About This Book vii
About the Authors ix
Acknowledgments xi
Foreword xiii

Part One: Being Successful in the Inclusive Classroom

Chapter 1: Collaborating Effectively 3
  Collaborating for Intervention 3
  Collaborating with the Child Study Team 4
  Collaborating with Parents and Families 13
  Tips for Talking with Parents 16

Chapter 2: Preparing for Differentiated Learning 17
  Working with Core Curriculum Standards 17
  Assessing Learning Styles 18
  Multiple Intelligences and Learning Strengths 20
  Planning for Students with Special Needs 21

Chapter 3: Effective Teaching Strategies for Differentiating Instruction 25
  The Effective Inclusive Classroom 26
  Measuring Success 28

Part Two: Math Activities for the Inclusive Middle School Classroom

Chapter 4: Numbers and Operations 33
  Activity 1: Place Value 34
  Activity 2: Comparing and Ordering Whole Numbers 40
  Activity 3: Properties of Numbers 44
Activity 4: Multiples  49  
Activity 5: The Least Common Multiple  55  
Activity 6: Factoring, Greatest Common Factor, and Prime and Composite Numbers  59  
Activity 7: Fractions  64  
Activity 8: Percentages and Decimals  70  

Chapter 5: Algebra and Functions  75  
Activity 1: Absolute Value  76  
Activity 2: Adding Integers  81  
Activity 3: Subtracting Integers  87  
Activity 4: Multiplying Integers  92  
Activity 5: Dividing Integers  96  
Activity 6: Plotting Points on a Coordinate Plane  101  
Activity 7: Integers and Exponents  107  
Activity 8: Rates  111  

Chapter 6: Geometry and Measurement  117  
Activity 1: Types of Lines and Angles  118  
Activity 2: Basic Geometric Shapes  123  
Activity 3: Triangles and the Pythagorean Theorem  128  
Activity 4: Area and Perimeter of Quadrilaterals and Triangles  133  
Activity 5: Properties of Circles  139  
Activity 6: Polyhedrons  144  
Activity 7: Surface Area of Prisms  155  

Chapter 7: Data Analysis and Probability  161  
Activity 1: Finding the Mean  162  
Activity 2: Finding the Median and Mode  165  
Activity 3: Circle and Bar Graphs  170  
Activity 4: Line and Picture Graphs  175  
Activity 5: Investigating Probability  180  

Chapter 8: Problem Solving and Reasoning  187  
Activity 1: A Problem-Solving Plan  188  
Activity 2: Solving Word Problems Using Estimation  194  
Activity 3: Solving Word Problems Through Logic  199
