INDEX

absolute quantity, 149  
ad hoc hypothesis, 118  
affirming the consequent, 78  
ambiguity, 41  
analogy, 195  
analytic statements, 48  
antecedent, 65  
argument, 69, 75  
sound, 84  
standard format, 70  
valid, 75  
argument map, 95  
auxiliary assumptions, 118

Bayes net, 142  
Bayesian network, 142  
Benjamin Franklin method, 204  
biconditional, 65  
brainstorming, 228

category mistake, 47  
causal diagrams, 141  
causal loop, 135  
causal mechanism, 138  
causation, 133  
cause

structural, 139  
distal, 139  
primary, 139  
proximate, 139  
triggering, 139

cognitive bias, 185  
above-average effect, 190  
agent metaphor, 188  
anchoring, 187  
availability, 186  
belief perseverance, 190  
confirmation bias, 189  
ego, 190  
exposure effect, 186  
framing, 188  
myside bias, 189  
opinion bias, 191  
overconfidence, 190  
recency effect, 187

collection, 69  
condition

necessary, 33  
sufficient, 34

conditional, 64  
conjunction, 63  
consequent, 65
consequentialist reasoning, 168
consistency, 60
contraries, 60
control experiment, 127
conversational implicature, 12
converse, 65
correlation, 133
creativity, 215, 223
decision, 201
  strategic, 203
decision diagrams, 211
decision trees, 211
defeasibility, 90
definition, 21
  persuasive, 27
  precising, 24
  reportive, 22
  stipulative, 24
  by synonym, 27
  circular, 26
  genus-differentia, 28
  ostensive, 28
denying the antecedent, 79
destructive dilemma, 80
disambiguation, 42
disjunction
  exclusive, 63
  inclusive, 63
divine command theory of morality, 162
entailment, 61
equivocation, 42
extension, 22, 26
fallacy, 173
  inappropriate assumption, 175
  conjunction, 250
  etymological, 29
  false dilemma, 176
  gambler’s, 152
  hot hand, 153
  inconsistency, 174
  insufficiency, 178
  irrelevance, 177
  naturalistic, 162
  write-off, 35
fishbone diagram, 142
flowchart, 143
fourfold path to good thinking, 5
gobbledygook, 50
groupthink, 228
harm principle, 167
hypoetical syllogism, 79
induction, 87
inductive strength, 89
inference to the best explanation, 117
intension, 26
invalidating counterexample, 76
linguistic pitfall, 41
Littlewood's law, 154
logical connective, 63
logical consequence, 61
logical equivalence, 62
logical strength, 61
meaning
  distortion of, 45
  empty, 48
  incomplete, 44
  literal, 12
  Mill's methods, 125
  modus ponens, 77, 78
  modus tollens, 78
  moral absolutism, 164
  moral contextualism, 164
  moral principle, 166
negation, 64
normativity, 161
novelty effect, 137
placebo effect, 135
population, 145
possibility, 36
premise, 69
probability, 145
pygmalion effect, 137
random sampling, 147
reductio ad absurdum, 60
regression fallacy, 153
reification, 47
relative quantity, 149
relativism, 54
  moral, 162
right, 168
sample, 145
simplicity, 129
slippery-slope argument, 166
statistics, 145
SWOT analysis, 203
truth, 53
vagueness, 43
weasel word, 45
