## Contents

**Editor’s Note** vii

**Preface** ix

Ben Shneiderman

1. **Introduction to Universal Usability** 1
   Jonathan Lazar

2. **Designing Searching and Browsing Software for Elementary-Age Children** 13
   Hilary Hutchinson, Allison Druin and Benjamin B. Bederson

3. **The Why and How of Senior-Focused Design** 43
   Theresa A. O’Connell

4. **Online Redesign of a Web Site’s Information Architecture to Improve Accessibility for Users Who are Blind** 93
   Vanessa Evers and Hans Hillen

5. **Listening to Choropleth Maps: Interactive Sonification of Geo-referenced Data for Users with Vision Impairment** 141
   Haixia Zhao, Ben Shneiderman and Catherine Plaisant

6. **Improving the Screen Reading Experience for Blind Users on the Web** 175
   Jonathan Lazar and Aaron Allen

7. **Web Fun Central: Online Learning Tools for Individuals with Down Syndrome** 195
   Assadour Kirijian, Matt Myers, and Sylvie Charland

8. **Using Virtual Peer Technology as an Intervention for Children with Autism** 231
   Andrea Tartaro and Justine Cassell

9. **Evidence-Based Computer-Assisted Instruction for Autism Spectrum Disorders** 263
   Christina Whalen, Lars Lidén, Brooke Ingersoll, and Sven Lidén

COPYRIGHTED MATERIAL
10. Making Software Accessible for Users with Dementia  
   Norman Alm, Richard Dye, Arlene Astell, Maggie Ellis,  
   Gary Gowans, and Jim Campbell  

11. Designing a Cognitive Aid for and with People Who Have  
    Anterograde Amnesia  
    Mike Wu, Ron Baecker and Brian Richards  

12. Memories of a Life: A Design Case Study for Alzheimer's Disease  
    Tira Cohene, Ron Baecker, Elsa Marziali, and Simona Mindy  

13. Interaction Techniques for Users with Spinal Cord Injuries:  
    A Speech-Based Solution  
    Jinjuan Feng and Andrew Sears  

14. Adding Gestural Text Entry to Input Devices for People  
    with Motor Impairments  
    Jacob O. Wobbrock and Brad A. Myers  

15. The Creating Community Connections Project: Social and  
    Cultural Approaches for Engaging Low-Income Communities  
    Randal D. Pinkett  

16. Implementing Community-Based Participatory Research to Reduce  
    Health and Technology Disparities Among Low-Income  
    African-American Women  
    Diane Maloney-Krischmar, Eleanor Walker, David Bushnell,  
    and Sadanand Sirvastava  

17. Evaluating the Usability and Accessibility of an Online Form  
    for Census Data Collection  
    Elizabeth D. Murphy, Lawrence A. Malakhoff, and David A. Coon  

18. Internationalizing Greenstone: A Multilingual Tool  
    for Building Digital Libraries  
    David M. Nichols, Te Taka Keegan, David Bainbridge, Sally  
    Jo Cunningham, Michael Dewship, and Ian H. Witten  

19. Making Universal Access Truly Universal: Looking Toward  
    the Future  
    Jennifer Preece
