## Contents

**List of contributors** xiii

**Foreword** xv  
*Eugene Braunwald*

**Chapter 1** Pathophysiology of acute coronary syndromes 1  
*Alisa B. Rosen and Eli V. Gelfand*

- Introduction 1  
- Formation of atherosclerotic plaque 2  
- Plaque instability and the development of ACS 5  
- Myocardial ischemia 7  
- Thrombus formation 7  
- Platelets 7  
- Secondary hemostasis 9  
- Dynamic obstruction 10  
- Progressive mechanical obstruction 10  
- Inflammation 11  
- Secondary unstable angina 11  
- References 11

**Chapter 2** Diagnosis of acute coronary syndrome 13  
*Eli V. Gelfand and Alisa B. Rosen*

- Introduction 13  
- Definition of myocardial infarction 13  
- History 14  
- Risk factors 17  
- Physical examination 17  
- Electrocardiography 19  
  - The pathophysiologic basis of ST segment changes during ischemia 19  
  - Electrocardiography in ST-elevation MI and identification of the infarct-related artery 20  
  - Electrocardiography in unstable angina and NSTEMI 26
Chapter 3  Unstable angina and non-ST-elevation myocardial infarction 37

Eli V. Gelfand and Christopher P. Cannon

Introduction 37
Causes of UA/NSTEMI 37
Presentation of UA/NSTEMI 38
General strategies in management of UA/NSTEMI 39
Risk stratification of patients with UA/NSTEMI 40
Initial management of UA/NSTEMI in the emergency department 42
Pharmacologic treatment of ischemia in UA/NSTEMI 43
Beta-blockers 44
Nitrates 44
Calcium channel blockers 45
Angiotensin-converting enzyme inhibitors 45
Morphine 46
Oxygen 46
Invasive versus conservative strategy 46
Antiplatelet therapy in UA/NSTEMI 49
Aspirin 54
Clopidogrel 55
Prasugrel 57
Glycoprotein IIb/IIIa inhibitors 58
Anticoagulant therapy in UA/NSTEMI 61
Unfractionated heparin 61
Enoxaparin 62
Direct thrombin inhibitors 65
Fondaparinux 66
Oral anticoagulation in UA/NSTEMI 67
Fibrinolysis in UA/NSTEMI 68
Early lipid-lowering therapy in patients with UA/NSTEMI 68
Predischarge noninvasive risk stratification after UA/NSTEMI 69
Overall management of UA/NSTEMI 71
References 71

Chapter 4  ST-segment-elevation myocardial infarction 79
Eli V. Gelfand and Christopher P. Cannon

Introduction 79
Global treatment goals in STEMI 79
Prehospital management and triage 80
Transport decisions 82
Management prior to reperfusion 82
Primary reperfusion therapy for STEMI 83
  Fibrinolysis 83
  Combination fibrinolysis 86
  Markers of fibrinolysis effectiveness 86
  Complications of fibrinolysis 88
Primary percutaneous coronary intervention 88
Comparison of PCI with fibrinolysis 90
  Timing of primary PCI 91
PCI following fibrinolytic therapy 94
  Rescue PCI 94
  Facilitated PCI 94
  Routine PCI after successful fibrinolysis 96
Overall reperfusion strategy 97
Coronary artery bypass grafting for treatment of STEMI 98
Adjunctive pharmacologic treatment of STEMI 98
  Antiplatelet agents 98
  Anticoagulation therapy 101
  Other adjunctive therapy 105
Hospital care following successful reperfusion 110
References 114

Chapter 5  Special considerations in acute coronary syndromes 123
Jason Ryan and Eli V. Gelfand

Secondary unstable angina 123
Chapter 6  Complications of acute coronary syndrome  141
Jan M. Pattanayak and Eli V. Gelfand

Introduction  141
Pump failure  141
  General principle  141
  Clinical presentation  142
  Prognosis  144
  Treatment  144
Right ventricular infarction  148
  Introduction  148
  Clinical presentation  148
  Diagnosis  149
  Management  150
  Prognosis  152
Mechanical complications of ACS  152
  Introduction  152
  Left ventricular free wall rupture  152
Chapter 7  Post-hospitalization care of patients with acute coronary syndrome 173

Jersey Chen and Eli V. Gelfand

Introduction 173
Pharmacologic measures 173
  Aspirin 173
  Clopidogrel 174
  Beta adrenergic blockade 177
  Renin–angiotensin–aldosterone inhibitors 179
  Lipid-lowering therapy 185
  Warfarin 189
  Influenza vaccination 192
Medications of limited benefit to patients following ACS 192
  Vitamins/antioxidants 192
  Estrogen replacement therapy 192
  Nonsteroidal anti-inflammatory agents and related compounds 194
Nonpharmacologic measures 195
  Antiarrhythmic devices 195
Therapy of comorbidities following ACS 198
  Diabetes mellitus 198
  Hypertension 199
  Depression 199
