thoracolumbar lateral corpectomy 200, 201
spinal stabilization procedures
atlantoaxial subluxation 143–146
degenerative lumbosacral stenosis 229, 230
implants used 11–18
instrumentation 9, 10
vertebral fractures/luxations 209, 211–213
see also cervical distraction and stabilization
spinal stapling, fractures/luxations 216–217, 217–218
spinal surgery
advanced imaging 71–82
exercise restriction after 254–255
indications 59
minimum database 59–68
spinal trauma see vertebral fractures/luxations
spleen muscle 165, 165
splinting, atlantoaxial subluxation 143, 144
spondylosis deformans 223–224
standing exercise 260–261
stapling, spinal fractures/luxations 216–217,
217–218
Steinmann pins 11, 11
cervical stabilization 175, 176
stapling of spinal injuries 216–217, 217–218
stereotactic brain biopsy 48–50
sternocephalicus muscle 158, 158
sternohyoideus muscle 158, 158
String of Pearls™ (SOP) plate system 18, 18
stroke 39–43
subarachnoid cyst 78, 78
subarachnoid diverticulum 116
subarachnoid hematoma 39, 43
subarachnoid space
air bubbles 72
attenuation 75, 76, 78, 79
deformation 76, 77, 77
focal dilatation 78, 78
imaging 72, 76, 77
injection of contrast medium 71, 72, 73, 73
lumbar tap 86, 88
subcutaneous tunneling, shunt surgery 132, 132, 133
subdural hematoma 34, 39
suboccipital craniectomy 115–120
indications 115, 115–117
patient positioning 115–116, 117
quadrigeminal diverticula 115, 116, 118,
135–136
surgical anatomy 115, 117
surgical technique 116–120, 117–119
sucralfate 248
suction, intraoperative 7, 8
superficial digital flexor muscle biopsy 96, 96
supraspinous ligament 86
swimming pool exercises 263–264
tapping
bone hole 14, 14
to stimulate reflexes 260, 260
temperature, intraoperative control 12, 14
temporalis muscle/fascia
lateral rostroventral approach 110, 112, 114
skull tumor resection 123, 123, 124, 125
tenotomy scissors 9, 10
thermal injury 12, 14
thermotherapy 258
thoracic computed tomography (CT) 65, 66
thoracic radiographs
intracranial surgery 22, 24, 24, 25, 25–26
spinal surgery 59, 65, 65, 66, 67
three-view 65, 67
thoracolumbar disc fenestration 193–197
complications 196, 196–197, 197
dorsal approach 194
dorsolateral approach 194
lateral approach 193–194, 193–194
with pediculectomy/mini-hemilaminectomy 188
postoperative care 197
preparation/positioning 193
surgical procedure 194–196, 195–196

thoracolumbar disc herniation
dorsal laminectomy 183
hemilaminectomy 180, 181, 181, 199
lateral corpectomy 199–203
pediculectomy/mini-hemilaminectomy 183–188

thoracolumbar fractures/luxations 213–217
bicortical pin and PMMA fixation 214–215, 215–216
decompression techniques 209
external skeletal fixation 215
implant selection 213–214
plate fixation 215, 217
positioning and approach 213
reduction 214
spinal stapling 216–217, 217–218
thoracolumbar hemilaminectomy 179–182
bilateral 181
indications 179
surgical approach 179–180, 179–180
surgical procedure 180–181, 180–182
traumatic injuries 209
vs lateral corpectomy 199
thoracolumbar lateral corpectomy (TLLC) 199–203
combined with other techniques 202
complications 202–203
instrumentation 200
minimally invasive 202
multiple consecutive 202
results 202–203
surgical approaches 199–200
surgical technique 200–202, 200–202
thoracolumbar myelopathies, CSF analysis 90
thoracolumbar pediculectomy/mini-hemilaminectomy see pediculectomy/mini-hemilaminectomy
thoracotomy, intercostal 199–200
3M craniotome 6, 7
three-compartment concept, vertebral column 209, 210
three-dimensional printed models
aiding skull reconstruction 127, 127
planning skull tumor resection 121, 122
