Index

Note: Page references in bold refer to entries in the Glossary

ABC Hamilton Depression Scale 84, 222–5, 131
ADAS (Alzheimer's Disease Assessment Scale) 59
alcohol 69
Allerup, Peter 37, 108
allostasis 85, 88, 109
alprazolam 71
Alzheimer’s Disease Assessment Scale (ADAS) 59
AMDP (Arbeits-Gemeinschaft für Methodik und Dokumentation in den Psychiatrie) system 104
American College of Neuropsychopharmacology (ACNP) 106
amitryptyline 105
Andersen, A.F. 34
Andreasen, Nancy 5
Angst, Jules 104
antianxiety medication 69–72
antidementia medication 59–60, 93
antidepressants 36, 56, 57, 66–9
  combination of 72–3
  tricyclics 66, 106
antimanic medication 65–6
antipsychotic medication 60–4, 66
anxiety 18

Anxiety Symptom Scale (ASS) 86, 92, 93–4, 160
applied mathematics 102
Arbeits-Gemeinschaft für Methodik und Dokumentation in den Psychiatrie (AMDP) system 104
Bacharach, V.R. 30, 31
Bech-Rafaelsen Mania Scale (see MAS)
Bech-Rafaelsen Melancholia Scale (see MES)
Beck Depression Inventory (BDI) 87, 116
BDI version 6 146–7
Beck’s cognitive model of depression 86, 87
Bental, R.P. 65
Bentham, Jeremy 75
benzodiazepines 69, 70, 71
Bernstein, I. R. 26
beta-blocker 70
between-groups analysis 107
bi-directional factor 13–15
Big Five model 18
Big Two model 18
Binet, Alfred 24, 26
bipolar affective disorder 63, 65, 104
bipolar factor 12, 13
Bolwig TG 52
Boring, Edwin 108
Borsboom, D. 37, 38
brain research 3–4
Brief Psychiatric Rating Scale (BPRS) 24–6, 27, 28, 44, 46, 47, 50, 52, 61, 107–8, 165–6
British Association for Psychopharmacology (BAP) 106
buspirone 73

Cade, John 65
Calvinism (pharmacological) 109
Cattell, R.B. 13, 56
ceiling items 35, 36, 39
Centre for Epidemiologic Studies Depression Scale (CES-D) 92
Chi-Squared Test 38
chloral hydrate 8
chlorpromazine 20, 23, 27, 46, 60, 107
Chomsky, Noam 86
citalopram 67, 68, 73
classical psychometric procedures 40–1
Clinical Global Impression Scale, Severity (CGI-S) 50
Clinical Interview for Depression (CID) 45, 105
Clinical Interview for Depression and Related Syndromes (CIDRS) 44, 45, 170–5
clinimetrics 1, 23, 30, 86, 109
clonazepam 71
coefficient of homogeneity
Loevinger 20, 40, 108
Mokken 61, 64, 85
coefficient of reliability 27
Cohen, Jacob 50–2, 55, 85
Collegium Internationale Neuro-Psychopharmacologicum (CINP) 106
compliance 81, 109–10
Comrey, A.L. 26
ccontra-phobic reaction 47
Copenhagen lecture (Hamilton) 117–21
correlation coefficient 11, 26, 110
correlation matrix 13
cortisol 85–6, 88
critical monism 6, 38
Cronbach’s alpha 26, 30–1, 50, 82, 92, 96
cross-over analysis 107
Cushing, H.W. 86
Cushing’s Disease 86
Darwin, Charles 32
Davidson, Donald 38
Dein, Erling 9, 48, 52
Delay, J. 23
depression 3, 34–5, 47
subtypes 98
unipolar 104
depression ruler 48, 49
Derogatis L.R.108
desvenlafaxine 68, 69
Diagnostic and Statistical Manual of Mental Disorders (DSM)
27, 48
DSM-I 27
DSM-III 28, 29, 43, 82
DSM-IV 27–31, 32, 43, 84–5, 89, 108
DSM-V 29
diazepam 69–70, 71, 72
donepezil 59–60
dose-response relationship 53, 57, 68
dual factor 12, 13, 23
Early Clinical Drug Evaluation (ECDEU) manual (Guy) 106
effect size 50–2, 53–6
in pharmacopsychometric triangle 56–7
extrapyradminal symptoms (EPS) 61
extraversion/introversion 16
Index

Eysenck, Hans 1, 15–19, 20, 27, 81
   Extraversion scale 18
   Personality scale 95
   Personality Questionnaire (EPQ) 16, 18, 104
   Neuroticism scale 16, 17, 18, 19, 88

factor analysis 10–12, 14, 24, 26, 29, 31, 49, 95–7, 102, 110, 179
   British vs American 12–13
   vs item response theory (IRT) analysis 39–42
   personality questionnaires and rating scales and 15–20
   family resemblances 102
