PREFACE xiii
ACKNOWLEDGMENTS xix

SECTION I
Aging and Alzheimer’s Disease: Implications for Design 1

CHAPTER 1. Aging in the Twenty-First Century: Aging and Age-Related Changes 3
Demographics
Global Aging
Aging, Diversity, and Health
Age-Related Changes
Arthritis
Hypertension
Hearing Impairment
Vision Impairment
Depression
Diabetes
Osteoporosis
Stroke
Exercise and Better Nutrition

CHAPTER 2. Alzheimer’s Disease 17
Memory Loss and Normal Aging
What Is Dementia?
What Is Alzheimer’s Disease?
The Impact of Alzheimer’s Disease
What We Know About Alzheimer’s Disease
What Causes Alzheimer’s?
Mild Cognitive Impairment
The Changing Face of Alzheimer’s
Lifestyle
The Nun Study

CHAPTER 3. Environment as Treatment 27
Alzheimer’s Disease Can Be Treated
Naturally Mapped Physical Environments
Therapeutic Activities and Programming
Habilitation Therapy
Design Professionals Can Have a Great Impact

SECTION II
Good Design for Living—
at Any Age 37

CHAPTER 4. Aging Vision and Health 39
Light and Vision
Age-Related Eye Disease
Light and Health
Circadian Rhythms
Light Received Through the Eyes
Sunshine Is a Mood Enhancer
Sleep Disruption
Light Absorbed Through the Skin
Pain Relief
Research and the Circadian System

CHAPTER 5. Lighting and Daylighting 55
Daylighting
Interior Lighting
Strategies for Energy-Efficient Lighting and Daylighting
Lighting Terminology Made Simple

CHAPTER 6. Hearing Loss and Sound Solutions 77
Strategies for Sound Design
Planning
Acoustic Enhancement
Assistive Listening Devices
Group Listening Systems
Bathrooms  
Bathe Suites and Bathing Environments  

CHAPTER 14. Social Living Spaces 205  
Staying Socially Connected  
Social Activity  
Sacred Spaces: Religion and Spirituality  
Wayfinding  

SECTION IV  
Innovative Care Models 221  

CHAPTER 15. The Green House 223  
Warm, Smart, and Green  
Smarter Care Delivery  
Green and Connected  

CHAPTER 16. Adult Day Care 233  
What Is Adult Day Care?  
The Physical Day Care Setting  

CHAPTER 17. The Planetree Model 249  
Ten Elements of Patient-Centered Care  
The Planetree Alliance  

CHAPTER 18. Hospice: End-of-Life Care 263  
What Is Hospice?  
Care and Comfort  
How Hospice Works  
Alzheimer's End-of-Life Care  
Palliative Care—A Better End of Life  
Hospice: End-of-Life Care  
The Physical Environment for End-of-Life Care  
A Celebration of Life  

SECTION V  
Gardens and Outdoor Spaces 273  

CHAPTER 19. Creating Gardens and Outside Environments 275  
Designing Gardens  
The Porch  
Here's the Garden—Where Are the People?  
Safety and Security
Glare Control
Activity Gets People into the Garden
Simple Pleasures and Sensory Stimulation
Nature’s Chirping Chorus
Horticultural Therapy
Accommodating the Need for Privacy
Indoor Atriums and Gardens: Bringing the Outside Environment Inside
The Alzheimer’s Memory Gardens

SECTION VI
What Does Success Look Like? 297

CHAPTER 20. What Does Success Look Like and How Will You Know? 299

First Impressions Count
Hands-on Learning
Teamwork Pays
Evidence-Based Design
Pebble Project Initiative
Post-occupancy Evaluation
Life-Enhancing Environmental Design—We’ve Come a Long Way
