INDEX

A
Abedi, J., 67, 68–69, 70
Accessibility: accountability for, 104; for student subgroups, 47, 67–71. See also English Language Learners (ELLS)
Accountability: in assessment systems, 101, 102; capacity building and, 109–111; high-stakes testing and, 75; systems of, 103–105
Achieve, 6
Achievement outcomes, 4, 44, 52
“Acid Rain Task,” 32–34
Advanced Placement program, 9, 14, 61, 75, 122
Alberta, Canada, 62
A-level exams, 28
Analytic skills: assessment of, 90; defined, 17; in mathematics performance task, 27
Application of knowledge and skills: failure to test, 7; need for, in twenty-first century, 3; performance assessment for, 16, 43; US versus international performance in, 8
Artificial intelligence, 73, 77
Assessment: broader view of, 6; consequences of, 66–67; continuum of, 19–29; cost-benefit perspective on, 83–86, 107–108; costs of, 75–86; critical objectives for, 9–10; emerging opportunities for better, 9–14; for high-stakes decisions, 5–6; influence of, on learning, 3–8; twenty-first-century needs for, 1–3; in United States versus other countries, 8, 18
Assessment Solutions Group (ASG), cost models of, 79–83
Auditing, of performance tasks and scores, 62, 73, 74, 94, 102
Automated scoring, 63, 81. See also Computer-based assessment

B
Baron, J. B., 78
Benchmarks: international, 1, 9; for scoring, 46, 62, 63, 74
Best practices dissemination, 111
Biology exam, high school, 37–38
Black, P., 66
Bloom, B., 17
Bloom’s taxonomy, 17–18
Breland, H. M., 78
Brown, C., 52
Bubble test. See Multiple-choice tests

C
Calibration, 46, 61, 62–63, 72–73
California: performance assessments in, 4, 43, 44, 48–49, 78; teacher comments from, 48–49
California Assessment Program, 78
Camp, R., 78
Canada, Alberta, 62
Cape Cod Lighthouse Charter School, East Harwich, Massachusetts, 53–54
Career readiness. See College and career readiness
CCSS. See Common Core State Standards
Center for Collaborative Education, 116n.2:12
Center on Education Policy, 6–7
Certificates of Initial and Advanced Mastery, 90
Chelsea High School, Massachusetts, 54
China, 63
Classroom-based performance assessments:
in assessment systems, 89, 90; combined with centralized assessments, 35, 36–41, 90, 91–92; controlled, 36–37; in high-achieving nations, 35, 36–41, 45; for student learning opportunities, 44–45; for transferable skills, 41
Cognitive demand: of consortia assessments, 10; levels of, 4–5, 17–19; taxonomy based on, 4–5
Cognitive skills, taxonomy of, 17–19. See also Higher-order skills
Collaboration, educator, 52, 54, 73. See also Teacher discussions
Collaboration skills, 88
College admissions: multiple assessment data needed by, 89, 99, 100; student profiles for, 96–98, 111; tests for, 97
College and career readiness: beyond Common Core State Standards, 13; Common Core State Standards for, 1, 13, 87–88; competencies for, 13; defining, 109; in state assessment systems, 101; student profiles for, 96–98, 111; twenty-first-century needs for, 1–3; in United States versus other countries, 8
College and Work Ready Assessment, 23
College Board, 78, 122n.6:1
Collegiate Learning Assessment (CLA), 23–24, 63
Common Core State Standards (CCSS):
consortia assessments for, 10–13, 81, 83; emerging assessments for, 9–14; goal of, 1; limitations of, 13; standards of, that cannot be measured by consortia assessments, 87–88; teacher learning about, 53
Communication skills, 88
Computer navigation system, 73
Computer-based assessment: correlations of human-based assessment and, 63; cost reduction through use of, 81, 85; efficiencies of, 72–73; fairness of, 73; reliability of, 73; scoring in, 63, 72–73
Connecticut, 32–34, 43, 78, 90
Connecticut Assessment of Educational Progress, 78
Consequences, of assessment, 66–67
Consequential validity, 66–67
Consortia exams: for CCSS assessment, 10–14, 81, 83; complementary assessments to, 13–14; cost reduction through use of, 81, 83, 85; limitations of, 13, 87–88; for science standards, 9; standards not measured by, 87–88; in student profiles, 97
Construct irrelevant variance, 59
Constructed-response items: cognitive demand differences in, 18–19; defined, 17; with hands-on inquiry tasks, 22–23; types of, 21–22
Context, in performance task, 67
Continuous improvement, 111
Continuous inquiry and improvement, 53
Continuum of assessments, 19–29; assessment options in, 21–29; graphical depiction of, 20; item costs in, compared, 79–83; student role changes in, 19–20. See also Assessment systems
Contractor costs, 83
Cost-benefit perspective, 83–86, 107–108
Costs: Assessment Solutions Group (ASG) models of, 79–83; of assessments, 75–86; cost-benefit perspective on, 84–86, 107–108; of high-quality assessments (HQAs), 77–83; of multiple-choice tests, 75–77; of multiple-choice tests compared to performance assessments, 79–83; of open-ended assessments, 75; opportunity, 83–84; strategies for reducing, 81–83, 85, 108; variables in, 77–79
Council for Aid to Education, 23
Council of Chief State School Officers (CCSSO), 13
CPI calculator, 123n.4
Critique an Argument performance task, 23–24
Culminating projects, 28–29
Culture of inquiry, 51–54
Curriculum: impact of high-stakes testing on, 6–8; narrowing of the, 6–7; performance task alignment with, 59; rushing through the, 7
Curriculum-embedded performance tasks, examples of, 25–26
Cut scores, 98–99, 110–111

D
Delaware state assessment, 71–72
Diagnostic use, of performance assessments, 45, 70, 107
“Disaster in the Gulf Project,” 27–28
Distractor choices, 68
Double scoring, 63
Driving test, 15–16, 43

E
Economies of scale, 77, 79
Educational Testing Service (ETS), 9, 72
Efficiencies: with computer technology, 72–73; cost-reduction strategies and, 81–83, 85, 108; in task design, 71–72
Employers, assessment data needed by, 89, 100, 111
England, 36–37, 64, 91
English Language Arts performance tasks:
English Language Arts tests, US spending on, 75
English Language Learners (ELLs): ensuring fairness for, 67–71; linguistic modification for, 59, 68–71; task piloting for, 60, 70–71
Envision Schools, 116n.2:12
“Evaluating Amelia Earhart’s Life” performance task, 12
Evaluation skills, 17
Evidence-based teaching, 47, 51
Examinations boards, 62, 91
Expenditures: diminishing per capita, for high-quality assessments (HQA), 82; on US testing, 75–77, 123n.4. See also Costs
Explanation task, 59–60
External moderators, 62, 94

F
Factory skills, 2
Fairness, 47, 67–71, 73
Families, 99–100
Feasibility, 71–74
Federal accountability, 104–105
Field testing, 60–61
Financial aid decisions, 99
Finland, 35–36
Formative assessments: in assessment systems, 88, 102–103; computer-based, 72; as guidance for students, 95–96; positive consequences of, 66

G
Gagnon, L., 51
General Accountability Office (GAO), 4
General Accounting Office, 77
General Certificate of Secondary Education (GCSE), 36–37, 91
Geometry proofs, 78
“Golf Balls in Water” performance task, 11
Gordon Commission on Future Assessment in Education, 9–10
Grade point average, 97
Graduation decisions, 99
Graduation portfolios, 28–29, 32, 90–91
Growth, measuring, 63–65. See also Learning progressions

H
Hands-on inquiry tasks, 22–23
Hawaii, 59–60
“Heating Degrees Task,” 26
Helium gas balloons, simulation task, 22–23
Herman, J. L., 10
High-achieving nations: assessment systems of, 91–93; cost-benefit perspective and, 84; deeper coverage in, 8; examples of, 34–41; external testing in, 35–36; higher-order skill assessment in, 18; performance assessments in, 8, 34–41, 45
Higher-order skills: consortia assessments of, 10–14; failure to assess, in current US tests, 4–8, 18; high-achieving nations’ assessment of, 34–41; performance assessments as support for teaching, 50–51; taxonomies of, 4–5, 17–18; testing, concepts of, 17–19; in United States versus other countries, 18

Hill, R., 78

History tests, 21, 32

Hong Kong, 19, 63

Hybrid assessment model, 22

I

Illinois, 16–17

In-basket approach, 23–24

Industrial economy, 2

Innovation Lab Network, 13–14

Inquiry, culture of, 51–54

Inquiry standard, 90

Institute for Learning, University of Pittsburgh, 46

Instruction: coherence in, 51–54; influence of high-stakes testing on, 6–8

Instructional improvement: cost-benefit perspective and, 84–86; through evidence, 47, 51; performance assessment as support for, 9, 43–55; through teacher involvement in scoring, 46–45, 66

Interdisciplinary projects, 39–41

International Baccalaureate exam: costs of, 75, 122n.6:1; performance assessments in, 9, 14, 21–22, 28; score calibration in, 63

International competitiveness, 1, 3

International examples. See High-achieving nations

International reform, 3

International standards, 1, 9

International High School Network, 116n.2:12

 Interrater reliability, 61–63. See also Reliability

Issue analysis, 90

J

Johari, P., 53

Jones, R. J., 78

Juried exhibitions, 28, 116n.2:12

K

Kentucky: performance assessments in, 4, 32, 43, 44, 73, 74; scoring costs in, 78; writing portfolio of, 32, 58, 61

Knowledge, rapid expansion of, 2–3

L

Lane, S., 44, 59–60

Learning: influence of testing on, 3–8, 44; ways that performance assessment support, 43–55, 95–96. See also Student learning; Teacher learning

Learning opportunities. See Student learning opportunities
