A Note from the Series Editor, ix
Preface, xi
List of Contributors, xiii
Acknowledgments, xv

1 Cowboys and Computers: Communicating National Animal Identification in the Beef Industry 1
David Wright

1.1 Industries Collide, 1
  1.1.1 Resistance to Technology in the Beef Industry, 3
  1.1.2 Having a Cow over Mad Cow Disease, 3
  1.1.3 Change Is Slow in the Beef Industry, 6
  1.1.4 Communication Breakdowns and Coffee Shop Policymaking, 7
  1.1.5 Can We All Just Get Along?, 9
  1.1.6 USDA Strategies for Communication, 10

1.2 A New Approach to Studying Complex Communication Issues, 11
  1.2.1 Ethnography and Diffusion in the Beef Supply Chain, 13
  1.2.2 Communication Theory, Linguistics, and Diffusion in the Beef Supply Chain, 16
  1.2.3 Linguistic Textual Analysis, 19
  1.2.4 Diffusing Innovations in the Real World, 23
  1.2.5 Diffusion and Communication Networks, 24

1.3 Results of My Investigation, 25
  1.3.1 Alice at the Auction, 26
  1.3.2 Backstage at the Sale Barn, 27
  1.3.3 Buying the NAIS, 29
  1.3.4 Down on the Farm, 30
  1.3.5 Interviews with Members of the Beef Industry, 32
  1.3.6 Interviews with Livestock Market Owners, 33
  1.3.7 Rules from the Road, 38
  1.3.8 Communication Gaps and Communication Theory, 40
  1.3.9 Textual Analysis with Implicature and Pragmatics, 48
CONTENTS

1.4 Lessons of Beef and Bandwidth, 49
   1.4.1 No Pardon for Jargon, 51
   1.4.2 Alice Is Not in Wonderland, 52
   1.4.3 The Telephone Game Still Happens, 53
   1.4.4 It All Comes Down to Doin’ Business, 54
   1.4.5 What We Have Here Is a Failure to Communicate, 56
   1.4.6 Culture Is King, 58
   1.4.7 The Situation Now, 59

References, 60

2 Children Communicating Food Safety/Teaching Technical Communication to Children: Opportunities Gleaned from the FIRST® LEGO® League 2011 Food Factor Challenge 63
Edward A. Malone and Havva Tezcan-Malone

2.1 Enhancing the Visibility and Recognition of Technical Communication, 63
2.2 Literature Review: Teaching Technical Communication, Engineering, and Food Safety to Children, 65
2.3 Background: The League, the Challenge, and the Team, 67
   2.3.1 First Lego League, 67
   2.3.2 The Food Factor Challenge, 69
   2.3.3 The Team: Global Dreamers, 70
2.4 Examples of Technical Communication Activities in FLL Projects, 71
   2.4.1 Branding (Creating a Name and Logo), 72
   2.4.2 Conducting Primary and Secondary Research, 72
   2.4.3 Giving Presentations and Demonstrations, 74
   2.4.4 Designing a Document, 77
2.5 The Food Factor Challenge as a Model of Food-Safety Education, 77
   2.5.1 Fostering Food-Safety Habits in Children, 78
   2.5.2 Promoting Dialogue Rather Than Monologue, 79
   2.5.3 Generating Interest in Food-Safety Careers, 79
2.6 Conclusion, 80

Acknowledgments, 81

References, 81

3 The Role of Public (Mis)perceptions in the Acceptance of New Food Technologies: Implications for Food Nanotechnology Applications 89
Mary L. Nucci and William K. Hallman

3.1 Accepting New Foods: Consumers, Technology, and Media, 89
   3.1.1 Food Technology Acceptance, 90
   3.1.2 The Role of the Media in Public Perceptions of Food Technologies, 92
CONTENTS

3.2 Nanotechnology: Unseen, Unknown, 95
  3.2.1 Nanotechnology in the Media, 96
  3.2.2 Public Perceptions of Nanotechnology, 96
  3.2.3 Perceptions and Acceptance of Nanotechnology, 97
3.3 Discussing New Food Technologies, 101
Acknowledgments, 103
References, 103

4 The New Limeco Story: How One Produce Company Used Third-Party Food Safety Audit Scores to Improve Its Operation 119
Roy E. Costa

4.1 Food Safety in Modern Food Supply Operations, 119
4.2 Safety Audits Cause Some Level of Controversy, 122
4.3 New Limeco’s Journey to Safety, 122
  4.3.1 Implementing Changes, 124
  4.3.2 Sanitation Issues, 125
  4.3.3 Gradual Safety Improvement, 125
References, 126

Becca Cammack

5.1 Communication in the Modern Environmental Movement, 129
5.2 Background, 130
  5.2.1 Who Is on the Receiving End of Environmental Regulation?, 131
  5.2.2 What Are the Effects of Construction and Storm Water on the Environment?, 131
5.3 Studying Groundwater Regulation, 133
  5.3.1 Textual Analysis, 133
  5.3.2 Case Study, 134
5.4 Results of My Investigation, 134
  5.4.1 The CGP Fact Sheet Background Section, 135
  5.4.2 The CGP Rationale Section, 136
  5.4.3 Construction General Permit (CGP), 136
  5.4.4 A Targeted Case Study of CGP, 137
5.5 Discussion of Study Results, 142
References, 144
6 Influences of Technical Documentation and Its Translation on Efficiency and Customer Satisfaction 145

Elena Sperandio

6.1 Considering Technical Documentation, 145
6.1.1 The Problem with Integrating Systems, 146
6.1.2 Enterprise Resource Planning Systems, 147
6.1.3 Production Information Management Systems, 148
6.1.4 Document Management Systems/Content Management Systems, 148
6.1.5 Translation Memory Systems/Computer-Aided Translation, 149

6.2 Data Management in Technical Communication, 150
6.2.1 Development and Diffusion of Data Management Tools, 150

6.3 Technical Communication in Small Companies, 153
6.3.1 Workflow Advantages in Small Companies, 153
6.3.2 Workflow Disadvantages in Small Companies, 154

6.4 Technical Communication in Medium-Sized Companies, 154
6.4.1 Workflow Advantages in Medium-Sized Companies, 155
6.4.2 Workflow Disadvantages in Medium-Sized Companies, 156

6.5 Technical Communication in Large Companies, 156
6.5.1 Workflow Advantages in Large Companies, 158
6.5.2 Workflow Disadvantages in Large Companies, 159

6.6 Translation of Technical Information, 159
6.6.1 Translations in Small Companies, 160
6.6.2 Translations in Medium-Sized Companies, 162
6.6.3 Translations in Large Companies, 163

6.7 Consequences for Technical Communication, 165
6.8 Assumptions About Technical Communication, 166
6.9 Outlook, 168

References, 169

7 Communicating Food Through Muckraking: Ethics, Food Engineering, and Culinary Realism 171

Kathryn C. Dolan

7.1 Muckraking and Promoting Food Safety, 172
7.2 Culinary Realism and Food Safety, 173
7.2.1 Tubercular Beef in The Jungle, 174

7.3 High Fructose Corn Syrup in The Omnivore’s Dilemma and In Defense of Food, 179

7.4 Literature as a Watchdog in Food Safety, 184
7.5 The Effects of Literature on Everyday Practices, 186

References, 186
