## Contents

List of Contributors, ix  
Special Recognition, xiii  
Foreword, xv  
Preface, xvii

### Section 1: Introduction

1. Introduction to Free Radicals, Inflammation, and Recycling, 3  
   *Donald Armstrong*

2. Diagnostic Imaging and Differential Diagnosis, 11  
   *Robert D. Stratton*

### Section 2: Clinical Correlations on Acute and Chronic Diseases

3. Free Radicals: Their Role in Brain Function and Dysfunction, 23  
   *Natan Gadot*

4. Mediators of Neuroinflammation, 39  
   *Rajiv Tikamdas, Ping Zhang, and Bin Liu*

5. Oxidative and Nitrative Stress in Schizophrenia, 57  
   *Anna Dietrich-Muszalska*

6. The Effects of Hypoxia, Hyperoxia, and Oxygen Fluctuations on Oxidative Signaling in the Preterm Infant and on Retinopathy of Prematurity, 77  
   *M. Elizabeth Hartnett*

7. Oxidative Damage in the Retina, 93  
   *Robert D. Stratton*

8. The Role of Oxidative Stress in Hearing Loss, 115  
   *Colleen G. Le Prell and Josef M. Miller*

9. Disorders of Children, 133  
   *Hirokazu Tsukahara and Masato Yashiro*

    *Maurizio Battino, Maria Greabu and Bogdan Calenic*

11. Oxidative Stress and the Skin, 167  
    *Christina L. Mitchell*
Contents

12 Oxidative Stress in Osteoarticular Diseases, 183
   María José Alcaraz, Sergio Portal-Núñez, Juan A. Ardura and Pedro Esbrit

13 Gene Therapy to Reduce Joint Inflammation in Horses, 193
   Patrick Colahan, Rachael Watson, and Steve Ghivizzani

14 Muscle and Oxidative Stress, 205
   Reza Ghiasvand and Mitra Hariri

15 Role of Oxidants and Antioxidants in Male Reproduction, 221
   Ashok Agarwal, Hanna Tadros, Aaron Panicker and Eva Tvrdá

16 Role of Oxidants and Antioxidants in Female Reproduction, 253
   Ashok Agarwal, Hanna Tadros and Eva Tvrdá

17 Reactive Oxygen Species, Oxidative Stress, and Cardiovascular Diseases, 281
   Fatemeh Sharifpanah and Heinrich Sauer

18 Oxidative Stress and Antioxidant Imbalance: Respiratory Disorders, 307
   Surinder K. Jindal

19 Oxidative Stress and Type 1 Diabetes, 319
   Chao Liu, Clayton E. Mathews, and Jing Chen

20 Metabolic Syndrome, Inflammation, and Reactive Oxygen Species in
   Children and Adults, 329
   William E. Winter and Janet H. Silverstein

21 Oxidative Stress in Chronic Pancreatitis, 339
   Shweta Singh and Bechan Sharma

22 Wound Healing and Hyperbaric Oxygen Therapy Physiology: Oxidative
   Damage and Antioxidant Imbalance, 347
   James R. Wilcox and D. Scott Covington

23 Radiobiology and Radiotherapy, 357
   Justin Wray and Judith Lightsey

24 Chemotherapy-Mediated Pain and Peripheral Neuropathy: Impact of
   Oxidative Stress and Inflammation, 367
   Hassan A.N. El-Fawal, Robert Rembisz, Ryyan Alobaidi, and Shaker A. Mousa

25 Grape Polyphenol-rich Products with Antioxidant and Anti-inflammatory
   Properties, 389
   Eduarda Fernandes, Marisa Freitas, Renan C. Chisté, Elena Falqué, and Herminia
   Domínguez

26 Isotonic Oligomeric Proanthocyanidins, 403
   Hanbo Hu and Donald Armstrong

27 Superoxide Dismutase Mimics and Other Redox-active Therapeutics, 415
   Ines Batinic-Haberle and Artak Tovmasyan

28 Herbal Medicine: Past, Present, and Future with Emphasis on the Use
   of Some Common Species, 471
   Aneela Afzal and Mohammad Afzal

29 Ayurvedic Perspective on Oxidative Stress Management, 483
   Priyanka M. Jadhav
30 Clinical Trials and Antioxidant Outcomes, 493
Carlos Palacio and Arshag D. Mooradian

31 Statistical Approaches to Make Decisions in Clinical Experiments, 507
Albert Vexler and Xiwei Chen

Index, 561
