ABC analysis, 329–30
ABC(D) classification, 262–3, 264, 266–7, 268
abuse see maltreatment
acute stress disorder, 128–9
adjustment disorder, 70, 129
adolescence, 187
cognitive development, 189
epidemiology of psychiatric disorders, 190, 191, 193, 200, 202, 204
identity problems, 189–90
interaction of biological and social influences, 188–9
rules v. autonomy, 188
stresses, 190
adoption, 362–3
selecting adoptive parents, 368–9
work with adoptive parents, 366–7
adoption studies, 39, 60, 72, 82, 103, 234, 271–8
Adult Attachment Interview (AAI), 265, 266, 268, 360
adversity and stressors, 282–91
clinical implications, 287–8
protective factors, 286–9
types, 282–7
aetiology, 39–40
age of onset, 34, 38, 39
aggressive behaviour, 188, 293, 338
treatment with cognitive therapy, 338
in various disorders, 49, 54, 58, 65, 73, 77, 83, 219
alcohol abuse, 204, 208
anorexia nervosa, 4, 199–202
antidepressants, 62–3, 93, 156, 169, 305, 322–3
antiepileptic medications, 53, 241, 242
as psychotropics, 113, 324–5
antihistamines, 170, 325
antimuscarinic drugs, 323–4
antipsychotics, 76, 139, 196, 197, 323–4
antisocial personality disorder (ASPD), 84

anxiety disorders
causation, 95–6
classification, 27, 28
comorbidity, 34, 37
prevalence, 33, 37, 95, 98, 99
prognosis, 96
treatment, 97, 98–9, 100, 338
varieties, 97–100
see also generalised anxiety disorder; phobias; separation anxiety disorder; social anxiety disorder
antiprazole, 54, 76
Asperger syndrome, 47–8
assessment, 3–21
ADHD, 42
autism, 49
disruptive behavioural disorders, 74–5
formulation following, 20–1
intellectual disability, 232–3
juvenile delinquency, 84–6
key questions
family's explanatory model, 3, 11–12
impact of problem, 3, 8
risk factors, 3, 8–10
strengths, 3, 10–11
symptoms, 3, 4–8
maltreatment, 16, 221–3
self-harm/suicidal intent, 119–20
techniques
history-taking, 13–15
interviewing, 13–14, 15–16
neurological examination, 18–20
observations, 15, 16–17, 75
physical examination, 10, 18–20
psychological examination, 10
psychometric assessment, 10
association, 271–2
atomoxetine, 62, 139, 322
attachment disorders, 145–50
and insecure attachment, 147
varieties, 145–6
attachment theory, 259–61
