CHAPTER 1 Three Must-Know Forex Facts 1

Fact 1: Everyone Needs Forex Diversification Even if You Don’t Trade Actively 2
You’re Exposed: Cover Your Assets 2
Even Long-Term Buy-and-Hold Investors Need Forex Diversification 3

Fact 2: Potential for Better Risk-Adjusted Returns 4
Forex Markets Often Provide Advanced Warnings of Changes in Other Markets 4
Forex Needn’t Be Any Riskier Than Other Markets 4
No Uptick Rule: Just as Easy to Profit in a Falling Market as in a Rising One 5
Low Correlation to Other Financial Markets 7
The Most Flexible Hours 7
Forex Markets Offer the Best Liquidity 8
CONTENTS

No Centralized Exchange with Specialists Holding Monopoly Power to
Regulate Prices 9
Less Slippage 9
The Best Risk/Reward Potential 9
The Lowest Startup and Trading Costs 10

Fact 3: You Can Do This 11
How Can I Compete against the Pros and Big Institutions? 11
How David Beats Goliath: More on What This Book Will and Won’t Do 12
What’s the Catch? 14
Most Traders Fail within Their First Two Years 14

CHAPTER 2 Forex Basics 17

Basics of Currencies and Currency Pairs 17
Trade Only the Most Liquid Currencies 18
The Major Currencies 18
Risk versus Safe Haven Currencies: Definition and Ranking 19

Currencies Trade in Pairs and Why That Matters 20
Price Movements Are Always Relative to Another Currency 20
It’s Just as Easy to Profit in Bear Markets as in Bull Markets 21
How to Read a Forex Pair Price Quote 22
Summary of Currency Pair Basics 24
Why It’s Just as Easy to Profit from Falling Prices 25

Size Matters: Types of Currency Pairs 29
The Major Currency Pairs: The Most Liquid 29
More on Risk and Safe Haven Currencies 29
The Signs of the Crosses: Divine Revelations about Currency Strength 30
Walk on the Wild Side: The Exotics 32

Pips: The Universal Currency of Currencies 32
Calculating Pip Values 33
Three Ways to Limit Risk: Lot Size Usually the Easiest 33

Leverage and Margin: Their Relationship and Impact on Risk 35
Leverage: Greater Risk and Reward 35
Permitted Leverage Varies with Place and Time 35
How Margin, Lot Size, and Leverage Interact 36
The Importance of Adequate Capital 36
Margin Calls: Your account’s Circuit Breaker 37
Order Types 38
Exit Orders: Ways to Close a Position 42

The Three Facets of Risk and Risk Control 44
Example 44
Contents

The Core Four: The Most Important Skills for Success 45
  Trader Psychology 46
  Risk and Money Management (RAMM) 48
  Technical and Fundamental Analysis 48

CHAPTER 3  Technical Analysis (TA) Basics 49

Candle Chart Basics 50
  Candle Anatomy and Meaning 50
  Relationship between Body, Wick, and Its Significance 52
Support and Resistance (S/R) Basics 54
Candle Chart Time Frames: Length Matters 59
  Different Time Frames, Different Trading Techniques, and Styles 59
  Different Time Frames, Different Trends 60
Identifying Support and Resistance (S/R) to Buy Low, Sell High, or Vice Versa 62
  Definitions of S/R Are Reversed for Long and Short Positions 63
  The General Rule for Identifying Low-Risk High-Yield Trades 64
  Finding S/R Is Key to Identifying and Executing Low-Risk High-Yield Trades 64
  Good Risk Management Requires Good TA 66
  Think of S/R as Zones or Areas 66
  So Stick to Trading Longer Time Frames—They’re Safer 67
  Reasons to Consider Using Multiple Entry and Exit Points 68
  Once Broken, Resistance Becomes Support and Vice Versa 68
  Don’t “OD” on TA 69
  Why Specialize in a Few Currency Pairs and Time Frames? 69
  What Determines Whether a Currency Is a Risk or a Safe Haven? 70

CHAPTER 4  Technical Analysis: Types of Support and Resistance (S/R) 73

Price Levels 74
  For Lowest Risk, Enter Near Strong Support 75
  What Makes Some S/R Points Stronger Than Others? 76
  Longer Time Frames Offer More Reliable S/R Indicators 77
  Check Shorter Time Frames to Detect Interim S/R Levels 77
Trends and Trend Lines 80
  Trends Vary with Time Frame 80
  Defining Trends, and Constructing Trend Lines 80
CONTENTS

Types of Trend Lines 81
Single Uptrend or Downtrend Lines 82
Channels: Better Than Single Trend Lines 83
Moving Averages (MAs) 87
Fibonacci Retracements (Fibs): These Fibs Don’t Lie 93
Applying Fibs to Your Charts 94
Fibs within Fibs 96
Bollinger Bands (BBs): Use as S/R in Range-Bound Markets 98
Support/Resistance (S/R) for Flat or Gently Sloping Trends:
• The Bollinger Bounce 99
• Bollinger Bands Don’t Provide Meaningful S/R with Strong Trends 100
Introduction to Japanese Candle Chart Patterns 101
• More Key Points about Japanese Candle Patterns 107
• Context and Timing Matter 107
Introduction to Western Chart Patterns 108
• Classic Western Reversal Patterns 108
• Beware False Breakouts, Shake Outs, and Other Fake Outs 111
• Other Reversal Patterns to Know 112
• Classic Western Continuation Patterns 113
• We Repeat: False Breakouts Happen 115
• Other Continuation Patterns 116
• Patterns That Can Be Continuation or Reversal 116
• The Underlying Logic of Chart Patterns 116
The More S/R Indicators, the Better 119
• Multiple Mutually Reinforcing S/R Indicators: An Example 119

CHAPTER 5  Trader Psychology and Risk and Money Management (RAMM) 123

RAMM: Preserving Capital Is Your Top Priority 124

The Inner Game: Trader Psychology Basics 125
• Lesson 1: Seek Trading Styles and Methods That Fit You 126
• Lesson 2: Basics of the Trader’s Mindset—Minimizing and Accepting Risk 128
• Lesson 3: Dealing with Losing and Winning Streaks 129

Why Trade Longer Time Frames 130
• Seek Safer Trading Styles 130
• As with Driving, Speed Kills 131
• A More Level Playing Field 132
• More and Better Information Means Better Trade Decisions 134
• Trends Are More Reliable in Longer Time Frames 134
• Ideal Trends For Long-Term Investors 136
## Contents

Other Technical Indicators Are Better in Longer Time Frames 137
Publicly Available Fundamental Data and Analysis Matters in Longer Time Frames 137
Lower Trading Costs 138
Start Out with Longer Duration Trades 138
Content Quality: The Sign of a Quality Broker 139

**The Essence of Good RAMM** 140

**The Three Pillars of RAMM** 141

**Account Size and Affordable Loss per Trade** 142

**Setting Stop Losses: Basic Technique and Psychology** 142
Where to Set Stop Losses: Two Criteria 142
More Capital Allows Wider Stop Losses and a Wider Choice of Low-Risk Trade Opportunities 143
Balancing Risk versus the Need to Win 144
Method 1: Recent Range 145
Method 2: Average True Range (ATR) 145
So How Much Capital Is Enough? 146

**Leverage and Margin** 147

**Position Sizing** 147

**Avoid Having Too Many Open Positions** 148

**Entries Near Strong Support, Exits Near Strong Resistance** 148
Entries 148
Exits: Use Trailing Stops to Protect and Maximize Gains 149

**Entries and Exits: Single versus Multiple** 149

**Risk-Reward Ratios (RRRs)** 150
Example: How 1:3 RRRs Make Winners Out of Losers 150
Example: How 1:2 Risk-Reward Ratios Make Winners Out of Losers 152
Applying 1:3 RRR: An Example 154
Acceptable RRR Can Vary with Market Conditions 155
More on Stop Loss Orders: An Example of Using ATR to Gauge Volatility and Place a Fixed or Trailing Stop Loss Order 156

**If You Fail to Plan, You Plan to Fail** 158
What’s Your Rationale for Taking This Trade? 158
No. 1: Plan Every Trade and Record It in a Journal 160
Sample Trade Rationale as Recorded in Journal 162
No. 2: Your Overall Business Plan 165

**What Conditions Do You Need for Success?** 166

**Safety in Numbers: Build a Team** 166
xii CONTENTS

CHAPTER 6 Essentials of Fundamental Analysis

Using Fundamental Analysis (FA) and Technical Analysis (TA) Together

An Overview of FA: Main Fundamental Drivers of Forex Trends
- Overall Risk Appetite
- Short-Term Interest Rates

Macroeconomic Data and Indicators
- Example: EURUSD Uptrend Reverses in Late 2009 as Data Show Europe Slows, U.S. Grows
- Geopolitics
- Capital and Trade Flows
- Merger and Acquisition (M&A) Activity
- Short-Term Illiquidity: A Lack of Buyers and Sellers
- Government and Central Bank Special Interventions in Times of Crisis

News Trading: Day Trading Based on Short-Term Fundamentals

FA Basics: Easy to Understand and Hard to Apply
Therefore, Get Thee to an Analyst
Combining FA and TA: An Example

CHAPTER 7 Pulling It All Together with Trade Examples

Identifying and Executing Low-Risk, High Potential Yield Trades
- Begin Your Search On Longer Time Frame Charts, Then Zoom In
- Consider the Fundamental Context
- Initial Screening on Longer Time Frame Charts
- Second Screening
- Third Screening to Monitor Trade Progress

Types of Trades
Trade Example 1: A Swing Trade
- Initial Screening
- Second Screening
- RRR Evaluation
- Conclusion: We Take the Trade
Trade Postmortem: What Happened

Trade Example 2: A Position Trade
Contents

Trade Example 2: A Breakout Trade 218
First Screening 218
Second Screening 220
RRR Evaluation 221
Conclusion: Know When to Walk Away 222
Trade Postmortem: Was I Right? 223

More Key Trader Psychology: Distinguishing between Good Trades and Winning Trades 224

CHAPTER 8  Technical Analysis: Basic Momentum Indicators 227

Double Bollinger Bands (DBBs)—Use as Momentum Indicators 229
DBB Basics 231
The Four Rules for Using Double Bollinger Bands 232
Combine DBBs with a Leading Indicator 236
DBBs: Conclusion and Summary 237

Moving Average Crossovers 237
Price Crosses Over or Under a Moving Average 238
The More Indicators in Our Favor, the Better 239
How Many Indicators Should You Use? 240
But RAMM Is Key 240
Moving Averages Cross Each Other 241
Examples of Simple Trading Systems Using MA Crossovers 242
Welcome to Back Testing 244

Oscillators 244
How They’re Used to Generate Buy/Sell Signals 246
When to Use Oscillators 248
Other Oscillators to Consider 248
Designer Genes 249

Moving Average Layering Indicates Trend Strength 249
The Stronger the Trend, the Clearer the MA Layering 249

CHAPTER 9  Technical Analysis: Future Study 255

Catch a Wave: Timing or Cycle Indicators 255
Meet the Fibonaccis 256
... And the Ganns 256
Catch the Most Popular Wave: Elliott Wave Theory and More 256
Combining Technical Indicators: Which Ones and How Many? 257
Your Tool Kit Needs a Gang of Four 258
Apply Indicators to Each Time Frame When Screening Trades 259

Back Testing: Learning from the Past 260
Back Testing Software: Play It Again, Sam 260
A Manual Back Testing Example 261
Back Testing Is a Tool, Not a Solution 265

Intermarket Analysis: Reading Intermarket Correlations and Divergences 265
Background 266
Currencies versus Equities: The S&P 500 as Forex Indicator 267
Risk Currencies versus Safe Haven Currencies 268

Why These Relationships Matter 268
They Give You a Fast, Big Picture 269
Divergences from Normal Correlations Can Be Significant 269
The USD versus Equities 271
The USD and Stocks: Correlation, but Not Causation 272
Currencies versus Currencies: How They Correlate 273
Warning: The U.S. Dollar Index Isn’t a Substitute for Studying Charts 275

Currencies versus Commodities 277
Gold as a Barometer of the USD or EUR 277
Other Currency versus Commodity Correlations 282

Thinking Like a Pro, One Step Beyond Technical Analysis 284
Mind Games 284
Learn to Think Like These Pros 285

CHAPTER 10 Alternatives to Traditional Methods 287
Auto-Trading Systems: Welcome to the Machine 287
Currency Funds: Forex ETFs, ETNs, and More 289
Managed Accounts: Should You Seek Professional Help? 291

CHAPTER 11 Newer, Smarter Methods 295
Follow the Leaders: Forex Social Networks and Trading 295
What Are Forex Social Networks? 296
What Is Social Trading? 297
How It Works: The Highest Form of Flattery 297
Risks of Social Trading 298
Rewards of Social Trading 305
Contents

The Growth of Social Trading 307
How eToro and Currensee Compare 307

Great Tool, but Requires Skill to Use 311
An Auspicious Start 312
Do Your Homework Before You Decide Which to Use 312
Consider Market Conditions in Choosing Strategy and Risk Tolerance 313

Binary Options: Trading Made Easier 316
Background 318
How They Work 319
Pros and Cons 320

CHAPTER 12 Forex for Income: The Smartest Oxymoron 323
Ride Long-Term Forex Trends for Lower Risk, Higher Income 324
Why Income Investors Neglect Currency Diversification 325
Long-Term Trends for Long-Term Investors 327
Case Study: Canada 2000–2011: Applying Forex Trends to Equities Investing 328
The USD versus the CAD: Guess Which Has No Debt/GDP Problem 328
Equities: Canada Is Not Japan 329
Be Aware of Tax Withholdings and Credits 332
For Further Investigation: Online Resources 332

The Carry Trade: Using Direct Forex Trades as an Income Vehicle 333
Differences between Forex Carry Trade and Traditional Long-Term Buy-and-Hold Instruments 334
The Key to Carry Trading 336
Carry Trade Steps 338

CHAPTER 13 Now What? Next Steps 341
Where You’ve Been 341
Where You’re Going 342

APPENDIX A Recommended Free Online Resources 347

Forex Sites 347
Thesensibleguidetoforex.com 347
BabyPips.com 347
DailyForex.com 348
CONTENTS
