INDEX

achievement-driven behaviour 3–5, 12–19, 20–1, 140–1, 151–3, 172–3, 182–3, 186–8, 190–201, 209, 238–9, 262–3, 267–8
activity schedules, concepts 38–9, 60–9, 134–6, 155, 162–6, 171–3, 190–211, 230–3, 236–9
acute bipolar depression see also depression treatments 27–43, 58–69, 238–9
acute mania see also mania treatments 27–8, 29–30, 32–43, 58–69, 238–9
adaptive behaviour patterns, concepts 188
adolescent sufferers, concepts 275–6
affective style (AS), FFT concepts 35–6, 261–78
agendas, treatments 65–9
aggression see anger
agitation 167–8, 202–3, 208, 217–24 see also irritability
alcohol 2, 8, 16–19, 20, 34, 133–4, 181, 190, 202–3, 208, 211, 243–4, 274
alternatives to drugs 27–8, 30, 31, 35–43, 45–56 see also psychotherapy
Altman Self Rating Mania Scale (ASRM), concepts 81, 104–5
American Psychiatric Association (APA) 1, 3, 189, 195 see also Diagnostic and Statistical Manual...

amitryptilline 73–5, 145
CBT techniques 257
concepts 256–7, 264–9, 272–3
coping strategies 256–7
cue-controlled relaxation 257
definition 256–7
marriage/couple relationships 264–5, 272–3, 280–1
anger management, concepts 257
anticonvulsant mood stabilizers see antiepileptic drugs
antidepressants see also MAO inhibitors; SSRIs; tri-cyclics
concepts 31–2, 73–5, 142, 144–5, 226–7
definition 142, 144–5
antiepileptic drugs see also carbamazole; lamotrigine; lithium; valproate
concepts 28–32, 34, 142, 143–4
antimanics see also antiepileptic drugs; mood stabilizers
concepts 28–30, 142, 143–4
antipsychotics see also aripiprazole; clozapine; haloperidol; olanzapine; quetiapine; risperidone
concepts 28–30, 32–3, 142–3, 145–6

Cognitive Therapy for Bipolar Disorder: A Therapist’s Guide to Concepts, Methods and Practice
Second Edition  By Dominic H. Lam, Steven H. Jones and Peter Hayward
© 2010 John Wiley & Sons Ltd.
antipsychotics (Continued)
definition 142–3, 145–6
side effects 29, 30, 34, 145–6
anxiety, concepts 3–5, 7–8, 12–19, 172–3, 178–9, 186–8, 201–2, 257, 281
anxiolytics (tranquilizers)
see also benzodiazepines; diazepam
concepts 30, 73–5, 142, 146, 287–8
apathy 3, 12–19, 20, 60–9, 81–3, 226–34, 262–3
appointments, treatments 65–9
aripiprazole
see also antipsychotics
concepts 28
‘armamentarium’ of treatments 28–9
artistic people, concepts 20–1, 285
assertiveness skills, concepts 134–6, 221–2, 250–1
assessments
see also diagnoses
pre-therapy assessments 59, 63–9, 71–122, 126–36, 206–7, 263–4
assumptions
dysfunctional assumptions 49–51, 55–6, 57–69, 71, 76–8, 87–90, 161–2, 168–79, 185–8, 222, 239, 241–4, 245–9
if-then aspects 187–8
attribution errors, concepts 55–6
atypical (second-generation)
antipsychotics see antipsychotics
Australian National Survey 23–4
automatic dysfunctional thoughts
see also perceptions...
concepts 168–79, 187–8, 241–4, 245–9
autonomy themes
concepts 48, 76–8, 133–4, 155–6, 290–1
SAS 48, 76–8
avoidance
concepts 242, 245, 257–9
coping strategies 258
barriers to treatment 132–6, 214, 243–4, 248–9, 288–90
BAS see behavioural-activation-and-reward-responsiveness diathesis-stress model
Beck Depression Inventory (BDI) 64, 66, 79, 80, 226
Beck Hopelessness Scale (BHS), concepts 66, 82
Beck Scale for Suicide Ideation (BSI), concepts 82–3
behavioural engagement (BE), concepts 51, 59–69
behavioural experiments, CBT
techniques 67–9
behavioural techniques
activity schedules 38–9, 60–9, 134–6, 155, 162–6, 171–3, 190–211, 230–3, 236–9
adaptive behaviour patterns 188
delaying tactics 183–5, 207–8, 236, 268–71, 272–3, 281, 283–4
dietary needs 63–9, 131, 138, 196, 236
dysfunctional assumptions 185–8, 245–9
experientially derived
knowledge 185–8
graded task assignments 204–6, 245–6
medication issues 203–4, 213–14, 248–9, 288–90
mood and activity
schedules 190–211, 236–9
planning 196–201, 204–6, 245–9, 276–7
pleasurable/non-task activities 196, 197–201, 210, 211, 229–34, 238–9
relaxation training 66–9, 134, 198–9, 201–3, 210, 257, 287–8
safe thrills 210–11
self-management principles 235–9, 246–9
sitting/listening targets 207–8
sleep routines 193–6, 202–4, 210, 211, 213–39
stimulus controls 189, 208–11, 216–25, 236–9
types 161–2, 189–211, 213–14, 235–9
vicious circles 192, 198–211, 227–33, 238–9

beliefs concepts 72–5, 76–8, 87–90, 124–36, 241–4, 245–9, 284–5
dysfunctional attitudes in bipolar disorder 49–51, 55–6, 57–69, 71, 76–8, 87–90, 161–2, 168–79, 185–8, 241–4, 245–9
perceptions of the illness 64–6, 71–6, 123–46, 168–79, 213–14, 242–4, 245–9, 268–9, 284–5, 288–90

benefits associated with bipolar disorder 20–1, 129–32, 161–2, 179–83, 189–90, 210–11, 221–4, 268–9, 283–4
benzodiazepines, concepts 30, 146
biased thinking, concepts 166–8

biological vulnerabilities see also circadian rhythms
concepts 46–56, 57–69, 71, 76–8, 124–6, 137–8, 238–9, 246–9
intervention concepts 62–9, 124–6, 138–41, 238–9, 246–9

bipolar disorder see also depression; diagnoses; hypomania; mania; symptoms; treatments
causes 8, 54–6, 57–69, 124–6, 137–8, 189–90, 242–4
challenges 10–11
charming clients 280–1
concepts 1–25, 137–8, 242–3, 261–78
courses 3–5, 6–11, 31–2, 35
definition 1–2, 137–8, 242–3
epidemiology 1–2, 5–11
fluctuating disease processes 2–3, 161–2, 165–6
historical background 2–3
holistic approaches 57–69, 246–9
information sheets 123–6, 137–41, 266–7
introduction 1–25
life charts 71–5, 126, 129–32
mortality rates 24
onset 1, 5, 7–8, 19–20, 46–56, 57–69, 71–5, 275–6
prevalence 1–2, 5–9
problem lists 126–9, 206–7, 287–8
recurrence issues 1–2, 5–9, 20
schizophrenia 22–3, 35–6, 227–9, 234, 249, 263, 264–5
social classes 6, 7–8
social costs 21–5, 129–32, 181–3, 253–6, 262–78
soft concepts 19–20
spectrum 2, 24–5, 31–2, 72–5, 79–81, 154–5, 246–9, 258–9
substance abuse 1–2, 8, 11, 16–19, 20, 21–2, 34, 63–4, 133–4, 181, 190, 202–4, 208, 211, 243–4, 274, 290
suicidal thoughts 1–2, 3, 9–11, 32, 47–8, 66, 71, 81–3, 262, 274
timescales 3–5, 6–11, 32, 121–2
bipolar I disorder
concepts 4–5, 6, 8, 23–4, 35, 47–50, 169–70, 275
definition 4
bipolar II disorder
concepts 4–5, 8, 9, 27–8
definition 4
BPRS measure 12, 215
British Association for Psychopharmacology 30
burdens on families 262–78
burn-out costs 186–8, 191–2, 198–201, 209, 211
shame 242, 249–59, 264
trust factors 149–50, 162, 213–39, 277–8, 279–82
clinical trials, efficacy concepts 28
clonazepam, concepts 30
clozapine  see also antipsychotics concepts 30
cognitive behavioural therapy (CBT) activity schedules 38–9, 60–9, 134–6, 155, 162–6, 171–3, 190–211, 230–3, 236–9, 241–59, 268–78, 287–92
agendas 65–9
anger 257
arguments for CBT 61–2
behavioural experiments 67–9
costs 38
dysfunctional assumptions 67–9, 161–2, 168–79, 185–8, 222, 239, 241–4, 245–9
early warning signs 67–9, 124–36, 139–41, 148–9, 162–6, 213–39
effectiveness 37–9, 40–1, 76–86, 161, 258–9
goal-setting issues 64–6, 123–4, 126–7, 147–60, 193–201, 219–33, 282
life charts 71–5, 126, 129–32
long-term losses 241–4
outline of proposed treatment 64–9
prodrome skills 61–9, 139–41, 154–5
roles 49, 213–14
self-management issues 63, 68–9, 140–1, 198–201, 213–39, 246–9
skills 61–9, 136, 154–5, 170–3, 189–211
stages 64–9, 138–41, 147–60
statistics 37–9, 40–1
thought-monitoring/challenging techniques 67–9, 138–41, 155, 161–2, 168–79, 229–34, 250–4
cognitive techniques automatic dysfunctional thoughts 168–79, 187–8, 241–4, 245–9
costs/benefits analysis 181–3, 189–90, 268–71
definition 138, 161–2, 213–14
delaying cognitions/tactics 162, 183–5, 207–8, 236, 268–71, 272–3, 281, 283–4
grandiosity issues 179–83, 209, 283–5
