INDEX

A
Ability grouping, 114
Abrams, J., 127, 128–129, 139
Accountability: in effective organizational structures, 79; of teachers, 53
ACT, 88
Active learning: change from traditional to, 122; motivation and, 120; student-led, 150–152
Adams, B., 52, 64, 150–152, 231, 239, 240
Adaptability: description of, xviii; diversity and, 213; in ecosystems, 211, 215, 220
Adaptive learning, 114–115
Administrators: distributed authority model and, 68–69; in effective organizational structures, 79; evaluation of, 25; in network/team structure, 71; tasks of, 79; in traditional organizational structure, 64–65, 68
Advanced Placement programs, 58, 123
Agility, 67–70
Agrarian-driven calendar, 11
Aguinis, H., 256–257
Albemarle County Schools, 19, 106–108, 167
Alexandria Country Day School, 173
Alvar, C., 55–56
Amygdala, 171
Analysis paralysis, 140
Anchors, 252–253
Anderson, J., 141–143
AP scores, 88
Armageddon (Uris), xi–xii
Art classes, 144–145
Asheville School, 124–125, 176
Assembly-line model of education, xviii–xix, 106; control of, 201–202; decision making in, 94–95; description of, 196–197; versus ecosystem model of education, 181; efficiency and, 198–199; main structures of, 218; manageability of, 201–202; measure of, 202–204; problem with, 197–198; repeatability of, 205–206; scalability of, 204–205; simplicity and, 200; teachers’ attachment to, 252–253; upgrading of, 206–207
Assets, 187, 234
Attention spans, 84, 137, 171–172
Attribution errors, 74
Authority, distributed: in automaking industry, 94–95; for decision making, 94–96; in ecosystem model of education, 214; of networks and teams, 70–74; in organizational structure, 64–70; rate of change and, 78; for student-led learning, 152
Automakers, 94–95
Autonomy: importance of, 65–66; in organizational structure, 65, 79
Autumn, 103–104, 247

B
Barstow School, 140–141
Bassett, P., 2
Baylor School, 141–143
Beatrice Gillmore Elementary, 91
Bejan, A., 189–191, 233
Bell curve, 256–257
Berkeley-Carroll School (BC): communication at, 57–58; content area instruction at, 123–126; replacing AP courses at, 58, 123
Berkun, S., 31
Berlin airlift, xi–xii
Bias, 74, 239
Big Ideas Fest, 154
Biosphere, 212
Blank, S., 88
Blended hybrid schools, 93, 140–141
Blogging, 107
Bloom's taxonomy, 108–109
Board of Denver Public Schools, 19
Boston University, 29
Brady, R., 174
Brain research, 85–86, 171, 172
Brainstorming, 239
Brecknock Elementary School, 17, 105, 110–111
Bridge metaphor, 61–62
Bureaucracies, 200, 214
Burlington County Institute of Technology, 91
Burnout, 67
Burns, L., 112–113
Bypassing traditional systems, 234

C
CA. See Colorado Academy
Calculators, 28
California public schools, 114–115
Cantwell, M., 153–154
Capital risk, 3
Capitalism, 185–188, 197
Car troubles, 7, 227–228
Careers, preparing for, 131
Carney, I., 108–109
Carter, K., 38
Catholic Marymount School, 55–56
Center for Creative Leadership (CCL), 39
Center for Mindfulness, 171
Center for Transformative Teaching and Learning (CTTL), 85–86
Centering time, 173
Change: adopting willingness to, 79; difficulties associated with, xi, 3–5, 253–254; to education's goals, xv–xvi; educators’ conservative approach to, 5, 192–193; effects of, 80; fear of, 24–26, 52, 54; formulaic approaches to, 223; frequency of, 254; hiring people comfortable with, 31; intentional approach to, 250–251; leadership's role in, xx–xxi; messy nature of, 80–81; as obstacle to innovation, 3; in private versus public schools, xxi; rate of, 49–50, 76–78, 81, 205, 210; related to knowledge, xiv, xv–xvi; requirements for fundamental, 223–224; rhythm of, 255–256; to school schedules, 10; sustaining, 50–52; uncomfortable nature of, xii, 3; upcoming, 257–258; willingness to, 87–88
Change, adapting to: changing perspectives for, 122; common characteristics of, 118–120; content area instruction and, 123–126; improvised learning for, 120–121; interests versus standards and, 126–129; technology and, 129–130
Change or Die (Deutschman), 24
Change, resistance to: benefits of overcoming, 24; growth mindset and, 24–26; pushing through, 12–13
Change vectors, 4
Charlotte Latin School, 169–170
Charter schools: allocation of resources in, 217; change in, versus public schools, xxi; control of, 202; efficiency of, 199; increase in, 93
Chief innovation/imagination officers, 71
China, 197
Choice schools, 57
Choice time, 15
Choices: importance of, 76; risk taking and, 76; value proposition and, 92–93
Christ, B., 69–70
Christ Church Episcopal School, 149, 173
Christensen, C., 186
Ciabatinni, S., 17, 111
City University of New York, 258
CK–12 Foundation, 160–161
Clarke, B., 58
Class schedules, xvii
Class sizes, 110, 114
Clifford, S., 49
Climate change, 183–184, 211
Cognitosphere, 190–191, 216
Collaboration: to blend content and skills, 110–111; in ecosystem model of education, 211–212; to teach content areas, 124; technology for, 90–91; time for, 16–18
College acceptance, 87–88, 128, 253, 258
College Board, 88
College (Delbanco), 258
College preparation, 94
College School, 20; hiring teachers at, 34–35; learning in the community at, 138–139
Collegiate School: idea walls at, 149; international studies at, 145–146; professional development at, 36–37
Colorado Academy (CA): description of, 53; design thinking at, 156–157; maker movement at, 158; risk taking at, 53–54; use of experts at, 96
Committees: description of, 71; examples of, 71–72; inertia and, 88–89
Common Core State Standards, 76, 126, 203
Communication: of leadership, 56–58; of vision, 92
Communism, 197
Community involvement/learning: to adapt to change, 119; benefits of, 90, 136; creating time for, 15; in design thinking, 153–155; in ecosystem model of education, 216–217; examples of, 136–139; to “hack” education, 130; poverty and, 141–142; versus traditional school learning, 134–136; in traditional school structures, 90
Compassion, 169
Competency-based learning, 37–38
Competition, 192, 202
Conferences, professional, 19
Consensus, 5
Conservatism, 5, 192–193
Constructal law, 189–191
Consumer capitalism, 185–188
Consumer demand, 184, 187
Content areas: adapting to change and, 123–126; blending skills and content in, 110–111, 127–128; creational thinking and, 150; differentiated instruction in, 124; hiring teachers versed in, 33; student-led learning in, 158–159; student-led learning in, 150–152; textbooks for, 159–162
Content creation, 159–162
Content-driven education, xv
Continuous improvement, 32
Control, 192, 201–202
Coral reefs, 212, 215
Corn industry, 183
Courage, of leadership, 45
Cowan, M., 172
Crandall, D., 53
“Creating Value in the Age of Distributed Capitalism” (Zuboff), 185
Creational thinking, 149–150
Creative Confidence (Kelley and Kelley), 153
Creativity: description of, xviii; design thinking and, 152–157; as goal of learning, 149; goals of, 153; as hiring criteria, 33, 35; idea walls and, 149; importance of, 148–149; maker movement and, 157–159; resulting in value, 4; risk taking and, 54; student-led learning and, 150–152; students’ propensity for, 162; textbooks and, 159–162
Cross Bronx Expressway, 117
CTTL. See Center for Transformative Teaching and Learning
Culture, 39; diversity of, 212–213; international studies and, 145–146; organizational structure in, 78; in poverty schools, 44; in small versus large organizations, 67–68; willingness to change in, 79
Curiosity, 152
Curriculum: to adapt to change, 119; at Albemarle schools, 106–108; at Berkeley-Carroll School, 123; in Institute for 21st Century Education programs, 69; in mindfulness, 175; molding time and, 15–16; repurposing of, 106–108; at Sabot at Stony Point, 108–110; for sustainable change, 51–52; teacher-created, 159–160
Cushing Academy, 149

Decision making: bureaucracies in, 200; in effective organizational structures, 79; teachers’ fear of, 94–96; in traditional organizational structures, 94–95; using experts for, 95–96
Delbanco, A., 258
Demand side, of innovation, 79, 231
Democratic decision making, 5
Denver Green School (DGS): communication at, 57; description of, 19–20, 66–67, 222; distributed authority at, 66–67
Denver Innovative Schools program, 67
Deserts, 165–166
Design in Nature (Bejan and Zane), 190
Design Lab school, xii; active learning at, 122; creating content at, 161; description of, 43–44, 122; design thinking at, 153–154; professional development at, 36
Design thinking: defining risk in, 75; description of, 152–153; examples of, 153–157; maker movement and, 157–159; mitigating failure and, 75; online chat about, 153; student conference in, 154–155
Design 39 Campus: choices at, 76; description of, 222; differentiated learning at, 114–115; idea walls at, 149; sustainable change at, 50–51
Design 2015 plan, 106–107
Desire to learn, 29–30
Deutschman, A., 24
Dewey, J., 25, 106, 115–116, 249, 259
DGS. See Denver Green School
Differentiated learning: in content areas, 124; examples, 112–114; technology and, 112, 114
Dillon, B., 34, 137
Dissonance, 230
Distributed capitalism, 185–187
Distributed learning, 234
Distributed logic, 185
Diversity: in ecosystems, 212, 214–215; in schools, 56–57
Downs, T., 50
Drag, 199

D
Daily routines: at Denver Green School, 20; lack of reflection in, 166–167; as marked by time, 8; molding time in, to meet educational purpose, 15–16; reimagining, 11–13
Dams, 253
Data analysis, 33
Davis, M., 53–54, 96
Davis, S., 252
deBardelaben, T., 144–145
Droke, S., 112–113
Drucker, P., 39
d.school, 112
Dunn, A., 26
Dweck, C., 32
Dynamism, xvii

Economics, 197
Ecosystem model of education,
   xviii–xix, 101; versus assembly-line
   model, 181, 182; assessment of,
   219–220; collaboration in, 211–212;
   community in, 146, 216–217;
   distributed authority in, 214; diversity
   in, 212–213; energy and resource flow
   in, 217–218; examples of, 221–222;
   interconnectedness in, 213–214; main
   structures of, 218–219; permeability
   of, 216–217
Ecosystems, 224; adaptability in, 215,
   220; definition of, 210; diversity
   in, 212–213; energy in, 217–218;
   evolution and, 211–212, 225;
   interconnectedness in, 213–214;
   permeability of, 215–217; rate
   of change and, 210; resilience in,
   214–215; structures in, 218–219
EdCamps, 91
Education: goals of, xv–xvi; historical
   changes in, 204; mission of, 210;
   models of, xviii–xix; problem with,
   198; recent discussions of “good,”
   xix–xx
Efficiency, 198–199
Electives: in place of Advanced
   Placement courses, 123; time as,
   13–14
Elementary schools, 87–88
Elias, A., 169–170
Emerging Leaders Conference, 145
Empathy, 34, 153, 167–170
Energy, 217–218
English classes, 124, 161
Enrichment programs, 11
Environmental changes, 183–184
Environmental sustainability, 138, 159
Episcopal Academy, 28
European Studies classes, 125
Evans, K., 36
Evolution, 211–212, 225
Executive functions, 172
Expeditionary schools, 136–138
Experiential learning: and change in
   schedules, 12; examples of, 136–139;
   poverty and, 141; risk taking for, 146
Experts, 95–96
Explaining concepts, 205–206
External networks, 4
Extinct species, 211

F
Fads, in education, 26
Failure: avoidance of, 5; blame for, 74;
   design thinking and, 75; downside of,
   52–53; fear of, 52; feedback about, 75,
   80; learning from, 28–29; mitigating,
   75; promoting risk taking and, 54–55;
   result of systemwide, 223; rewards for,
   25; risk tolerance profile and, 75–76
