Preface xix
Acknowledgments xxi

UNIT 1 FOUNDATIONS 1

Chapter 1 Introduction 3
1.1 Mental Health and Mental Illness 3
1.2 Incidence and Prevalence of Mental Illness 3
1.3 Etiology of Mental Illness 5
1.4 The Burden of Mental Illness 5
1.5 The Recovery Movement 6
1.6 Vision of a Transformed Mental Health System 7
Further Reading 7

Chapter 2 The Therapeutic Relationship 9
2.1 Introduction 9
2.2 Rapport 9
2.3 Listening to the Patient 10
2.4 The Therapeutic Relationship 10
2.5 Mediating Factors Affecting the Therapeutic Relationship 12
2.6 Other Issues Affecting the Therapeutic Relationship 14
Clinical Vignette 16
Key Points 16
Further Reading 16

Chapter 3 An Integrative Approach to Developmental Psychopathology 19
3.1 Introduction 19
3.2 Toward a Comprehensive, Multidisciplinary Understanding of Psychopathology 19
3.3 Theories of Development 21
3.4 Biological Considerations 22
3.5 Cognitive Development 23
3.6 Emotional Development 24
3.7 Social Development 24
3.8 Moral Development 25
3.9 The Importance of Identity Formation 26
3.10 The Emergence of Mental Illness 26
Chapter 8  The Multidisciplinary Treatment Team and Working with Other Professionals  57
  8.1 Introduction  57
  8.2 The Multidisciplinary Team  57
  8.3 Referrals  58
  8.4 Turf Battles  58
  8.5 Courtesies and Professional Relationships  58
Key Points  60
Further Reading  60

Chapter 9  Ethical Practice  61
  9.1 Introduction  61
  9.2 Professional Ethics  61
  9.3 Sources of Ethics  62
  9.4 Ethical Behavior of Psychiatric Physicians  62
  9.5 Selected Ethical Issues in Psychiatric Practice  64
  9.6 Rights of Psychiatric Patients  67
Key Points  68
Further Reading  69

Chapter 10  Legal Context of Psychiatric Practice  71
  10.1 Introduction  71
  10.2 Hospitalization  71
  10.3 Informed Consent  73
  10.4 Consent to the Treatment of Minors  75
  10.5 Substituted Consent  76
  10.6 Refusal of Treatment and Competence  76
  10.7 Confidentiality  78
  10.8 Responsible Record-keeping  79
  10.9 Lawsuits and Legal Redress  80
  10.10 Liability for Supervising other Professionals  81
  10.11 Criminal Issues  81
Clinical Vignette  82
Key Points  83
Legal Citations  84
Further Reading  84

UNIT 3  CLINICAL DISORDERS  85

Chapter 11  Pediatric Disorders  87
  11.1 Introduction  87
  11.2 Risk Factors  87
  11.3 Importance of the Family Context  87
  11.4 General Interventions  88
  11.5 Common Psychiatric Disorders  91
Clinical Vignette  105
Chapter 23  Mental Disorders due to a Medical Condition  235
  23.1 Introduction  235
  23.2 Clinical Considerations  235
  23.3 Psychotic Disorders  235
  23.4 Mood Disorder with Depressive Features  238
  23.5 Manias  240
  23.6 Anxiety Disorder with Panic Attacks or with Generalized Anxiety  243
  23.7 Obsessive–Compulsive Disorder  244
  23.8 Catatonic Disorders  245
  23.9 Personality Change  246
  23.10 Mental Disorders Not Otherwise Specified  248
  Clinical Vignette 1  249
  Clinical Vignette 2  249
  Key Points  249
  Further Reading  250

Chapter 24  Factitious Disorder  251
  24.1 Introduction  251
  24.2 Sick-Role Behavior  251
  24.3 Factitious Disorder  251
  24.4 Factitious Disorder by Proxy  254
  Clinical Vignette 1  255
  Clinical Vignette 2  255
  Clinical Vignette 3  256
  Key Points  256
  Further Reading  256

Chapter 25  Schizophrenia and Psychoses  257
  25.1 Introduction  257
  25.2 Psychopathology, Signs, and Symptoms  257
  25.3 Diagnostic Criteria  260
  25.4 DSM-IV-TR Subtypes  261
  25.5 Epidemiology  261
  25.6 Course and Prognosis  261
  25.7 Etiology  262
  25.8 Differential Diagnosis  265
  25.9 Interdisciplinary Goals  266
  25.10 Treatments  266
  Clinical Vignette 268
  Key Points  269
  Further Reading  269
UNIT 4 ASSESSMENT AND THERAPEUTICS  301

Chapter 30  Psychiatric Assessment, Treatment Planning, and the Medical Record  303
30.1 Introduction  303
30.2 Components of the Psychosocial Assessment  303
30.3 The Interview  304
30.4 Medical History and Physical Examination  308
30.5 Laboratory Testing  309
30.6 Risk Assessment  309
30.7 Case Formulation  310
30.8 Treatment Planning  311
30.9 The Medical Record: From Diagnosis to Discharge  311
Key Points  312
Further Reading  313

Chapter 31  Psychological Testing and Rating Scales  315
31.1 Introduction  315
31.2 Major Assessment Approaches  315
31.3 Functional Analysis of Behavior  315
31.4 Objective Tests  317
31.5 Personality Assessments  320
31.6 Clinical Rating Scales  321
31.7 Developmental Measures  321
31.8 Advantages and Drawbacks of Instrumentation and Rating Scales  322
Key Points  322
Further Reading  322

Chapter 32  Psychotherapeutic Approaches  325
32.1 Introduction  325
32.2 Behavior Theory and Therapy  326
32.3 Interpersonal Psychotherapy  328
32.4 Individual (Internally Oriented) Approaches  329
32.5 Cognitive Theories  332
Key Points  334
Further Reading  335
Chapter 33  Pharmacotherapeutic Interventions  337
33.1  Introduction  337
33.2  Principles of Pharmacokinetics and Pharmacodynamics  337
33.3  Principles of Prescribing Medications  341
33.4  Generic Prescriptions  342
33.5  Off-Label Use  343
33.6  Polypharmacy  343
33.7  Medication Adherence  344
33.8  Refractory States  345
Key Points  345
Further Reading  346

Chapter 34  Antidepressants and Mood Stabilizers  347
34.1  Introduction  347
34.2  Antidepressants  347
34.3  Mood Stabilizers  354
Key Points  358

Chapter 35  Antipsychotic Agents  361
35.1  Introduction  361
35.2  Mechanism of Action  362
35.3  First-generation Antipsychotics  362
35.4  Second-generation Antipsychotics  362
35.5  Rapid Neuroleptization  362
35.6  Conditions Treated with Antipsychotic Medications  366
35.7  Adverse Effects of Antipsychotics  366
35.8  The CATIE and CUtLASS Studies  370
35.9  Antipsychotics and the Elderly Patient  370
Key Points  371
Further Reading  371

Chapter 36  Anxiolytics, Stimulants, and Cognitive Enhancers  373
36.1  Anxiolytics  373
36.2  Psychostimulants  375
36.3  Nonstimulant Group of Drugs  379
Key Points  381
Further Reading  382

Chapter 37  Somatic Therapies  383
37.1  Introduction  383
37.2  Electroconvulsive Therapy  383
37.3  Phototherapy  385
37.4  Transcranial Magnetic Stimulation  385
37.5  Vagus Nerve Stimulation  386
37.6  Deep Brain Stimulation  386
37.7  Psychosurgery  386
UNIT 5  SPECIAL TOPICS  389

Chapter 38  Psychiatric Emergencies  391
38.1  Introduction  391
38.2  Delirium  391
38.3  Suicidality  394
38.4  Aggressive and Violent Behavior  398

Key Points  404
Further Reading  405

Chapter 39  Violence  407
39.1  Introduction  407
39.2  Intimate Partner Violence  407
39.3  Child Maltreatment  408
39.4  Rape and Sexual Assault  409
39.5  Elder Abuse  410

Key Points  410
Further Reading  411

Index  413
