# Contents

Preface vii  
Acknowledgements xi  
Symbols and abbreviations xii  

1 Development 1  
1.1 Introduction 1  
1.2 The tarpon leptocephalus 1  
1.3 Staging tarpon ontogeny 4  
1.4 Development of Atlantic tarpons 10  
1.5 Development of Pacific tarpons 24  
1.6 Leptocephalus physiology 33  

2 Growth 39  
2.1 Introduction 39  
2.2 The cube law 40  
2.3 Sexually dimorphic growth 41  
2.4 Condition 44  
2.5 Growth rate 49  
2.6 Modeling growth 52  
2.7 Tarpon larvae 58  

3 Spawning 59  
3.1 Introduction 59  
3.2 Fecundity and early survival 59  
3.3 Where tarpons spawn 64  
3.4 When tarpons spawn 68  
3.5 Size and age at maturity – Atlantic tarpons 72  
3.6 Size and age at maturity – Pacific tarpons 78  

4 Recruitment 80  
4.1 Introduction 80  
4.2 Life in the plankton 80  
4.3 Inshore migration 83  
4.4 Offshore migration 85  
4.5 Mechanisms of recruitment 88  
4.6 Factors affecting recruitment 89
## Contents

5 **Breathing and respiration**  
5.1 Introduction 96  
5.2 Water-breathing 97  
5.3 Air-breathing 100  
5.4 Cardiovascular function 108  
5.5 Hypoxia 113  
5.6 Hypercapnia 125  
5.7 Air-breathing as social behavior 126  

6 **Osmo- and ionoregulation** 128  
6.1 Introduction 128  
6.2 Osmo- and ionoregulation 130  
6.3 Ionocytes 132  
6.4 Acid-base regulation 136  
6.5 Ammonia excretion 137  
6.6 Euryhaline transition 141  
6.7 Endocrine factors 144  
6.8 Eggs and larvae 147  

7 **Ecology** 152  
7.1 Introduction 152  
7.2 Habitats 152  
7.3 Predators of tarpons 159  
7.4 Environmental factors affecting survival 162  
7.5 Gregariousness 166  
7.6 Seasonal movements 167  
7.7 Feeding and foods 174  

8 **Fisheries** 186  
8.1 Introduction 186  
8.2 Recreational fisheries 186  
8.3 Handling 190  
8.4 Stress effects 195  
8.5 Commercial fisheries 211  
8.6 Aquaculture 215  
8.7 Populations 219  
8.8 Final note: whom should we save? 224
