About the Authors  xiii

About the Contributors   xv

Chapter 1 Introduction   1

Purpose of This Book   1
The Organization and Approaches Used for This Book   2
Grant Writing and Program Evaluation: Outcomes and Evidence   4
   Grant Proposal and Performance Measures   4
   Evidence-Based Practice   5
Defining Program and Program Planning   6
   What Is a Program?   6
   What Is Program Planning?   7
The Ethics and Secret Handshake of Grant Writing and Program Evaluation   7

Chapter 2 Community and Target Population, Service Providers, and Funding Sources   11

The Good Idea Program   12
What Is a Community?   13
Macro Practice, Grant Writing, and Program Evaluations   14
Target Populations and Needs   15
Service Providers   17
Professional Insight 2.1: Agency Administrator to Get Support for Service Projects   19
Funding Sources   21
   Government   22
Chapter 3 Basic Research Methods and Program Evaluation  31

Program Evaluation: A Practice of Social Research  32
Research Question  33
  Developing a Research Question  33
  Ethical Considerations  34
Research Designs  38
  Qualitative and Quantitative Research  38
  Inductive and Deductive Learning  39
Four Major Types of Research Designs  40
  Exploratory Designs  40
  Descriptive Designs  41
  Experimental Designs  43
  Evaluative Research Design  46
  A Mixed Approach  47
Validity and Reliability  47
  Validity  49
  Internal and External Validity  51
  Reliability  52
The Relationship between Validity and Reliability  53
  Causation and Correlation  53
  Correlation and Association  55
Sampling  56
  Probability Sampling (Random Sampling)  57
  Nonprobability Sampling (Nonrandom Sampling)  59
  Sample Size: How Many Is Needed?  60
Data Collection and Instruments  61
Data Analysis  63
  Four Levels of Measurement  63
  Dependent and Independent Variables  67
Statistics  68

Chapter 4 Program Planning and Evaluation  73

Needs Assessment  74
  Define Needs Assessment  75
  Needs Assessment and Program Evaluation  75
Chapter 5  Grant Proposal Writing: Beginning with the End in Mind  99

Grant and Contract  100
Request for Proposal, Request for Application, and Program Announcement  101
Letter of Intent/Letter of Inquiry  105
Getting Ready, Logic Model, and Program Planning and Evaluation Worksheet  105
Key Components of a Grant Proposal  107
  Abstract: Write Last, Read First, Most Frequently Used  109
  Table of Contents: A Roadmap for Your Proposal  110
  Specific Aims: A Summary of Purpose and Results  111
  Target Population: To Whom It May Concern  117
  Agency Capacities and Project Management: The Service Providers and Program Management  124
  Budget and Budget Justifications: Program Plan in Dollars and Cents  128
  Evaluation Plan: Tell the Stories—Successes and Challenges  134
Proposal Reviews  134
Professional Insight 5.1: A Reviewer’s Perspective on Preparing Proposals  136

Chapter 6  Program Evaluation  139

The Level of Rigor  140
Outcome-Focused Evaluation  142
Empowerment Evaluation  142
Outcome-Focused Empowerment Evaluation  143
  Indicators  143
  Data Source  144
  Instrument Type and Method of Evaluation  145
  Bringing Together the Indicator, Data Source, and Instrument Type  148
Evaluation Section of a Proposal  148
  Evaluation Questions  149
  Methodology  149
Chapter 7 Learning by Doing: Exercises, Templates, Samples, Checklists, and Training Ideas 169

Chapter 8 Real-Life Samples 219

Chapter 9 Application of Information Technology 247
