Part I  Production of Vanilla – Agricultural Systems and Curing  1

1  Mexican Vanilla Production  3  
   Juan Hernández-Hernández  
   1.1  Introduction  3  
   1.1.1  The Mexican Vanilla Legend  4  
   1.2  Cultivation Methods  5  
   1.2.1  “Traditional”/Acahual  5  
   1.2.2  Intensive System (Monoculture)  6  
   1.2.3  Vanilla Cultivation in Existing Orange Groves  6  
   1.2.4  Shade Houses  7  
   1.3  Vanilla Propagation Techniques  8  
   1.3.1  Preparation and Disinfection of Cuttings  8  
   1.3.2  Establishing Cuttings – Timing  8  
   1.3.3  Establishing Cuttings – Planting  9  
   1.3.4  New Bud Formation and Root Growth  9  
   1.4  Irrigation  9  
   1.5  Nutrition  10  
   1.5.1  Mulch  10  
   1.5.2  Building Compost  10  
   1.6  Weed Control  11  
   1.7  Shade Management (Pruning of Support Trees)  11  
   1.8  Shoot Management – Looping  12  
   1.9  Shoot Management – Rooting  12  
   1.10 Main Vanilla Insect Pest  12  
   1.11 Main Vanilla Diseases  13  
   1.11.1 Anthracnose  14  
   1.11.2 Rust  14  
   1.11.3 Yellowing and Pre-mature Fruit Drop  14  
   1.12 Flowering and Pollination  14  
   1.12.1 Percent of Flowering Plants  15
4.5.3 Intense Solar Radiation 57
4.5.4 New Pest 57
4.5.5 New Disease 58
4.6 Flowering Period 59
4.6.1 Atypical Vanilla Bloom in Peru 59
4.7 Hand Pollination 60
4.8 Harvesting 61
4.9 Vanilla Curing 62
4.10 Final Comments 62
References 63

5 Vanilla Production in the Context of Culture, Economics, and Ecology of Belize 65
Nelle Gretzinger and Dawn Dean
5.1 Introduction 65
5.1.1 Toledo Agriculture and Socio-demographics Today 66
5.1.2 Maya Mountain Research Farm 66
5.1.3 Agro-ecological Systems 67
5.1.4 Maya Mountain Research Farm Vanilla Cultivation and Introduction Project 68
5.1.5 The Belize Organic Vanilla Association 69
5.1.6 OVA Description and Goals 69
5.1.7 Innovative Vanilla Plantation Establishment Method Pioneered by OVA Members Nicasio and Ophelia Chee Sanchez 71
5.1.8 Wild/Relic Vanilla Stands in Toledo District 72
5.1.9 Possibility of Wild Superior or Useful Genotypes/Species 74
5.1.10 Dr Pesach Lubinsky’s Research in Belize and Regarding Vanilla tahitensis 74
5.1.11 Manché Chol 76
5.2 Discussion 78
Acknowledgments 79
References 82

6 Conservation and Sustainable Use of Vanilla Crop Wild Relatives in Colombia 85
Nicola S. Flanagan, Paul Chavarriaga, and Ana Teresa Mosquera-Espinosa
6.1 Introduction 85
6.1.1 Low Genetic Diversity in the Vanilla Crop 85
6.1.2 The Importance of Crop Wild Relatives for Agriculture 85
6.2 Vanilla Crop Wild Relatives 86
6.2.1 Phylogenetic Diversity Within the Genus Vanilla 86
6.2.2 The Secondary Gene Pool for Vanilla 86
6.2.3 Vanilla Diversity in Colombia 87
6.3 Vanilla Species in the Wild 89
6.3.1 Vanilla Species are Rare in the Wild 89
6.3.2 Reproductive Biology of Vanilla Wild Species 91
6.3.2.1 Pollinators 91
### 6.3.2.2 Autogamy 91
### 6.3.3 Mycorrhizal Interactions 92
### 6.3.4 Further Interactions with the Microbiome 93
### 6.3.5 Bioclimatic and Biophysical Adaptations 94
### 6.4 Conservation of Vanilla Crop Wild Relatives 95
#### 6.4.1 Threats to Conservation 95
#### 6.4.2 Conservation *In situ* 96
#### 6.4.3 Conservation *Ex situ* 96
#### 6.4.4 Conservation *Ex situ* of the Vanilla Microbiome 98
#### 6.5 Conservation of *Circa situm* and Sustainable Use 98
### 6.5 Biotechnological Approaches for Vanilla Genetic Resource Conservation and Utilization 100
#### 6.5.1 Characterization and Utilization of Genetic Diversity 100
#### 6.5.1.1 DNA Barcoding 100
#### 6.5.2 Genomic Characterization of Vanilla 100
#### 6.5.2 Application of Microorganisms in Vanilla Cultivation 101
### 6.6 An Integrated Strategy for Conservation and Sustainable Use of Vanilla Crop Wild Relatives 101
#### 6.6.1 A Colombian National Strategy for Vanilla CWR 101
#### 6.6.2 International Strategy for Conservation of Vanilla CWR 102
### References 102

### 7 The History of Vanilla in Puerto Rico: Diversity, Rise, Fall, and Future Prospects 111

*Paul Bayman*

#### 7.1 Introduction 111
#### 7.2 Diversity of Wild Vanilla in Puerto Rico 111
#### 7.2.1 Species and Distributions 111
#### 7.2.2 Flowering, Pollination, and Fruit Set 112
#### 7.3 Rise and Fall: The History of Vanilla Cultivation in Puerto Rico 112
#### 7.4 Socioeconomic Factors Contributing to the Decline of Vanilla 114
#### 7.5 Diseases and Decline 114
#### 7.5.1 *Fusarium* Root and Stem Rot (RSR) 115
#### 7.5.1.1 The Pathogen 115
#### 7.5.1.2 Symptoms of RSR 116
#### 7.5.1.3 Other *Fusarium* Species 116
#### 7.5.2 Other Diseases and Pests 116
#### 7.5.3 Possible Solutions to RSR 116
#### 7.5.3.1 Biological Control 116
#### 7.5.3.2 Mycorrhizæ 117
#### 7.5.3.3 Chemical Control 117
#### 7.5.3.4 Breeding 117
#### 7.5.3.5 Cultural Control 117
#### 7.6 Future Prospects 118

Acknowledgments 118

9 Vanilla Production in Australia 147
Richard Exley
9.1 Introduction 147
9.2 History 147
9.3 Species 148
9.4 Climatic Regions of Australia Suitable for Vanilla 148
9.5 Climatic Conditions in the Vanilla Growing Regions 149
9.6 Soil and Nutrients 150
9.7 Watering 150
9.8 Fertilizing 150
9.9 Propagation 150
9.10 Support 151
9.11 Light/Shade 152
9.12 Spacing 153
9.13 Training 154
9.14 Flowering, Fruit Set, Growth, and Maturation 154
9.14.1 Flowering 154
9.14.2 Fruit Set (Pollination) 154
9.14.3 Growth and Maturation 155
9.15 Harvesting 155
9.16 Curing 155
9.16.1 Overview 155

10 Vanilla in Dutch Greenhouses: A Discovery – From Research to Production 157
Filip van Noort
10.1 Introduction 157
10.1.1 Start of Research 157
10.2 Review of Literature 157
10.3 Flowering 159
10.3.1 Greenhouse 160
10.3.2 Sustainability 160
10.4 Varieties 161
10.5 Propagation 161
10.5.1 Cultivation 161
10.5.2 Growing Systems 162
10.6 Feasibility and Conclusions 162

11 Establishing Vanilla Production and a Vanilla Breeding Program in the Southern United States 165
Alan H. Chambers
11.1 Introduction 165
11.2 Southern Florida Climate 165
11.2.1 Average Temperatures 166
11.2.2 Average Rainfall 166
11.2.3 Average Solar Radiation 166
11.2.4 Major Weather Events 168
11.3 Native and Naturalized Vanilla Species of South Florida 169
11.3.1 V. dilloniana 169
11.3.2 V. mexicana 169
11.3.3 V. barbellata 169
11.3.4 V. phaeantha 169
11.3.5 V. planifolia 171
11.4 Establishing Vanilla Production in Southern Florida 173
11.4.1 Shade House Cultivation 173
11.4.2 Tutor Tree Cultivation 173
11.4.3 Substrate Considerations 174
11.4.4 Local Economics and Niche Opportunities 174
11.5 Vanilla Breeding 175
11.5.1 Establishing a Vanilla Breeding Program in the United States 175
11.5.2 Acquiring Diverse Vanilla Accessions 176
11.5.3 Creating Diversity in Vanilla 176
11.5.4 Identifying the Primary Gene Pool 177
11.5.5 Target Traits 177
11.5.6 A Case for a Publically Available Vanilla Genome 178
11.6 Conclusions 178
References 178

12 In vitro Propagation of Vanilla 181
Rebeca Alicia Menchaca García
12.1 Methods 182
12.1.1 In vitro Germination 182
12.1.2 Tissue Culture 182
12.2 Results and Discussion 183
12.2.1 Germination 183
12.2.2 Seed Maturity 183
12.2.3 Time for Germination 183
12.2.4 Scarification 183
12.2.5 Tissue Culture 183
12.2.6 Hybridization 184
12.2.7 *In vitro* Germplasm Bank 185
12.2.8 Repatriation and Recovery of Mexican Species 185
12.2.9 Method of *Ex vitro* Adaptation 186
12.2.10 Greenhouse Collection 186
12.2.11 Social Linkage 186
12.2.12 Human Resource Training and International Interaction 187
12.3 Conclusions 187
References 188

13  Curing of Vanilla 191
*Chaim Frenkel, Arvind S. Ranadive, Javier Tochihuitl Vázquez, and Daphna Havkin-Frenkel*

13.1 Introduction 191
13.2 Botany of the Vanilla Pod 192
13.2.1 Two Fruit Regions 192
13.2.2 Fruit Components 192
13.2.3 Fruit Anatomy 193
13.2.4 Pollination Initiates Ovary and Fruit Development 193
13.2.5 Mature Fruit 194
13.3 On-the-vine Curing Process in a Vanilla Pod 195
13.4 Off-the-vine Curing Process of Vanilla Beans 196
13.4.1 Purpose of Curing 198
13.4.2 Traditional Methods of Curing 199
13.4.2.1 Killing 199
13.4.2.2 Sweating 200
13.4.2.3 Drying and Conditioning 201
13.5 Activity of Hydrolytic Enzymes Occurring in a Curing Vanilla Pod 202
13.5.1 Protease Activity 202
13.5.2 Cell Wall Hydrolyzing Enzymes 204
13.5.3 Glycosyl Hydrolases 204
13.6 Activity of Oxidative Enzymes Occurring in a Curing Vanilla Pod 209
13.7 Vanilla Products 212
13.8 Summary and Conclusions 212
13.9 Addendum: Commercial Curing Methods of Green Vanilla Bean 213
13.9.1 Traditional Methods 213
13.9.1.1 Mexican Curing Method 213
13.9.1.2 The Bourbon Curing Method 214
13.9.1.3 The Tahitian Curing Method 214
13.9.1.4 Other Traditional Curing Methods 214
13.9.1.5 Indonesian Curing of Vanilla Bean 215
13.9.2 Refinement of Traditional Curing Methods 215
13.9.3 Novel Curing Methods 215
