## Contents

**Fundamentals of Health Promotion for Nurses**

### Chapter 3 Approaches to promoting health
*Susie Sykes*

- Introduction 42
- Perspectives of health 43
- Approaches to health promotion 44
- Models of health promotion 50
- Further reading and resources 58
- References 58

### Chapter 4 Creating supportive environments for health
*Amanda Hesman*

- Introduction 60
- Creating supportive environments 61
- A health promoting health service 65
- The hospital setting 66
- The pharmacy setting 68
- The school setting 70
- The prison setting 71
- Further reading and resources 74
- References 74

### Part Two Public Health Priorities

#### Chapter 5 Smoking
*Jenny Husbands and Jane Wills*

- Introduction 80
- Factors influencing smoking 81
- Prevalence of smoking 82
- Smoking as a public health priority 85
- Addressing smoking: tobacco control 87
- Addressing smoking: creating supportive environments 90
- Addressing smoking: developing personal skills and stopping people from starting to smoke 91
- Addressing smoking: developing personal skills and enabling people to quit 92
- The role of the nurse in addressing smoking 94
- Further reading and resources 95
- References 96

#### Chapter 6 Alcohol
*Jane Wills*

- Introduction 98
- The impact of alcohol on health 99
- Defining alcohol-related harm 100
Alcohol as a public health priority 103
The prevalence of drinking 103
The policy context 105
The role of the nurse in health promotion 110
Further reading and resources 111
References 112

Chapter 7 Sexual health 114
Jane Wills
Introduction 114
Defining sexual health 115
Why is sexual health a public health priority? 116
Sexual health inequalities in England 120
Factors contributing to sexual health 121
Addressing sexual ill health and promoting sexual health 122
The role of the nurse in health promotion 126
Further reading and resources 127
References 128

Chapter 8 Obesity 130
Jane Wills, Jenny Husbands and Muireann Kelly
Introduction 130
Defining obesity 131
Prevalence of obesity 133
Causes of obesity 135
Obesity as a public health priority 136
Policy context 137
Addressing obesity 138
Addressing obesity and promoting a healthy diet: health education 142
Addressing obesity in children: using social support 143
Addressing obesity and promoting physical activity: creating a supportive environment 144
Addressing obesity through public policy 144
The role of the nurse in tackling obesity 146
Further reading and resources 147
References 148

Chapter 9 Long-term conditions 150
Sandie Woods
Introduction 150
Long-term conditions as a public health priority 151
Health policy context 154
Approaches to long-term conditions: developing personal skills and self-management 155
Approaches to long-term conditions: developing personal skills: telehealth and telecare 158
**Approaches to long-term conditions: developing personal skills and health education** 160
**Approaches to long-term conditions: creating a supportive environment** 161
**Further reading and resources** 163
**References** 163

### Part Three  Skills for Health Promotion  165

#### Chapter 10  Using health information and epidemiology  168
*Amanda Hesman*

- Introduction 168
- Health information 169
- Definitions and uses of epidemiology 173
- Measuring health and disease in populations 174
- Epidemiological studies 179
- Surveillance of health and the collection of health information 183
- Health outcomes 186
- Needs assessment 187
- The role of the nurse in using health information 187
- Further reading and resources 189
- References 190

#### Chapter 11  Evidence-based practice  192
*Jane Wills and Pat England*

- Introduction 192
- Practice and decision-making 193
- What do we need to know? 194
- The rise of evidence-based practice 197
- Evidence-based practice: what it is and what it isn’t 198
- Doing a review 200
- Finding evidence 201
- Looking for other information to help decision-making 206
- Appraising evidence 207
- Acting on evidence 209
- Further reading and resources 210
- References 210

#### Chapter 12  Health education and communication  212
*Jane Wills*

- Introduction 212
- Approaches to changing lifestyles 216
- The role of the nurse in promoting health behaviour and lifestyle change 230
- Further reading and resources 233
- References 233
### Chapter 13 Protecting the health of the population

*Amanda Hesman*

- Introduction
- The changing pattern of disease and ill health
- Infection control
- Protecting populations: the bigger picture
- Vaccinations
- Screening
- Surveillance, prevention and control of communicable and non-communicable diseases
- The role of the nurse in health protection
- Further reading and resources
- References

### Part Four Health Promotion and the Nurse

#### Chapter 14 Health promotion and people with learning disabilities

*Jo Delrée and Renée Francis*

- Introduction
- The role of the nurse in promoting the health of people with learning disabilities
- Priorities in health promotion and disease prevention
- General health and life expectancy
- Examples of health promotion strategies and activities
- Further reading and resources
- References

#### Chapter 15 Health promotion and people with mental health issues

*Thomas J. Currid*

- Introduction
- Defining mental health promotion
- The role of mental health nursing and health promotion
- Priorities for health promotion for people with mental health issues
- Strategies for mental health promotion
- Further reading and resources
- References

#### Chapter 16 Health promotion and older adults

*Sandie Woods*

- Introduction
- Priorities for the health of older people
- Strategies for health promotion with older adults
- Further reading and resources
- References
