INDEX

Abandonment
  through expiration, 104
  in patent prosecution, 62, 64
  prior commercial use rights and, 83
Abbreviations, xxi
Abstract, in patent document, 49, 50
Abstract ideas
  in conception, 46
  as nonpatentable subjects, 27
Academia. See Universities
Academic researchers, regular patent application by, 60
Accelerated examination
  fees for, 103
  in patent prosecution, 61
“Act to Promote Progress of the Useful Arts” of 1790, 9
Actual reduction to practice, 46
Addresses, of inventors, 95
Adrenaline patent, 42
Advisory action, in patent prosecution, 63, 64
African countries, patents in, 122
African Regional Intellectual Property Organization, 122
Aggregates, unobviousness of, 37–38
Agreement on Trade Related Aspects of Intellectual Property Rights (TRIPS), 123
Agreements, 139–176. See also Assignment agreements; Confidential disclosure agreement (CDA); Confidentiality agreements; Contracts; Employment Agreement; Joint Ownership Agreement; Material Transfer Agreement; Non-compete agreements; Non-Disclosure Agreement (NDA); Patent Assignment Agreement; Patent License Agreement; Sponsored Research Agreement
Algorithms
  as nonpatentable subjects, 28
  in software, 89–90
Allowance, 68
  in patent prosecution, 62–63, 64
Amazon, 90
Amendment(s). See also Changes
   adding inventors via, 95
   continuation applications for making, 64–65
   to foreign patents, 121
   in patent prosecution, 62, 64
America Invents Act. See Leahy–Smith
   America Invents Act of 2011
Analytical data, in notebooks, 56
Anderson, LaDell, xv
Annuities, 68
Anticipation
   patent infringement and, 77
   patent novelty vs., 35
Anti-Cybersquatting Consumer Protection
   Act, 23
Appeals. See also Court of Appeals for the
   Federal Circuit (CAFC); Court of
   Customs and Patent Appeals
   in challenging patents, 69
   fees for, 103
   in patenting business methods, 90
   in patenting microorganisms, 85
   in patent prosecution, 63
Applicants
   earlier/later, 34
   protection against unworthy, 34
Application fees, 103–104
Application Number, in patent document, 49, 50
Appraisers, in patent valuation, 114–115
AquAdvantage salmon, 87–88
Architectural works, copyrighting, 22
Armenia, patents in, 122
Art. See Person having ordinary skill in the
   art (PHOSITA); Predictable arts; Prior
   art; Unpredictable arts
Art units, patent prosecution and, 61
Artworks, copyrighting, 22
Aspirin patent, 41–42
Assessment, of intellectual property, 104–110
Assignee, in patent document, 49, 50
Assignment agreements
   hired-to-invent doctrine and, 97
   independent inventors and, 98
Assignment clause
   hired-to-invent doctrine and, 97
   patent ownership and, 97
Association of University Technology
   Managers, 101
Atomic weapons, as nonpatentable subjects, 28
ATryn, 88
Australia
   bilateral patent treaties with, 119–120
   patents in, 122
Authors, 91
Automatic nonexclusive licence, shop rights
   and, 98
Background
   in patent specification, 51
   in regular patent application, 58
Ball, Elyse N., xvi–xvii, xx
Ball, Justin, xix
Bankruptcy, patent auctions resulting from, 81
Belarus, patents in, 122
Belgian Patent Office, 121
Belgium, patents in, 121
Best mode
   foreign patents and, 117
   in patent specification, 51, 52
   post-grant review and, 69
   in provisional patent application, 57
   in regular patent application, 58, 59
Bibliographic searches, 35
Bilateral treaties, foreign patents and, 119–120
Biotechnology patents, 84–89
Blocking patents, 5
Brainstorming sessions, 94
Brenner v. Manson, 30
British Parliament, patent law passed by, 8
Budapest Treaty, 86
Bundling, of ownership rights, 96
Bush, Vannevar, 136
Business method patents, 84, 90
California, non-compete agreements in, 98
Canada
   bilateral patent treaties with, 119–120
   patents in, 117, 122
Candor. See Duty of candor
Career education, in polymers science and
   chemistry, xiii–xiv, xiv–xv
INDEX

Continuation-in-part (CIP) application, 64–65, 67
foreign patents and, 117
for prophetic patents, 48
Contracts, 139–176. See also Agreements
assignment clauses in, 97
hired-to-invent doctrine and, 97
non-compete agreements and, 98–99
Non-Disclosure Agreement as, 109
for patent transfers, 91–92
Contributions, of inventor team members, 93–95
Contributory infringement, 79
Control, by patent holders, 5–6
Co-owners, 97. See also Ownership Agreement
Copyright holders, exclusive rights of, 23
Copyrights, xvii
as intellectual property, 22–23, 24
moral rights as, 25
software, 21, 89–90
Corporations, patent-handling personnel in, 113–114. See also Companies
Corroboration, conception and, 45–46
Cost-benefit assessment, of patent ownership, 104–105
Costs. See also Fees; Money
of implementing patent system, 131, 132–133
of materials, xii
of patenting, 102–104
prior commercial use rights and legal, 83
Courses, industry-oriented material in, xi–xv
Court of Appeals for the Federal Circuit (CAFC)
on patenting business methods, 90
in patent prosecution, 63
Court of Customs and Patent Appeals
on conception, 92
on patenting microorganisms, 85
Courts of law
foreign patents in, 121–122
loss of patent rights under, 69
Coverage, of patent claims, 53
Cover sheet, in patent document, 48–50
Creativity
copyright protection for, 22–23
copyrights as promoting, 22
cultivating patentable, 17
defining, 12–13
in the inventing process, 12–19
ordinary vs. extraordinary, 37
patentable, 14–15
patenting and, 12–13
patent system and, 131
of persons having ordinary skill in the art, 37
practicality vs., 17–18
types of, 14–15
Criticisms, in patent specification, 51
Culture collections, in patenting microorganisms, 86
Damages, in infringement suits, 80
Database rights, as intellectual property, 25
Dated entries, in notebooks, 56
“Day-glow” zebrafish, 88
DeChambeau, Aimee, xix
Defensive publication, patent novelty and, 33
Delayed examination, of foreign patents, 122
Departments, government. See U.S. entries
Dependent claims, 53–54
Derivation proceedings, patent novelty and, 33–34
Derivers, inventors vs., 34
Description, in patent specification, 51
Design patents, 21, 28
filing fees for, 104
Development, 45
Direct infringement, 78
Disclosures. See also Non-Disclosure Agreement (NDA)
foreign patents and, 33, 117
one-year rule and, 32–33
patent novelty and, 33
Discoveries, patentable, 26–27
Discovery push model, innovation in, 128
Disputed claims, in patent prosecution, 62–63
Disruptive innovation, 128–129
Disruptive technology advances, 84
Divisional applications, 64–65, 68
in patent prosecution, 62, 64
DNA sequences, patenting, 88
Doctor of philosophy (Ph.D.) degree, purposes of, xii
Doctrine of equivalents, in patent infringement, 78–79
Doctrine of inherency, unobviousness and, 40–41
Documentation, notebooks for, 56
Dollinger, Susan E., xix
Dominating patents, 5
Domination, patent infringement and, 75, 76, 77
Dramatic works, copyrighting, 22
Drugs, proving utility of, 30
Duty of candor, in patent prosecution, 63–64
Earlier patent applicant, 34
E-commerce operations, patenting, 90
Economic reward, from ideas, 102–115
Edison, Thomas, 16, 21, 61
Education, patent system and, 137–138
Effective date, 42
Election, in patent prosecution, 62, 64
Embodiments, in patent specification, 51
Embryos, patenting, 88
Employees. See also Personnel
innovation and, 127–128
Japanese and German patents and, 122–123
non-compete agreements and, 98–99
Employees’ Inventions Act (Germany), 122–123
Employers
Bayh–Dole Act and, 99–101
Non-Disclosure Agreement and, 109
Employment
independent inventors and, 98
innovation and, 127–128
Employment Agreement, 139, 146–148
Employment contracts, assignment clauses in, 97
Enablement
in continuation-in-part application, 67
patent document and, 50–51
in patent infringement, 78
in patenting microorganisms, 86
in regular patent application, 59
Enforcing foreign patents, 123–124
Engineering
innovation and, 125–126
patent system and, 133
Engineers
as inventors, 92
patent system and, 136–137, 138
as technicians, 16
English approach, to interpreting foreign patents, 121–122
Enlightened self-interest, patents as originating in, 7
Entrepreneurs
innovation and, 126
start-ups created by, 112
Entrepreneurship, innovation and, 18–19
Enviropig, 87
Equal value exchange, innovation and, 128
Equations
as nonpatentable subjects, 28
software using, 89–90
Errors, reissue applications to correct, 70–71
Esthetic creations, as nonpatentable subjects, 28
Eurasian Patent Organization, 122
Europe, patents granted in, 10, 117
European Patent Convention, 120
European Patent Office (EPO), 117, 119, 120–121
European Patent Union, 116, 120–121
European Union, bilateral patent treaties with, 119–120
Examination. See also Patent examination
costs of, 104
of foreign patents, 122
supplemental, 69, 71, 72
Exceptions
in copyright law, 23
to ownership rights, 97–98
patent novelty and, 31, 32
to prior commercial use defense, 83
Exclusionary rights
ownership and, 96, 97
in patent claims, 52
patent infringement and, 75
patents as conferring, 5–6, 12
Exclusive licenses, 111–112
Experience, in creating patentable inventions, 15–16
INDEX

Experimental data, prophetic patents and, 48
Experimental use exception, patent novelty and, 32
Experimentation, recording in notebooks, 56
Expert knowledge, in creating patentable inventions, 17
Experts, 17
Expiration, of patents, 104
Expiration date, for reissue applications, 71
Expression, copyright protection for, 22–23
Extraordinary creativity, 37
Fair use exception, in copyright law, 23
Feasibility, in prophetic patents, 46
Fees. See also Costs; Filing fees; Legal fees; Maintenance fees; Money after patent allowance and issuance, 68 in regular patent application, 58
Fetuses, patenting, 88
File wrapper, 68
Filing date, 42
continuation applications and, 65–66 for international applications, 118 in patent document, 49, 50 patent novelty and, 31–32 in patent prosecution, 62 provisional patent application and, 57–58 for reissue applications, 70
Filing fees, 102, 103, 104 in patent prosecution, 63 for provisional patent application, 57
Final fee, after patent allowance and issuance, 68
Final rejection, in patent prosecution, 62, 64
Financial rewards, patents and, 2, 3–4
First-inventor-to-file system, 10, 117 continuation applications and, 65 notebooks in, 56 patent novelty and, 33–34
First law of inventing, 18, 26–27, 28–44
First office action, in patent prosecution, 61–62
First-to-invent system, 10
FlavrSavr tomato, 88
Fleming, Alexander, 135–136
Foreign inventors, 95
Forms and contracts, 139–176
Formulae (mathematical). See also Chemical formulae as nonpatentable subjects, 28 software using, 89–90
Founding Fathers, 9. See also Constitution, The
France, patents in, 121
Freedom to operate, 74, 80–82
Freedom-to-operate survey, 80–81
Free market, xvii
Future profits, predicting from patents, 115
Generic patents, in patent infringement, 75, 76
Genetic material, patenting, 88
Geographical indications, as intellectual property, 24–25
Geography, non-compete agreements and, 99
German approach, to interpreting foreign patents, 121–122
Germany, patents in, 116, 122–123
Global community, intellectual property rights recognized by, 20–25. See also International entries; World entries
Goods, ideas vs., 2
Google, on creativity, 13
Government. See also United States; U.S. entries
Bayh–Dole Act and, 99–101 innovation and, 129–130 patents and, 1–2
Graduate students, industry-oriented material for, xi–xiv
Graham factors, in unobviousness, 39–40
Graham v. John Deere, 39
INDEX

Graver Tank & Manufacturing Co. v. Linde Air Products, 79
Greed, as patent stimulus, 7
“Guide to Filing a Utility Application, A,” 51

Hired-to-invent doctrine, 97–98
Hoffmann, Felix, 41–42
Hopkins, Samuel, 9
Humans, patenting genetically modified, 88–89

Ideas
as conceived by inventors, 92–93
in conception, 46
in creating patentable inventions, 15–16
making money from, 102–115
no copyright protection for, 22
as nonpatentable subjects, 27
patents and, 2

Ideation sessions, 94
Identification, of inventors, 91–95
Illegal objects, as nonpatentable subjects, 28

Improvements. See also Incremental improvements
continuation applications for making, 64–65
as patentable subjects, 27

Improvements on existing technology, foreign patents describing, 116
Incremental improvements, creating, 17
Incremental innovation, 128–129
Independent claims, 53–54
Independent inventors
patent application fees for, 103
patent ownership by, 98
patent system as encouraging, 11

Index cards, xvi–xvii
India, as patent enforcement problem, 123–124
Industrial applicability, of foreign patents, 116, 120
Industrial development, patent system and, 136
Industrial employees, regular patent application by, 60
Industrial experience, importance of, 17–18

Industry
innovations from, 129
universities vs., xiii–xviii, xiv

Inequitable conduct
loss of rights due to, 68, 69
in patent prosecution, 64
supplemental examination and, 71

Information Disclosure Statement, 140, 153–156
in patent prosecution, 63

Information technology (IT), 84. See also Software entries

Infringement(s), 74–83
basic concepts of, 74–75, 75–77
of foreign patents, 121
freedom to operate and, 74, 80–82
patent claims and, 53
of patents, 5–6
prior commercial use rights and, 82–83
types of, 77–79
Infringement suits, 79–80, 82–83
Infringers, 5, 74–75, 75–76, 76–77

INID (Internationally agreed Numbers for the Identification of Data) codes, 49

Innovation(s), 125–130
causes behind, 125–126, 129
by companies, 126–127, 128
defined, 125
disruptive, 128–129
trepreneurship and, 18–19
government and, 129–130
incremental, 128–129
job creation and, 127–128
making money from, xvii
money and, 126, 127
patent system and, 137–138
patent system as encouraging, 11
patent system as inhibiting, 131–132
as a process, 128
product champion and, 126
society and, 127
sources of, 129
teaching about, xiii–xiv
