Enrichment 205
- Identification of the Segments with Cluster Modeling 208
- Evaluation and Profiling of the Revealed Segments 208
- Deployment of the Segmentation Solution, Design, and Delivery of Differentiated Strategies 211

Tips and Tricks 211
Segmentation Management Strategy 213
A Guide for Value-Based Segmentation 216
Value-Based Segmentation Methodology 216
- Business Understanding and Design of the Segmentation Process 216
- Data Understanding and Preparation –Calculation of the Value Measure 218
- Grouping Customers According to Their Value 218
- Profiling and Evaluation of the Value Segments 219
- Deployment of the Segmentation Solution 219

Designing Differentiated Strategies for the Value Segments 220
Summary 223

6 SEGMENTATION APPLICATIONS IN BANKING 225
Segmentation for Credit Card Holders 225
- Designing the Behavioral Segmentation Project 226
- Building the Mining Dataset 227
- Selecting the Segmentation Population 228
- The Segmentation Fields 230
- The Analytical Process 233
- Revealing the Segmentation Dimensions 233
- Identification and Profiling of Segments 237
- Using the Segmentation Results 256

Behavioral Segmentation Revisited: Segmentation According to All Aspects of Card Usage 258

The Credit Card Case Study: A Summary 263
Segmentation in Retail Banking 264
- Why Segmentation? 264
- Segmenting Customers According to Their Value: The Vital Few Customers 267
- Using Business Rules to Define the Core Segments 268
- Segmentation Using Behavioral Attributes 271
- Selecting the Segmentation Fields 271
- The Analytical Process 274
- Identifying the Segmentation Dimensions with PCA/Factor Analysis 274
- Segmenting the “Pure Mass” Customers with Cluster Analysis 276
- Profiling of Segments 276
