male genitalia 100, 101, see also testes
maple syrup urine disease (MSUD) 31, 46, 47
Marfan syndrome 107
masses, abdominal 92, 93
maternal well-being 44, 45
MCADD (medium-chain acyl-CoA dehydrogenase deficiency) 31, 46, 47
meconium 60, 61
meconium aspiration syndrome 34
meconium stained amniotic fluid (MSAF) 108
melanocytic naevus, congenital 72, 73
meleena, stool 61
meningitis, neurological assessment 67
meningocoele 94, 95
mermaid syndrome (sirenomelia) 103, 107
metabolic acidosis 19, 21, 67
metabolic disorders 30, 31
microcephaly 34, 57, 66, 75, 106–107
microprosphal 103, see also ambiguous genitalia
milia 70, 71, 77
milk-lines/mammary lines 72, 73, 84, 85, 93
mineral deficiency/excess, metabolic disorders 31
mitochondrial function, metabolic disorders 31
moisturisers
mucus, in stool 61
muscle
neurological assessment 118
neurological examination 68
NIPE (Newborn and Infant Physical Examination, 6–8 weeks of age) 3, 4, 11, 43, 65
NIPE (Newborn and Infant Physical Examination, 72 hours of birth) 2, 3, 4, 13, 43, 64, 65, 108
NIPE Screening Programme Handbook (PHE) 3, 5
NIPE Screening Programme Standards 2016/2017 (PHE) 3, 5
Noonan's syndrome 77, 107
nose, facies 77
Nursing and Midwifery Council (NMC) 6, 7
occipital encephalocele 94
oesophageal atresia 92, 93
oligodactyly 90, 91
oliguria 61
omphalocele 92, 93
ophthalmoscopy 52, 53, 79
Ortolani's manoeuvre 95
ovotesticular disorder 101
pate 64, 80, 81
palmar flexion (grasp) reflex 69
parental communication. see communication pathways parental consent 3, 13, 43, 47, 49
parvovirus B19 34
Patau syndrome 107
pathological jaundice 28, 29, 57
carcinomatous (ectopic) 84, 85
penis 101
peri-aural sinuses 73
perineum, female/male 99, 101
peripheral nerve trauma 38, 39
persistent pulmonary hypertension of the newborn (PPHN) 19
personal Child Health Record (PCHR) 6, 7, 11, 47, 65
petechiae, traumatic 38–39
phenylketonuria (PKU) 31, 46, 47
philtrum 77
physiological jaundice 26, 27, 29
Pierre Robin syndrome (PRS) 81, 107
pigeon chest 84, 85
placing reflex 69
plantar flexion reflex 69
pneumothorax 85
Poland syndrome 85, 107
polycythaemia 37
port wine stain 73
prandial assessment 42, 44, 64
Prader–Willi syndrome 107
priapism 101
professional responsibility/competency 6, 7
Protection Orders, safeguarding 9
pseudoarthrosis, Congenital 83
pseudomenstruation 98
Public Health England (PHE) 2–3, 7, 47, 65, 89, 97, 101
pulse oximetry 89
pus, in stool 61
pyloric stenosis 93
quality assurance, screening programmes 3, 5
qualifications, NIPE practitioners 7
radial nerve trauma 39
rashes 70, 83
record-keeping/documentation 6, 7, 53
red eye reflex 78, 79
reflexes 42, 44, 64, 68, 69, 108
respiratory assessment 10, 11, 42, 44, 64, 88, 89
respiratory development, fetal 19
respiratory distress syndrome 19, 21, 88
resuscitation 19, 22, 23
retinoblastoma 78, 79
Rhesus status, history-taking 57
rib fractures 85
ribcage structure 84, 85
rocker-bottom feet 103
rooting reflex 67, 69
rubella 28, 34, 57, 78, 87, 91
safeguarding 8, 9
screening, nature and aims of 3
Screening Quality Assurance Service 3
scrotum 101
sebaceous gland hyperplasia 70, 71
sebaceous naevus 73
seborrhoeic dermatitis 70, 71, 73
seizures 32, 33, 67
serum bilirubin (SBR) 29, see also jaundice
shivering 19, 20, 21
shoulders 91
sickle Cell and Thalassaemia Screening Programme 47
sickle cell disease (SCD) 46, 47, 57
simian crease (single palmar crease) 90, 91, 103
sirenomelia (mermaid syndrome) 103, 107
skin 42, 44, 64, 77
skin conditions 70, 71, 72–73
skin damage, birth 71, 77
skin folds, neck 82, 83
skull 39, 74, 75
sleeping position 10, 11, 43, 45, 108
sleep states/patterns 66, 67
SMART system, NIPE 3, 5, 6, 7, 65, 78, 97
smoking, passive 9, 10, 11, 57
socio-economic history-taking 56–57
sodium bicarbonate, use in resuscitation 23
special care baby units (SCBUs) 3
spina bifida cystica (SBC) 95
spina bifida occulta (SBO) 94, 95
spine 42, 64, 94, 95
spleen, birth injury 39
splenomegaly 93
standards, screening 3, 4, 5, 7
Staphylococcus aureus 34, 35
starrle disease 33
stepping reflex 69
stethoscopes, neonatal 52, 53
strawberry haemangioma 73
subcutaneous fat necrosis, birth injury 39
subgaleal (subaponeurotic) haemorrhage 37, 39, 75, 108
subluxation of the jaw 81
substance abuse. see fetal alcohol syndrome; neonatal abstinence syndrome
suckling reflex 67, 69, see also feeding
sudden infant death syndrome (SIDS) 10, 11
supernumary nipples 72, 73, 84, 85, 93
swallow reflex 69, 81
Sydney line 90, 91
symbrachydactyly 91, 103
syndactyly 90, 91, 103
syndromes 106–107
synecchia, oral 81
syphilis 34
talipes, congenital 102, 103, 108
Tay–Sachs disease 30, 31
team work 5, 7
temperature, neonatal 11, 19, 20, 21, 44, 45, 53, see also thermoregulation
testes 3, 39, 65, 100, 101, 108, see also genitalia
thalassaemia 57
thrombocytopenia 20, 21, 43
toes 102, 103
tongue 80, 81
tonic neck reflex, asymmetrical (ATNR) 69
total serum bilirubin (TSB) test, jaundice 27
toxoplasmosis 34
tracheoesophageal fistula 92, 93
training, British Association for Perinatal Medicine 25
transcutaneous bilirubinometers (TCBs) 29
traumatic birth 38, 39–39, 71, 77
Treachers Collins syndrome 107
Treponema pallidum infection 34
tummy time 11, 64, 108
Turner syndrome 107
ultrasonography 57
umbilical arteries/veins, fetal to neonatal adaptation 18, 19
umbilicus 38, 42, 64
unconjugated jaundice 28, 29
undescended testes (cryptorchidism) 101, 108
upper limbs 42, 44, 64, 90
urates 98, 99
urea cycle, metabolic disorders 31
urethra 99
urinary tract infection 60
urine 42, 61, 64
urogenital sinus/fistula 99
uvula 81
vaccination 10, 64, see also immunisation
vagina 98, 99
Varicella zoster virus (VZV) 34
vascular lesions/malformations 73, 75, see also birth marks
vasoconstriction, peripheral 21
ventral suspension reflex 69
vitamin K administration 11, 43
vitamin deficiency/excess, metabolic disorders 31
vomiting 59
vulnerability 9, see also safeguarding
white stool 61
Wilson's disease 31
withdrawal/neonatal abstinence syndrome 56, 67, 77, 107
Zellweger's syndrome 31, 107
