Index

Page numbers in **bold** refer to pages having answers to the questions

abdominal thrusts, 84
abrasion, 58, 60, 145
accessory salivary glands, 99
acid etchants, 168, 178
acids
dental materials, 167, 177
effect on teeth, 56, 60, 74, 77, 154, 159
pH, 173
saliva on, 91, 98
vomit, 77, 159
acquired immune deficiency syndrome, 20, 73, 77
acquired immunity, 29
acrylic
orthodontic appliances, 69
temporary crowns, 188
**Actinomyces**, 19, 21, 140, 147
acute necrotising ulcerative gingivitis, 21, 158
Adams cribs, 68, 69, 189
Adams pliers, 68, 69, 168, 177
adhesive cements, 171, 181
adhesive pastes, denture retention, 175
adrenaline
anaphylaxis, 83, 85
local anaesthesia, 168, 173, 174, 177
AED (automatic external defibrillators), 80, 83
aerosol contamination, 4, 9, 11, 12, 21
airway protection, 42, 47
aesthetics, after root filling, 190
age-related conditions, 72, 73, 75, 77, see also elderly patients
osteoporosis, 72, 76
AIDS (acquired immune deficiency syndrome), 20, 73, 77
airflow, decontamination rooms, 33, 37
airway obstruction see choking
ALARP (ALARA) principles, 104, 105, 108, 109
quality assurance, 134
aldehyde, 12, 30, 37
alginate salts, 59
impressions, 177
handling, 169, 179
storage, 180
alkalis, pH, 173
alveolar crest fibres, periodontal ligament, 97
amalgam, 167, 176
restorations
disposal of extracted teeth, 44, 48, 169, 178
instruments, 163, 173
matrix systems, 176, 188
preparation, 183, 188
waste disposal, 48, 169, 178, 179
amalgam pluggers, 173
amalgam traps, separators, 179
ameloblasts, 148
amelodentinal junction, 89, 96
amylase, 98
anaerobic bacteria, 142, 147
mouthwash ingredients and, 152, 158
toxins, 149
anaphylaxis
drugs for, 80, 83, 85
signs, 82, 86
anatomy, 87–100
angina, 82, 86
Angle’s classification, 63, 64, 67
angular cheilitis, 76
ankylosis, 59
anteroincisor radiography, 59, 115, 116
congenital absence of lateral incisors, 117
orientation, 129, 133
anteropen bite, 68
antero-tooth clamps, 175
antibacterial enzymes, 98
antibiotics, 19, 20
oral diseases after, 71, 75
antibodies, 27, 28
antigens, 27
antitoxins, 27, 28
aphthous ulcers, 75, 100
apical fibres, periodontal ligament, 97
apicectomy, 189
apologies, 61
arch wires
  cleaning of teeth, 68
  retention, 171, 180
arrrhythmias, 83
articulating paper, 188
aspirating tips, 38
  sterilisation, 35, 39
aspiration, local anaesthesia, 164, 173, 181
aspirin, 83, 85
asthma, 79, 83, 146
astyoste, 83
attached gingiva, 97
attrition, 58, 60, 76, 145
autoclaves, 12, 29, 43, 48
  explosions, 44, 48
  Helix test, 32, 37
  maintenance, 45, 49
types, 33, 35, 38, 39
automatic external defibrillators, 80, 83
automatic processing of X-ray films, 120,
  124, 125
  machine maintenance, 123, 124, 125, 127
AVPU scale, 80, 82, 84, 85
bacilli, 19
back slaps, 84
bacteria, 15, 17, 19, 20, 21, 141, 146, see also
  anaerobic bacteria; plaque
  acid-producing, 139, 145
caries, 15, 18, 21, 140, 146
  soft tissue infections, 71, 75
bacteriostatic (term), 39
Bacteroides, 140
badges, radiation monitoring, 104, 106, 107, 110
bagged items, in drawers, 39
bagging (HTM 01-05), 45, 49
bands, 189
  molar, 185, 190
barbed broaches, 174
barrier method, 10, 27, 38
benign tumours, 157
biofilms see plaque
bisphosphonates, 100
biting views, 59, see also horizontal
  bitewing view
  occlusal caries, 116
blank film, radiography, 127
bleach see sodium hypochlorite
bleeding, BPE charting, 59
blood spatter, 42, 46
blood spillages, 7, 13, 26, 30
blood supply (arterial), 92, 99
body fluids, see also aerosol contamination
  cross infection, 9
body language, 161
bone
  loss, radiography, 115
  removal, instruments, 171, 180
resorption, 96, 191
retention of implants, 186, 191
bovine spongiform encephalopathy, 19
Bowie–Dick test, 37
BPE probe, 58, 59
BPE scores, 55, 58, 59
bracket holders, 68
Briault probe, 58
bridges
  implants vs. 185, 190
  temporary, 186, 191
broaches, barbed, 174
broach, 124
bronze, see tooth grinding
B-type autoclaves, 33, 35, 38, 39
  Helix test, 37
buccal artery, 92, 99
buccal gel, midazolam, 84
buccal surface (defined), 96, 97
budding organisms, 18, 21
buffers
  local anaesthesia solutions, 173
  saliva, 98
bulimia, 77, 154, 159
burnishers, 173, 175
sterilisation, 35, 40
burs, 165, 175
sterilisation, 35, 40
butterfly clamps, 175
butting in (conversations), 161
calcium hydroxide
as lining material, 169, 173, 177, 178
for mercury spillages, 172, 181
calcium hydroxyapatite, 89, 90, 96, 97
calcium phosphate, buffer, 98
calcium sulphate, 59
calculus, 147, 149
BPE charting, 59
interproximal, instruments to remove, 164, 174
subgingival, 53, 149
cancer see squamous cell carcinoma
Candida albicans, 16, 20, 75, 76, 93, 100, see also thrush
antibiotics and, 75
canine retractors, 189
canines
crowding, 68
local anaesthesia, 176
unerupted, radiography, 115
carcinoma see squamous cell carcinoma
cardiac arrest, 81, 84
babies, 81, 84
cardiocardiopulmonary resuscitation, 79, 83
children
cardiocardiopulmonary resuscitation, 82, 85
retention of patient records, 56, 60

chlorhexidine, 37, 38, 39
choking, 80, 83
treatment, 80, 84

chrome-cobalt partial dentures, 187, 191
carotid arteries, 99
carriers (of infections), 9, 13, 46
Creutzfeldt–Jakob disease, 25
hepatitis B, 27
carrots, 158
cartridges (local anaesthesia), disposal, 165, 175
cassettes, extra-oral films, 112, 113, 116
cavities, 145, see also restorations
classification, 164, 165, 167, 170, 173, 174, 177, 179
non-caries, 157
primary dentition, preparation, 184, 189

cellulitis, 141, 147
cementoblasts, 148
cements, see also luting cements
glass ionomer, 170, 179
matrix systems, 176
for molar bands, 185, 190
zinc oxide and eugenol cement, 166, 175
zinc phosphate, 177, 181
cementum, 97
cephalograms, 117
cephalostats, 112, 115
cervical foil matrix, 176
chemicals
for cleaning, 33, 34
hypersensitivity, 33, 38
COSHH regulations, 46
detergents for spills, 126
disposal, 121, 124, 125, 178
for skin cleansing, 34, 39

chest compressions, 79, 83
chickenpox, 30, 77
children
cardiocardiopulmonary resuscitation, 82, 85
retention of patient records, 56, 60

cleaning, see also blood spillages; spillages
chemicals for, 33, 34
hypersensitivity, 33, 38
chrome-cobalt partial dentures, 187, 191
clamps, for rubber dams, 175
clasps, partial dentures, 166, 175

cleaning of teeth, orthodontics, 65, 68
cleanliness levels, 4, 6, 9, 11
clean worktops, 12
cling film, 10, 38
clinical governance guidelines, quality assurance, radiography, 131, 134
cobalt chrome, 69
  partial dentures, 187, 191
coeval disease, 73, 77
cold, sensitivity to, 54, 59
cold sores, 18, 20, 21, 27, 74, 77
collagen fibres, periodontal ligament, 90, 97
collimators, 109, 117
commensal bacteria, 75
common cold, 19
communication, 154, 156, 159, 161
complaints, 57, 61
compliance, denture wearing, 191
composite inlays, 189
composite restorations
  acid etchants, 168, 178
curing lights, 169, 178
glass ionomer vs, 179
instruments, 164, 173
matrix systems, 166, 176
coned images, 120, 124, 125
confidentiality, records, 56, 57, 60, 61
congenital absence of lateral incisors, intra-oral films for, 113, 117
coning, horizontal bitewing view, 130, 134
consciousness, AVPU scale, 80, 82, 84, 85
consent, 56, 61
contact details of microbiologist, inoculation injuries, 44, 48
contingency plans, X-ray machine malfunctions, 126
controlled areas, X-ray machines, 104, 108
Control of Substances Hazardous to Health see COSHH regulations
copper, in amalgam, 176
COSHH regulations, 41, 46, 48
  files, first aid, 125
  RIDDOR, 46, 48, 49
coughing, 84
cranial nerves, 92, 99, see also specific nerves
crazed pattern, radiographs, 126
Creutzfeld–Jakob disease, 19, 25, 29
critical pH, 148
cross infection, 3, 9, 23
direct, 35, 40
  indirect, 4, 7, 10, 13, 28
  prevention, 4, 5, 6, 11, 25, 27, 29, 33, 34, 38, 40
  policies, 41, 46
crowding (of teeth), 65, 68
  radiography, 63, 67
crown preparations, impressions, 167, 176
crowns
  primary dentition, 189
temporary, 183, 187, 188, 192
crystalline debris, radiographs, 126
curing lights, 169, 178
cusps
  anatomy, 88, 95
  molars, 87, 95
  of Carabelli, 95
cyanosis, 83
  choking, 83
cysts, 100, 151, 157
  radiographic appearance, 115
damp, X-ray film storage, 133
Data Protection Act, 60
date-stamping, sterilised instruments, 31, 36
debonding of fixed appliances, 168, 177
debridement, 13, 31, 36, 38
  ultrasonic bath failure, 32
debt collection, 61
deciduous teeth see primary dentition
decommissionants (term), 39
decontamination, 5, 7, 8, 11, 31–40
  before autoclaving, 8, 13, 48
  impressions, 169, 179
  reusable items, 42, 43, 45, 47, 49
  by washer–disinfectors, 44, 48
decontamination rooms, 33, 37
deep overbite, 68
defibrillators, automatic external, 80, 83
demineralisation
  bacteria causing, 139, 145
  enamel, 147
  pH for, 143, 148
dental assessment, 53–61
dental chairs, X-ray machines and, 108
dental stone, 59
dentigerous cysts, 157
dentine, 97
  secondary, 143, 148, 178
dentinocemental junction, 97
dentures, see also fixed prostheses; partial dentures
  failure, 186, 191
  for immediate replacement, 172, 181
  natural retention, 166, 175
  occlusal face height, 176
  periodontitis and, 143, 148
  wax rims, 184, 188
denture stomatitis, 100
derotation, 67, 190
detergent foods, 153, 158
detergents, for chemical spills, 126
developer (X-ray film processing)
  disposal, 121, 125
  function, 124
  image faults with, 125, 126
  oxidation, 124
dextrose, 159
diabetes, 161
  hypoglycaemia, 81, 85
  periodontitis, 146
  type 2, 72, 76
diamond burs, sterilisation, 35
diet, caries and, 143, 148
digital radiography, 113, 114, 117
  advantages, 114, 117, 118
  storage of images, 130, 133
direct cross infection, 35, 40
dirty areas, zoning, 6, 11, 32, 37, 40
dirty rollers, X-ray film processors, 125
disconnecting tablets, 59
disinfectants, 6, 12, 26, 30
  for blood spillages, 42, 46
  chlorhexidine, 37, 38, 39
  for impressions, 179
  for metals, 32, 37
disinfection, 9, 36, 38
  cavities, primary dentition, 189
  impressions, 12, 37
  reusable items, 47
  dismissive attitude, 156, 161
  disposable items, 10, 13, 34
  endodontic instruments, 19
  dissecting forceps, 180
  distal surface (defined), 96
  distillers, 12
  diuretics, 161
  DMF levels, 153, 158
  door seals, autoclaves, 49
  downward displacement, in autoclaves, 38, 39, 43
  DPT see pantomographs
  drawers, bagged items in, 39
dressings, 11
droplet contamination, 4, 9, 11, 12
drugs
  affecting oral health, 156, 161
  for anaphylaxis, 80, 83, 85
  for emergencies, 81, 85
drying, manual processing of X-ray films, 123, 126
dry mouth see xerostomia
dual-core materials, temporary restorations, 177
elastics, orthodontics, 191
elastomers, 177
elderly patients, see also age-related conditions
dental specialism, 72, 76
elongation, X-ray images, 121, 125
emergencies, 79–86
emulsions, X-ray films, 120, 122, 124, 126
  expiry dates, 133
enamel
decalcification, 147
fixed appliances, 65, 68
loss, 154, see also erosion
toothbrushing on, 152, 157
endodontic instruments, 7, 19, 165, 174, 181
  files, 186, 190
  hand files, 181, 190
  rubber dams, 173
endodontics, moisture control, 163, 173
enzymes
  saliva, 98
toothpaste, 157, 160
Epanutin (phenytoin), gingival hyperplasia, 147, 159
epilepsy, midazolam for, 84
Epstein–Barr virus, 24
erosion, 58, 60, 74, 77, 145, 154, 159
gastric reflux, 76
errors, radiography, scores, 129, 131, 134
eruption, age ranges, 87, 88, 95
erythrocytes, 29
erthroplakia, 72, 75
etchants, 168, 178
ethyl chloride, 59
eugenol see zinc oxide and eugenol cement
evaluation, risk assessments, 47
excavators, 173
  spoon excavators, 164, 173, 174
exfoliation, 96
expiry date, see also use-by date
  sterilised instruments, 31, 36
explosions, autoclaves, 44, 48
external carotid artery, 99
extracted teeth, disposal, 44, 48, 169, 178
extraction forceps, 10
date-stamping, 31
extraction of teeth
  bone remodelling after, 191
  bone removal, instruments, 171, 180
  local anaesthesia, 92
  periodontal ligament, 90, 97
extra-oral film cassettes, 112, 116
  X-ray exposure, 113
face masks, 11, 47, 127
  facial artery, 92, 99
  facial nerve, 99
  fainting, 83
false pockets, 98, 147
  systemic conditions, 142, 147
FDI notation, 53, 55, 58, 60, 87, 88, 95, 96
felypressin, 179
fibres, periodontal ligament, 90, 91, 97, 98
files (endodontic), 186, 190
  hand files, 181, 190
files (for documents)
  COSHH regulations, 46
  radiation protection files, 103, 107, 108, 109
fillings see restorations
film speed, X-ray films, 109
fingers, rinsing, 12
finger springs, 189
  palatal, 66, 69
fire extinguishers, regulations, 46
  function, 124
  image faults with, 126
  green stain, 126
  spills
  cleaning, 122, 126
  first aid, 121, 125
