Index

Note: Page number followed by f and t indicates figure and table respectively.

Abdominal organs
- duodenum, 158, 158f
- glandular saccules, 157, 158f
- kidneys, 159, 159f
- large intestinal tract, 158
- liver, 158–159, 159f
- small intestinal tract, 158
- spleen, 157
- stomach compartments, 157–158, 158f

Abdominal ultrasound
- equipment for, 161
- hyperechoic lesions within hepatic parenchyma, 164f
- indication/purpose for, 161
- left kidney, 163, 164f
- liver, 162, 162f, 163f, 164
- practice tip, 164
- restraint/position for, 161
- right kidney, 163, 163f, 164f
- small bowel, 163
- technique, 161–164

Abdominocentesis
- aftercare/monitoring, 170
- complications, 170
- equipment for, 167
- indication/purpose for, 167
- practice tip, 170
- restraint/position for, 167
- technique, 167–170, 168f–169f
- depression of linea alba, 168f
- flowing of peritoneal fluid, 169f
- location for paracostal abdominocentesis, 168f
- peritoneal fluid collection, 169f
- scalpel blade for stab incision, 168f
- teat cannula insertion, 168f

Absorbable suture materials, 188, 194

Accessory glands, examination of
- aftercare/monitoring, 283
- complications, 283
- equipment for, 281
- indication/purpose for, 281
- practice tip, 283
- restraint/position for, 281
- technique
  - bulbourethral glands, 281–282, 282f, 282t
  - prostate glands, 282, 282f, 283f

Acepromazine, 36, 37t

Anemia, 334

Anesthesia, injectable
- aftercare/monitoring, 42
- complications, 42
- equipment for, 39

Anesthesia, injectable (Continued)
  indication/purpose for, 39
  patient assessment before, 39
  practice tips, 41
  restraint/position for, 39–40
  technique, 40–41, 41t
Artificial breeding technologies, 287. See also
  Semen, collection and evaluation of
Artificial vaginas (AV), 289
Atipamezole, 37, 37t, 42
Atropine sulfate, 37t, 40, 311
Auricular artery/vein catheterization
  aftercare/monitoring, 70
  complications, 70
  indication/purpose for, 69
  practice tip, 70
  restraint/position for, 69
  technique, 69–70, 70f
Balfour self-retaining abdominal retractors, 189, 195
Behavior, social, 3–4
Biopsy
  liver, 171–174
  punches, 133
  skin, 131–133
Blood collection bags, 334, 334f
Blood transfusion
  aftercare/monitoring, 335
  complications, 335
  equipment for, 333
  indication/purpose for, 333
  practice tips, 335
  restraint/position for, 333
  technique, 333–334, 334f–335f
Body condition score (BCS), 254–255
Bone sequestra, 108, 114
Braided suture, 259
Breast pump, 255
Breeding studs, 275
Bulbourethral glands, 274, 281–282, 282f, 282t
Butorphanol, 36, 37t
BXK (butorphanol/xylazine/ketamine)
  anesthesia, 40, 41t
Camelid “peel away” catheters, 58, 60f
Capture techniques, 4–7, 5f–7f
  herd, 4–5, 5f
  individual, 5–7, 5f–7f
Carboxymethylcellulose jelly, 188
Castration
  aftercare/monitoring, 296
  complications, 296
  equipment for, 293
  indication/purpose for, 293
  practice tip, 296
  restraint/position for, 293
  technique, 293–296
  anesthetic options, 293–294
  precautions, 296
  preoperative preparation, 293
  prescrotal castration, 294–295, 294f–296f
  scrotal approach, 296
Catheterization
  auricular artery and vein, 69–70
  caudal epidural anesthesia, 81–82
  cephalic vein, 63–64
  epidural, 83–86
  femoral artery, 71–72
  intramedullary cannulation, 73–76
  intraperitoneal cannula, 77–79
  jugular vein, 57–62
  lateral thoracic vein, 67–68
  lumbo-sacral epidural anesthesia, 89–91
  saphenous vein, 65–66
Cattle hobbles, 20, 21f
Cattle rope halter, 11, 12f
Caudal epidural anesthesia
  aftercare/monitoring, 82
  complications, 82
  equipment for, 81
  indication/purpose for, 81
  practice tips, 82
  restraint/position for, 81
  technique, 81–82, 82f
Ceftiofur sodium, 215
Cephalic catheterization
  aftercare/monitoring, 64
  complications, 64
  equipment for, 63
  indication/purpose for, 63
  practice tips, 63
  restraint/position for, 63
  technique, 63, 64f
Cerebrospinal fluid (CSF), collection and interpretation
  aftercare/monitoring, 308
  complications, 308
  CSF characteristics, 307
  CSF reference ranges, 307t
equipment for, 305
indication/purpose for, 305
practice tip, 308
restraint/position for, 305
technique, 305–308
  needle insertion in lumbosacral space, 306f
  needle placement for AO CSF tap, 306f
  site for lumbosacral CSF tap, 306f
Cervical rings, 239
Cervical subluxation and fracture, 95, 96f
Cesarean section, 261
  aftercare/monitoring, 263
  complications, 263
  equipment for, 261
  indication/purpose for, 261
  practice tip, 263
  restraint/position for, 261–262
  technique, 262–263
Choanal atresia, 147
  clinical signs of, 147
  field diagnosis of
    aftercare/monitoring, 150
    complications, 150
    equipment for, 148
    indication/purpose for, 147, 148f
    practice tip, 149
    restraint/position for, 148
    technique, 148–149, 149f–150f
Chorioptes spp. mites, 128, 128f
Chute restraint
  aftercare/monitoring, 25
  complications, 24–25
  equipment for, 23
    alpaca chute, 24f
    llama chute, 24f
    restraint straps, 24f
  indication/purpose for, 23
  position for, 23
  practice tips, 23–24
  technique of, 23, 24f–25f
Closprostenol, 263
Computed tomography (CT)
  choanal atresia, 149
  otitis interna, 119f, 120
Congenital defects, 147, 240–241. See also Choanal atresia
Conjunctival pedicle graft
  aftercare/monitoring, 329
  complications, 329
equipment for, 327
indication/purpose for, 327
practice tip, 329
restraint/position for, 327
  technique, 327–329, 328f–329f
Conjunctivorrhinostomy, 317
  aftercare/monitoring, 318
  complications, 318
  equipment for, 317
  indication/purpose for, 317
  practice tip, 318
  restraint/position for, 317
  technique, 318
Copulation, 239–240
Corpus cavernosus penis (CCP), 273
Corpus spongiosus penis (CSP), 273
Creatine kinase (CK), 308
Crias
  choanal atresia, 147 (see also Choanal atresia)
  gestational age, 247
  teeth, 101
Cryptorchidism, 241, 285
C-3 ulcers, 162
Cushed posture. See Sternal recumbency
Cyctocentesis
  aftercare/monitoring, 235
  complications, 234–235
  equipment for, 233
  indication/purpose for, 233
  practice tip, 234
  restraint/position for, 233
  technique, 233–234, 234f
Demodex spp., 128
Dental disease, 105. See also Tooth extraction
Dental examination and trimming
  aftercare/monitoring, 103
  complications, 103
  equipment for, 99
  indication/purpose for, 99
  practice tip, 103
  restraint/position for, 99
  technique, 99–102, 99f–102f
Dermatologic diseases, 123. See also Skin
Diazepam, 36, 37t
Dinoprost, 263
Dobutamine, 37t
Domperidone, 255
Doxapram, 37t
Doyen intestinal forceps, 189
Dystocia, 261. See also Cesarean section
Ear, examination of, 117, 118f
   equipment for, 118
   imaging studies, 119f
   indication/purpose for, 117
   otitis media/interna, 118f
   restraint/position for, 118
   technique, 118–120, 119f

Ear squeeze, 15, 16f
   complications, 28
   equipment for, 27
   indication/purpose for, 27
   position for, 27
   practice tips, 28
   technique of, 27–28, 27f–28f

Ear twitch. See Ear squeeze

Ejaculatory thrusts, 275

Electroejaculation (EEJ), 289

Endotracheal tube, 45f, 46

Enterotomy, 188

Epidural catheterization
   aftercare/monitoring, 86
   complications, 86
   equipment for, 83, 84f
   indication/purpose for, 83
   practice tip, 85
   restraint/position for, 83
   technique, 83–85, 84f–86f

Epinephrine, 37t

Extirpation of eye. See Ocular extirpation

Eye exams
   aftercare/monitoring, 313
   complications, 313
   equipment for, 311
   indication/purpose for, 311
   practice tip, 313
   restraint/position for, 311
   technique, 311–313, 312f–313f
      normal anterior segment anatomy, 312, 312f
      normal posterior segment anatomy, 312–313, 313f

Fat pad, 169

Femoral artery catheterization
   aftercare/monitoring, 72
   complications, 72
   equipment for, 71
   indication/purpose for, 71
   restraint/position for, 71
   technique, 71–72, 71f–72f

Fence lines, 4–5

First-compartment fluid aspiration and examination
   aftercare/monitoring, 178
   chloride examination, 177
   complications, 178
   equipment for, 175
   Gram stained C1 fluid, 177f
   indication/purpose for, 175
   methylene blue reduction time, 177, 177f
   normal fluid values, 176f
   protozoa in fluid, 176, 176f
   restraint/position for, 175
   sedimentation time, 177
   technique, 175–177, 176f–177f

Flank laparotomy, for C-section, 262. See also Cesarean section

“Flight zones”, 4

Follicle development, 240f

Foot pad, 209, 210f

Ford Interlocking pattern, for skin closure, 188

Gaits, 210, 210f

Gas anesthesia, 183, 191

Gastric ulcers, 157

Genital anatomy
   female, 239–240
   male, 273–275, 274f

Guide wire, 52, 53f

Halter, 6, 6f, 7f, 11, 12f, 16, 17f, 19

Haltering
   complications, 13
   equipment for, 11, 12f
   indication/purpose for, 11
   position for, 11
   practice tips, 11, 12f
   technique of, 11, 12f

Head and neck
   anatomic description, 95–96, 95f–96f
   examination and handling
      complications, 98
      practice tip, 98
   restraint/position for, 97
   technique, 97–98, 97f–98f

Herds, assessment of, 3–4

Huck towel, 11, 12f

Hysterotomy. See Cesarean section
Idiopathic polypoid cystitis, 229, 230f
Injections
  aftercare/monitoring, 32
  complications, 31–32
  equipment for, 29
  indication/purpose for, 29
  intradermal, 29–30, 30f
  intramuscular, 29, 30f
  intravenous, 30–31, 31f
  practice tips, 31
  restraint/position for, 29
  subcutaneous, 29, 30f
  technique, 29–31
Intestinal resection, 189
Intradermal (ID) injections, 29–30, 30f. See also Injections
Inframammary infusions, 254
Inmediadavillar cannulation of femur
  aftercare/monitoring, 76
  complications, 76
  equipment for, 73
  indication/purpose for, 73
  practice tips, 75
  restraint/position for, 73
  technique, 74–75, 74f–75f
Intramuscular (IM) injections, 29, 30f. See also Injections
Intraperitoneal (IP) administration, of plasma. See Intraperitoneal canules
Intraperitoneal canulas
Intravenous (IV) injections, 30–31, 31f. See also Injections
Intubation of C1/rumen. See Rumen intubation
Involuntary grouping, 3

Jugular vein
  blood samples from, 16, 17f
  catheterization, 57–62
  aftercare/monitoring, 62
  complications, 62
  equipment for, 57
  indication/purpose for, 57
  practice tips, 62
  restraint/position for, 57
  technique, 57–58, 58f–62f
  intravenous injections, 30–31, 31f
  J-wire catheters, 58, 61f–62f
  Ketamine-diazepam anesthesia, 41, 41t
  Ketamine-Stun drug combination, 36, 37t
  Kidneys, 159, 159f, 219
  ultrasound, 228, 228f
  Laparoscopy, 197
    aftercare/monitoring, 201
    complications, 200
    equipment for, 197
    indication/purpose for, 197
    practice tip, 200
    restraint/position for, 197–198
    technique, 198
      lateral abdominal approach, 198–199
      operative laparoscopy, 199–200
      ventral abdomen approach, 199
  Laparotomy, 183
    lateral, 183–189 (see also Lateral laparotomy)
    ventral midline, 191–195 (see also Ventral midline laparotomy)
  Laryngoscope, 43, 44f, 53f
  Lateral laparotomy
    aftercare/monitoring, 189
    approach for, 184–185, 184f–187f
    complications, 189
    equipment for, 183
    indication/purpose for, 183
    intestinal obstruction, operative techniques for
      enterotomy, 188
      intestinal resection, 189
    practice tip, 189
    preparation for, 184
    restraint/position for, 183–184, 184f
    wound closure, 185, 187–188, 188t
  Lateral thoracic vein catheterization
    aftercare/monitoring, 68
    complications, 68
    equipment for, 67
    indication/purpose for, 67
    practice tips, 67–68
    restraint/position for, 67
    technique, 67, 68f
  Lead rope, 5–6, 6f, 16, 17f, 19
  Libido, 275
  Lidocaine toxicity, 215, 262
Limb conformation, 211
Liver, 171, 172f
Liver abscesses, 174
Liver biopsy
  aftercare/monitoring, 174
  automatic biopsy instrument, 173f
  complications, 174
  equipment for, 171
  indication/purpose for, 171
  location of liver, 172f
  practice tip, 173
  restraint/position for, 171
  sample handling, 173–174
  site for blind liver biopsy, 172, 172f
  technique, 171–174, 172f–173f
  trace mineral status of animals and,
  174
Lumbo-sacral epidural anesthesia
  aftercare/monitoring, 91
  complications, 90–91
  equipment for, 89
  indication/purpose for, 89
  practice tip, 90
  restraint/position for, 89
  technique, 89–90, 90f–91f
Lung sounds, 141
Male genitalia, anatomy, 273–275, 274f
Mammary system, 253–254. See also Teat and udder examination
Manual restraint
  aftercare/monitoring, 21
  complications, 21
  equipment for, 15
  indication/purpose for, 15
  position for, 15
  practice tips, 20, 21f
  technique of
    lateral recumbency, 20, 20f
    standing restraint, 15–18, 16f–18f
    sternal recumbency, 18–19, 19f
Manual ventilation assistance devices, 46, 46f, 48, 49f
Mastectomy
  aftercare/monitoring, 260
  complications, 260
  equipment for, 257
  indication/purpose for, 257
  practice tip, 260
  restraint/position for, 257
  technique, 257–260, 258f–260f
Mastitis, 253. See also Teat and udder examination
  acute, 254
  subclinical, 254
  treatment of, 254
Mental nerve, anesthetic blockade of, 106, 106f
Metzenbaum scissors, 204
Milk production, poor, 253. See also Teat and udder examination
Mouth gags, 97, 107
Musculoskeletal anatomy
  ambulation, 210, 210f
  and examination, 209–211, 210f
  aftercare/monitoring, 211
  complications, 211
  equipment for, 211
  practice tip, 211
  restraint/position for, 211
  technique, 211
  foot anatomy, 209, 210f
  leg conformation, 211
Nasogastric tubes, 182. See also Rumen intubation
Nasolacrimal flushing, 312
Nasolacrimal (NL) duct, 312
  cannulation
    aftercare/monitoring, 316
    complications, 316
    equipment for, 315
    indication/purpose for, 315
    practice tip, 316
    restraint/position for, 315
    technique, 315–316, 316f
    function of, 312
    obstruction of, 317 (see also
      Conjunctivorhinostomy)
    occlusion of, 312
Nasotracheal intubation
  aftercare/monitoring, 50
  complications, 49–50
  equipment for, 47
  indication/purpose for, 47
  practice tips, 48–49
  restraint/position for, 47
  technique, 47–49, 48f–49f
  ventral placement, 48f
Neck. See Head and neck
Neurologic evaluation, 301

restraint/position for, 203
technique
preparation, 203–204, 204f
procedure, 204–206, 204f–206f
Rumen tympanites, 179
Saphenous catheterization
aftercare/monitoring, 66
complications, 66
equipment for, 65
indication/purpose for, 65
restraint/position for, 65
technique, 65, 66f
Sarcoptes sp. mites, 127, 128f
Scalpel blade No. 15, 78, 78f
Schiotz tonometry, 312
Scrotal castration, 296. See also Castration
Scrotum and testicles, examination of
aftercare/monitoring, 286
complications, 286
equipment for, 285
indication/purpose for, 285
practice tips, 286
restraint/position for, 285
technique, 285–286, 286f
Sedation/tranquilization
aftercare/monitoring, 37–38
complications, 36–37
drugs for, 36, 37f
equipment for, 35
indication/purpose for, 35
patient assessment before, 35
practice tips, 36
restraint/position for, 35–36
technique, 36
for transrectal examination of males, 283
Segmental aplasia, 241
Semen, collection and evaluation of
aftercare/monitoring, 291
complications, 291
equipment for, 287
indication/purpose for, 287
practice tip, 290–291
restraint/position for, 288
technique, 288–290, 288f–290f
Septic peritonitis, 206
Sigmoidoscope light adaptor, 249, 250f. See also Vaginoscopy and uterine culture
Sign-Time Graph, 301, 302f
Skin
anatomical evaluation
fiber, 123, 124f–125f
indication/purpose for, 123
interdigital space, 123, 126f
metatarsal glands, 123, 125f
restraint/position for, 123
technique, 123–126
thick cervical skin, 123, 125f
biopsy
aftercare/monitoring, 133
complications, 133
equipment for, 131
indication/purpose for, 131, 132f
practice tips, 133
restraint/position for, 131
technique, 131–133, 132f–133f
interdigital pododermatitis, 126
problems from ectoparasites, 126
  scrapings
    aftercare/monitoring, 129
    complications, 129
    equipment for, 127
    indication/purpose for, 127
    practice tip, 128
    restraint/position for, 127
    technique, 127–128, 128f
Spitting behavior, huck towel for, 11, 12f
Splenic torsion, 157
Standing restraint, 15–18, 16f–18f. See also Manual restraint
Stay sutures, 204f, 205, 205f
Sternal recumbency, 18–19, 19f. See also Manual restraint
Stranguria, 227. See also Ultrasound
Streptococcus zooepidemicus infection, 163
Stromal abscess, 328f. See also Conjunctival pedicle graft
  conjunctival flap for, 329f
Stylette, 43, 44f, 45f, 46
Subcutaneous (SC) injections, 29, 30f. See also Injections
  Subpalpebral lavage system
    aftercare/monitoring, 326
    complications, 326
    equipment for, 323, 324f
    indication/purpose for, 323
    practice tip, 325–326
    restraint/position for, 323
    technique, 323–325, 324f–326f
Teat and udder examination
  complications, 255
  equipment for, 253
  indication/purpose for, 253
  milk and mastitis, 254
  poor milkability and, 254–255
  practice tip, 255
  related anatomy, 253–254, 254f
  technique, 253–255
Teat cannulas, 78, 78f, 79f
Teeth, 97–98, 97f
  anatomy, 100–101, 100f, 101f
  cheek, 98, 98f, 100, 101
  crias, 101
  fighting, 96, 102, 103
  trimming, 101–102, 101f, 102f
Testicle, 285–286
  biopsy of, 286
Tetanus toxoid, 293
Thorax anatomy and auscultation
  auscultation field, 141, 142f
  equipment for, 141
  heart, 142
  indication/purpose for, 141
  lungs, 141
  restraint/position for, 141
  ribs, 141, 142f
  technique, 141–142, 142f
Thumb forceps, in skin biopsy, 132, 133f
Toenail trimming, 16, 18f. See also Manual restraint
  aftercare/monitoring, 137
  complications, 137
  equipment for, 135, 135f
  indication/purpose for, 135
  practice tip, 137
  restraint/position for, 135
  technique, 135–137, 136f–137f
  v’-shaped toenail, 135, 136f
Tolazoline, 37, 37t, 42
TonoPen®/TonoVet®, 312
Tooth extraction
  lateral approach
    aftercare/monitoring, 114
    complications, 114
    equipment for, 111
    indication/purpose for, 111
    restraint/position for, 111
    technique, 111–113, 112f–114f
  oral approach
    aftercare/monitoring, 108
    complications, 108
    equipment for, 105
    indication/purpose for, 105, 106t
    practice tip, 107
    restraint/position for, 105
    sedation/anesthesia for, 106
    technique, 105–108, 106f–108f
Tooth root abscess, 105, 106t, 111. See also Tooth extraction
Tracheostomy, 143
  aftercare/monitoring, 146
  complications, 146
  equipment for, 143
  indication/purpose for, 143
  practice tip, 146
  restraint/position for, 143
  technique, 144–145
    direct tracheal intubation through site, 146f
    muscles separation, 144, 144f
    skin incision, 144, 144f
    skin suturing, 145, 145f
Tracheostomy (Continued)
  tracheal incision length, 144, 145f
  tracheotomy tube insertion, 145, 145f

Transfusion
  blood, 333–335
  plasma, 337–338
Transtracheal wash (TTW)
  aftercare/monitoring, 154
  complications, 153–154
  equipment for, 151
  indication/purpose for, 151
  practice tip, 153
  restraint/position for, 151
  technique, 151–153, 152f–153f

Trochophytobezoars, 188, 194
Tuohy needle, 84, 85f
U-bar mouth gags, 107
Udder amputation. See Mastectomy
Ultrasound gel, 164
Ultrasound of urinary system
  aftercare/monitoring, 230
  complications, 230
  equipment for, 227
  indication/purpose for, 227
  kidneys, 228f–229f
  practice tip, 229–230
  restraint/position for, 227–228
  technique, 228–229, 228f–230f
  urinary bladder, 229, 229f
Urethra, 219
Urethral catheterization
  aftercare/monitoring, 225
  complications, 225
  equipment for, 223
  indication/purpose for, 223
  practice tip, 225
  restraint/position for, 223
  technique, 223–225, 224f–225f
Urethral diverticulum, 274
Urinalysis, 220, 221t, 225t. See also Cytocentesis
Urinary tract
  anatomy, 219
  evaluation, 219–221, 220f, 221t
Uterine torsion, 265
  aftercare/monitoring, 269
  clinical signs of, 266
  complications, 269
  direction of, diagnosis of, 265
  equipment for, 266
  indication/purpose for, 265–266
  nonsurgical correction of, 267, 267f–268f
  occurrence of, 265
  practice tip, 269
  rectal palpation for diagnosis of, 266
  restraint/position for, 266
  technique, 266–268, 266f–268f

Vaginoscopy and uterine culture
  aftercare/monitoring, 252
  complications, 252
  equipment for, 249
  indication/purpose for, 249
  practice tip, 251–252
  restraint chute, use of, 251–252, 251f–252f
  restraint/position for, 249
  technique, 249–250, 250f–251f
Vascular catheterization
  auricular artery and vein, 69–70
  cephalic vein, 63–64
  femoral artery, 71–72
  jugular vein, 57–62
  lateral thoracic vein, 67–68
  saphenous vein, 65–66
Ventral midline laparotomy, 191–195
  aftercare/monitoring, 195
  complications, 195
  for C-section, 262 (see also Cesarean section)
  equipment for, 191
  indication/purpose for, 191
  intraluminal obstructions, exploratory
    examination for, 194
  practice tip, 195
  restraint/position for, 191–192
  suture selection and suture patterns, 195t
  technique, 192–195
    approach, 192, 192f–194f
    preparation, 192
    wound closure, 194, 195t
Vision testing, 301
  Wolf tooth extractor, 107f, 114f
Xylazine, 36, 37t, 234, 312
  reversal agents, 36–37, 37t, 42
  Yohimbine, 36–37, 37t, 42
