Index

Note to the Reader: Throughout this index boldfaced page numbers indicate primary discussions of a topic. Italicized page numbers indicate illustrations.

A

A G DL P strategy, 282
Access Credential Manager As A Trusted Caller policy, 359
Access This Computer From The Network policy, 359
access to folders and files, 379–380, 414–418
Account Is Disabled setting, 309
Account Lockout Duration policy, 352–353
Account Lockout Threshold policy, 352–353
account policies, 347–348
device authentication, 354
lockout, 351–354, 352
passwords, 348–350, 348, 351
Workplace Join, 351
Account Policies settings, 346
accounts
changing, 14, 15
creating, 14
types, 12–13
user. See user accounts
Acknowledge packets, 177
Act As Part Of The Operating System policy, 359
Action Center, 366–367, 366
Active Directory
domain accounts, 301, 340
GPOs, 323, 341
Active Directory Domain Services (AD DS), 13, 148, 171, 272
Active Directory Users and Computers
domains, 278, 282
GPOs, 286
groups, 280
ActiveSync feature, 261
AD DS (Active Directory Domain Services), 13, 148, 171, 272
Add Counters dialog box, 508–509, 509
Add Or Remove Snap-ins dialog box
LGPOs, 345
users and groups, 304–305, 304
Add Printer dialog box, 472, 472–473
Add Workstations To Domain policy, 359
adding printers, 467–470, 468–469
addresses, IP. See IP addresses
Adjust Memory Quotas For A Process policy, 359
ADK (Assessment and Deployment Kit), 73, 77, 113
administrative privileges for command prompt, 18–19
Administrative Templates node in Group Policy, 285
administrative tools on Start screen, 7–9, 9
administrator accounts, 13, 299–300
Administrator setting in Windows Defender, 369
Administrators groups, 278, 280, 325
Administrators LGPOs, 343–344
Advanced Audit Policy Configuration settings, 347
Advanced Encryption Standard (AES), 204–205
Advanced Options dialog box
drivers, 455, 456
indexes, 437, 437
Advanced Security in Windows Firewall, 229–232, 231
authenticated exceptions, 236–238, 237–238
connection security rules, 238–240, 239–240
description, 346
port enabling, 232–234, 233
protocol enabling, 234–236, 235
Advanced Security Settings dialog box, 418, 421, 425
Advanced Settings for File History, 536–537, 537
Advanced settings in Windows Defender, 369
Advanced Sharing dialog box, 381–382, 422–423
Advanced Sharing feature, 403–404
Advanced Sharing Settings
folders, 381, 400, 401
network profiles, 193, 196
Advanced tab
Internet Explorer 11, 372
printers, 477
Remote Desktop Connection, 254
system variables, 27
Advanced TCP/IP Settings page, 201–202, 202
adware, 227
AES (Advanced Encryption Standard), 204–205
AGP strategy, 282
aliases in PowerShell, 41–42
All Items setting, 370
All Networks section, 195–196
All Users profile, 103
Allow Log On Locally policy, 359
Allow Log On Through Terminal Services policy, 359
Allowed Items setting, 370
AllSigned setting, 48
Alt menus, 6, 6
Always On Top option, 488
Always Search File Names And Contents option, 379
Always Show Icons, Never Thumbnails option, 377, 412
Always Show Menus option, 377, 412
amd64 folder, 113–114
Anonymous Logon group, 328
anycast addresses, 179–180
APIPA (Automatic Private IP Addressing), 176–178
Application Control Policies settings, 347
Application Virtualization (App-V), 109, 162
applications
event logging, 498–499
RDS, 160
snapping, 9
AppLocker, 347
Apply option for snapshots, 156
architecture considerations in Windows To Go, 79
Archive The Log When Full, Do Not
Overwrite Events option, 500
ARM-based processors, 61
Assessment and Deployment Kit (ADK), 73, 77, 113
Assign Memory page, 141
At A Scheduled Time setting, 262
Audit Account Logon Events policy, 356
Audit Account Management policy, 356
Audit Directory Service Access policy, 356
Audit Logon Events policy, 357
Audit Object Access policy, 357
audit policies, 355–358, 356
Audit Policy Change policy, 357
Audit Policy folder, 354
Audit Privilege Use policy, 357
Audit Process Tracking policy, 357
Audit System Events policy, 357
auditing, NTFS, 425–426
authenticated exceptions, 236–238, 237–238
Authenticated Users group, 327
authentication and authorization, 12, 15
accounts
changing, 14, 15
creating, 14
types, 12–13
domains, 275–283, 277, 279, 281, 283
LGPOs, 347–348
devices, 354
lockout policies, 351–354, 352
password policies, 348–350, 348, 351
Workplace Join, 351
logon, 302–303
multifactor, 372–373
remote, 248–250, 250
user accounts, 322–323
VPNs, 254–256
wireless networks, 204–205
Automatic Private IP Addressing (APIPA), 176–178
automating deployments with images, 72–73, 72

B
Back Up Files And Directories policy, 359
Backup Operators group, 280, 326
backups
excluding folders from, 534–536, 535–536
File History, 531–533, 531–533
Advanced Settings, 536–537, 537
restoring files, 538–539, 538–539
network locations, 534, 534
baselines, images as, 73
basic disks in multiboot systems, 81–82
batch files
creating, 35–36
USMT, 116–118
Batch group, 328
BCD (boot configuration data) files, 81
BCDboot tool, 98–99
bcdedit tool, 81
biometrics, 276, 372–373
BIOS
VM settings, 158
Windows To Go, 78–79
BitLocker Drive Encryption
removable media, 438–440, 439–440
working with, 373–374
BitLocker to Go, 439, 440
Block Inheritance setting, 290
Bluetooth, monitoring, 494
boot configuration data (BCD) files, 81
boot images, 71
boot issues, 517–520, 518–519
bootable VHDs, 100–102

B
BranchCache feature
benefits, 258–259
modes, 259
requirements, 259–260
breadcrumb trails, 398
broadband support, 263–264
broadcast methods, 172
buffers for command prompt, 22
built-in groups, 324
default local, 324–327
overview, 278–281, 279, 281
special, 327–328
built-in user accounts, 300–301, 300
Bypass setting, 48
Bypass Traverse Checking policy, 359

cabling in networks, 211–212, 211
caches
BranchCache, 258–260
DFS, 434
folders, 382, 423
group policies, 343
hostnames, 183–184
NetBIOS name resolution, 184
Caching option, 423
capacity of storage spaces, 432–433, 432–433
capturing output, 34
case-sensitivity in command prompt, 20
cd command, 29–30
Cert Manager, 426–427
Certificate Export Wizard, 426
certificates in EFS, 426, 427
Challenge Handshake Authentication Protocol (CHAP) authentication, 350
Change Adapter Settings link, 193
Change Advanced Sharing Settings link, 193
Change My Environment Variables option, 307
Chan

Change Settings option in Windows Update, 384
Change share permission, 382
Change the Location of the Index option, 437
Change The System Time policy, 359
Change The Time Zone policy, 359
Change User Account Control Settings option, 306
Change Your Account Name option, 306
Change Your Account Type option, 306
CHAP (Challenge Handshake Authentication Protocol) authentication, 350
chars, 5
Charms bar, 3
Check For Updates option, 384
Choose Target Machine dialog box, 304
classful IP addresses, 173–174
Classless Inter-Domain Routing (CIDR) notation, 176
clean installs, 66–70
Client Hyper-V, 79–80
clients
BranchCache, 259
DirectAccess, 258
VPNs, 256–258, 257
cmdlets in PowerShell, 41–42
CNG (Cryptography Next Generation), 375
Collapse All option, 489
colon (:) in IPv6 addresses, 179
command-line tools in Windows To Go, 97–99, 98
command prompt, 17, 39
batch files, 35–36
case-sensitivity, 20
commands and paths, 24–25
copy and paste, 32–33, 33
Doskey, 22
drag and drop, 30–32, 31
executables
identifying, 25–26
paths, 26–30, 28–29
help, 19
launching, 17–19, 18
networks, 213–214, 213
output capturing, 34
quotes, 21–22
runas command, 22–23
spelling, 20
switches, 19
system variables, 23–24
wildcards, 20–21
commands
command prompt, 24–25
PowerShell
overview, 41–42
running, 46–47
USMT, 112–114
Comments option, 381, 423
Compare Info For Both Files option, 539
comparison operators, 44–45
compatibility requirements, 64–66
Computer Configuration node, 288
Computer GPOs Applied node, 289
Computer Management changing accounts, 14, 15
domains, 278, 279
Computer Name/Domain Changes dialog box, 275, 275
config.xml file, 120
Configure Advanced User Profile Properties option, 307
Confirm Password setting, 309–310
conflicts in Sync Center, 262, 263
Connection Security Rules, 239
connections and connectivity
networks, 210–211
printers, 467–474, 468–469, 471–474
virtual switches, 136, 136
VPNs, 254–256, 255
Windows Firewall security rules, 238–240, 239–240
Control Panel, User Accounts options in, 306–307
Control Panel Home link, 193
converting disks, 429–430, 429
copied files, permissions for, 421
copy and paste in command prompt, 32–33
Copy option for VM GUIDs, 157
  user profiles, 320
  VMs, 157
counters in Performance Monitor, 435, 508–509
CPU monitoring, 491, 492
Create A Pagefile policy, 359
Create A Password Reset Disk option, 306
Create A Recovery Drive dialog box, 540–541
Create a storage space dialog box, 433, 433
Create A Token Object policy, 359
Create A Windows To Go Workspace window, 95
Create Configuration Wizard, 261
Create Global Objects policy, 359
Create New Data Collector Set wizard, 511, 511
Create Permanent Shared Objects policy, 360
Create Shortcut dialog box, 318
Create Symbolic Links policy, 360
Creator Owner group, 327
credentials
  account policies, 350, 351
domain, 276
  managing, 306
CryptoAPI, 375
Cryptographic Operators group, 326
Cryptography Next Generation (CNG), 375
curly brackets ({}), 45–46
custom images, 74
custom rules in Windows Firewall, 232, 239

D
DaRT (Diagnostics and Recovery Toolset), 498
data collector sets, 509–512,
  510–511
data considerations in Windows To Go, 79
data preservation in USMT, 119–120
data recovery agent (DRA), 426–427, 427
Data Users Properties dialog box, 331
Date And Time dialog box, 363, 364
DCs. See domain controllers (DCs)
Debug Programs policy, 360
Default Domain Policy, 284–287, 285, 291
