INDEX

29 CFR 1910.119 (OSHA’s PSM Standard)............................ 54, 61
Accident
Bhopal........................li, 5, 6, 13, 224
Explosion, Dust...................... 237
Explosions, Dust.................... 231
Explosions, Vapor Cloud........... 106, 268, 269
Runaway chemical reaction ... 231
Accident Prevention Pillar........ 52
Acquisitions ................................. 52
Acquisitions ........................ 177, 186
American Chemistry Council .. 9, 14
American Institute of Chemical
Engineers (AIChE) .......................
........................................v, xlix, li, 5, 115
American National Standards
Institute ..................................... 22
American Petroleum Institute .. 9, 22
American Society for Testing and
Materials ................................. 124
American Society of Mechanical
Engineers ............................... 124
As Low As Reasonably Practicable
(ALARP) ................................ 6, 67
Asset Integrity and Reliability ...... 170, 171, 175, 176, 178, 246
Audit........xiii, xxxix, 21, 31, 59, 250
Benchmarking..... 51, 142, 235, 275
Bradley Curve................. 122
Business Case for Process Safety ....
............................................ 13, 16, 251
Business Management System
(BMS)........................................... viii, lii, 15, 16, 17, 37, 167, 168,
170, 172, 175, 178, 179
Canadian Society for Chemical
Engineers................................. 9
Capital
Expenditure ......................... 169
Project..................................... 62, 63, 105, 109, 181, 230
Causal factor............................. 121, 143, 158, 162, 183, 185
Center for Chemical Process Safety
(CCPS) ...........................................
........................................v, xv, xlii, xlix, li, lii, 3, 5, 6, 7,
8, 13, 14, 15, 16, 21, 22, 42, 50,
51, 52, 53, 63, 66, 67, 70, 76, 87,
96, 99, 118, 128, 130, 131, 132,
134, 135, 164, 165, 166, 172, 177,
178, 189, 190, 241, 242, 243, 244,
245, 246, 248, 249, 250, 267
Checklist................................ 64, 66, 68, 147, 177, 247, 248, 250
Chemical Reactivity Hazard.........
........................................xxx, xxxix, 62, 63, 64
Clean Air Act......................... 10
Communication............................ xxvi, 22, 23, 29, 45, 46, 102, 103,
108, 129, 159, 185, 224, 235, 236,
237, 241, 242, 249, 275
Compliance Audit........ 25, 26, 28, 70
Compliance with Standards........
............................................ xlv, 124, 242
Computerized Maintenance Management. See Mechanical Integrity

Conduct of Operations ...................... 107, 119, 129, 249

Contractor management ...... 15, 246

Contractors ........................................ 1, 43, 44, 45, 46, 127, 149, 168, 171, 176

Control of Major Accident Hazard Regulations ................................ 6

Core value(s) ................ 14, 171, 278

Corrective action ................................ xlii, 22, 23, 26, 29, 30, 70, 94, 95, 97, 112, 133, 143, 182, 249, 275, 279

Culture

Process Safety ................................ 29, 45, 98, 118, 120, 173, 242

Design specification ........................ xlvii, 4, 49, 62, 92, 94, 117

Dow Fire and Explosion Index .. 106

DuPont ......................................... 122

Eli Lilly and Company...................... xi, xli, 1, 12, 95, 127, 142, 223

Emergency Planning and Response .............................................. 229

Emergency Response

Management ......................... 249

Plan ......................................... 243

Team......................................... 276

Employee participation ........... 24, 87

Energy Institute ................................................................. 9, 53, 115, 122, 134

Environmental Protection Agency ........................................ 10, 60

European Union ......................... 10, 53

Facility Siting ....... 26, 27, 105, 106

Failure Modes and Effects Analysis (FMEA) ................................ 238

Fitness for Purpose . lii, 11, 181, 182

Framework(s) .................................................. xlviii, li, 3, 49, 50, 51, 53, 143, 243

Gap Analysis ........................................ 23, 137, 142, 143, 160, 162, 163, 231

Global PSM Regulations ........ 191

Goal(s) ............................................... xxv, 1, 2, 8, 23, 37, 40, 45, 105, 108, 109, 111, 120, 130, 158, 172, 181, 239, 276

Hazard and Operability Analysis (HAZOP) ............................ 5

Hazard Identification and Risk Analysis (HIRA) .................. 109, 127, 244

Hazardous Material ......................... xxv, xxxii, 16, 68, 106, 225, 267

Health and Safety Executive, UK... ........................................ 6, 10, 132, 135

Hot Work Permit ... 34, 60, 141, 152

Human Factors .................. xxix, 52

Imperial Chemical Industries (ICI) ... 5

Implementation Plan.................... 12, 80, 81, 87, 98, 99, 100, 109, 110, 112, 113, 117, 130

Improvement .................................................. xxv, xxxvi, 1, 4, 6, 12, 15, 17, 26, 29, 37, 43, 45, 52, 59, 62, 70, 79,
Test ................................. 77, 279
Piping and Instrumentation Diagram
(P&IDs) ............................ 65, 84
Plan Development .......................... 79
Plan-Do-Check-Adjust (PDCA) ...... xxxvi, 4, 130, 228
Pre-Startup Safety Review (PSSR) ................. xxxvi, 150, 233
Process Flow Diagram ...... 106, 267
Process Hazard Analysis .................. xxxvi, 27, 138
Process Knowledge Management .................. 109, 176, 177, 244
Process Safety Beacon.... 42, 48, 243
Process Safety Competency ........................ 81, 93, 127, 242
Process Safety Information (PSI) .... xxxviii, 34, 59, 60, 145, 227, 229,
233, 238, 244, 248
Process Safety Management (PSM)
Management System .................. xxi, xxvii, xlii, 59, 224
Process Safety Progress ................. 7
ProSmart .................................... 8
RACI (RASCI) chart .................. 89
Recognized and Generally Accepted
Good Engineering Practices
(RAGAGEPs) ........................ xlii, 23, 125, 126, 127, 242, 246
Replacement-in-Kind .................. 184
Resources ........................................
xxii, xxvii, xlii, xlvi, li, lii, 4, 7,
11, 12, 15, 20, 22, 23, 24, 25, 26,
30, 37, 39, 43, 44, 45, 46, 49, 52,
59, 62, 67, 70, 76, 77, 79, 80, 83,
85, 86, 95, 96, 98, 104, 105, 109,
111, 112, 117, 118, 119, 120, 125,
126, 129, 131, 134, 143, 164, 167,
172, 182, 186, 235, 247, 248
Responsible Care (RC 14001) ........
............................. xii, 9, 14, 50, 54, 61
Risk Based Process Safety (RBPS) ..
xv, xlii, lii, 3, 7, 8, 18, 39, 51, 70,
115, 181, 182, 188, 189, 241
Risk Management Program rule
(U.S. EPA) ......................... 10
Risk Matrix ............................... 67
Root Cause Analysis (RCA) ...... xliii,
233, 238, 249
Safe Operating Limits ...... xliii, 245
Safe Work Practices ........................ xliii, 59, 81, 227, 229, 245
Safety Pyramid ............................. 186, 275
Safety System .......................... 21, 39, 188, 275
Safety Triangle ... vii, xiii, 19, 20, 275
Seveso (II, III) Directive .... xv, 6, 61
Stakeholder Outreach .... 119, 128, 243
Subject Matter Expert .... 17, 69, 112
