Notes on Contributors xv
Preface: Recidivism Risk Assessment in the 21st Century xxiii
  John Monahan

Part I  Introduction 1

1  Performance of Recidivism Risk Assessment Instruments in U.S. Correctional Settings 3
  Sarah L. Desmarais, Kiersten L. Johnson, and Jay P. Singh
  Characteristics of Risk Assessment Instruments 4
  Characteristics of Samples and Studies 5
  The Current Review 5
  Method 6
    Review Protocol 6
    Search Strategy 6
  Results 10
    Characteristics and Content of Instruments 10
    Sample and Study Characteristics 12
    Performance of Recidivism Risk Assessment Instruments 14
  Discussion 19
    Limitations 21
    Conclusions 21
  Author Note 22
  References 22
  Supplemental Table 29

Part II  Risk/Needs Assessment in North America 31

2  The CAIS/JAIS Approach to Assessment 33
  Christopher Baird
  Introduction 33
  History of Development 33
  Development and Validation of Risk Assessment 35
  Development of CAIS/JAIS Needs Assessment Instruments 38
  Development, Synopsis, and Evaluation of CMC/SJS 39
    Synopsis of CMC Supervision Strategies 41
    CMC Evaluation Results 44
  Current Issues and Future Directions 45
  References 46
3 Correctional Offender Management Profiles for Alternative Sanctions (COMPAS) 49
Tim Brennan and William Dieterich

Introduction 49
Purposes of COMPAS 49
Predictive Risk Assessment 49
Explanatory and Needs Assessment 50
Avoiding the Various Disconnects between Assessment, Treatment, and Outcomes 50
Different versions for Different Organizational Purposes and Target Populations 50
Methodological Goals 50
Background and History of Development 50
Incorporate Theoretical Guidance in Selecting Relevant Scales to Achieve a
Comprehensive Coverage of Explanatory Factors 50
Incorporate Empirical Guidance from Meta-analytic Research
on Predictive Factors 51
Incorporate the Strength/Resiliency Perspective 51
Incorporate Gender-Responsive Risk and Need Factors 51
Dynamic vs. Static Items in COMPAS Risk Assessments 51
Built-In Data Validity Tests and Error-Checking 51
Flexible Access to External “In-Depth” Diagnostic Assessments 51
Advanced Analytical Methods for Risk Prediction 52
Multiple Dependent Criterion Variables 52
Systematic Re-validation and Calibration to Accommodate Offender
Population Changes 52
Ease of Use and Efficiency 52
Scalability—Agency Control Over Data Needs and Staff Workloads for Specific
Processing Decisions 53
Integrated Database and Seamless Links from Risk/Needs Assessment to Case
Management, Treatment Goals, Treatments Provided, and Outcomes 53
Generalizability of Predictive Accuracy Across Regions, Agencies, and Racial/Gender
Categories 53
Versions of COMPAS 53
Youth COMPAS 53
Reentry COMPAS 54
Women’s COMPAS 54
Norming or Standardization Samples 54
Settings for COMPAS Assessments (Pretrial, Community Corrections, Prison/Jail) 55
Web-based Implementation of Assessments and Subsequent Treatment
and Outcome Data 55
Predictive and Needs/Explanatory Scales 55
Additional Risk Models for Other Criminal Justice Criterion Outcomes 56
Measures of Predictive Accuracy 56
Independent Validation Studies by External Researchers, from Diverse
Geographical Areas 56
Follow-up Data and Time Frames 56
Internal Classification for Jails/Prisons for Offender Management and Responsivity 56
Theoretical Foundations of COMPAS 57
Social Learning Theory 57
The General Theory of Crime 57
Strain Theory/Social Marginalization 57

4 The Federal Post-Conviction Risk Assessment Instrument: A Tool for Predicting Recidivism for Offenders on Federal Supervision 77
Thomas H. Cohen, Christopher T. Lowenkamp, and Charles Robinson
Introduction 77
Overview of Risk Assessment Tools 79
History of Actuarial Instruments in the Federal Probation System 79
Development and Implementation of the Federal Post Conviction Risk Assessment Instrument 81
Administration and Scoring of the PCRA 82
  Officer Section of the PCRA 82
  Handling Scoring Omissions and Missing Data 83
  Offender Section of the PCRA 84
  Highlighting Addressable Criminogenic Needs 84
  The Role of Supervision Overrides in the PCRA’s Risk Assessment Mechanism 85
  The PCRA Assessment and Reassessment Policy 85
Overview of Research Using the PCRA 86
  Revalidation of the PCRA’s Predictive Validity 86
  Investigating the PCRA’s Dynamic Characteristics 88
  Studies Investigating the PCRA for Race/Gender Bias 92
  Evaluating the Predictive Value of the PICTS Criminal Thinking Styles 92
  The PCRA and Special Offender Populations 93
  Studies Using the PCRA to Investigate Supervision Overrides, Implementation of the Low-Risk Policy, the Presence of Responsivity Issues, and Convergence of Long-Term Recidivism Rates Across Risk Levels 94
  PCRA 2.0 and the Future of the PCRA 96
Conclusion 97

Part IV Conclusion 269

14 Risk Assessment: Where Do We Go From Here? 271
Faye S. Taxman
What Are Major Issues Affecting the Development and Evaluation of Risk Assessment Tools? 272
Do Risk Assessment Tools Accurately Identify the Probability of Recidivism (Predictive Validity)? 273
Do the Risk Assessment Instruments Differentiate Between Those in the Justice System and Those That Are not in the Justice System? 275
Are the Methods to Score Items and Categorize Risk Appropriate? 275
Are Instruments Neutral on Race, Gender, and Other Key Demographic Issues? 277
Do the Domains on the Risk Assessment Instruments Have Construct and Content Validity? 278
How to Implement Risk Assessment Instruments so They Are Useful in Practice Including Case Planning, Resource Allocation, Treatment Referral or Placement, and Clinical Progress? 280
Conclusion 281
References 282
