Index

Note to the Reader: Throughout this index **boldfaced** page numbers indicate primary discussions of a topic. *Italicized* page numbers indicate illustrations.

### A

**A G D L P strategy**, 407–408, 408
Access Control Entries (ACEs), 373
Access This Computer From The Network right, 493
accessibility settings in Internet Explorer, 564
account events logging, 490
Account Lockout Duration setting, 487
Account Lockout Policy node, 484–487, 486
Account Lockout Threshold setting, 487
Account Policies node, 484–485, 484, 487–488
Accounts: Administrator Account Status right, 494
Accounts: Rename Administrator Account right, 494
ACEs (Access Control Entries), 373
acknowledgments for DHCP leases, 323
Action Center
- overview, 228–230, 229
  - User Account Control, 232–234, 234
Action menu, 40
Action page
  - batch files, 148
  - firewall rules, 509
activation process, 42–43
  - grace period, 43–46, 44
  - KMS, 51–53
  - MAKs, 48–50
  - timing, 46
  - volumes, 47–49, 49
Activation window, 44
active content, 568
Active Directory
  - object permissions, 371
  - recovery, 503–505, 503, 505
Active Directory Domain Services (AD DS)
  - BitLocker recovery data, 502–503, 502
    - components, 394
  - WDS requirements, 88, 91–92
  - Active Directory Recovery Password Viewer Tool, 503–505, 503, 505
  - Active Directory Users and Computers
    - logon hours, 414
    - OUs and containers, 438–439, 438
    - user profiles, 422
AD DS (Active Directory Domain Services)
  - BitLocker recovery data, 502–503, 502
  - components, 394
  - WDS requirements, 88, 91–92
ad hoc networks, 517–519, 518
adapters
  - settings, 344, 531
  - troubleshooting, 351, 351
  - wireless, 247
Add A Local Printer option, 369
Add A Network, Wireless, Or Bluetooth Printer option, 369–370
Add A Virtual Hard Disk page, 37
Add Boot Image option, 97
Add Images To The Windows Deployment Server option, 96
Add New Hardware Wizard, 272
add-ons, Internet Explorer
  - crash detection, 575
  - managing, 573–574
  - troubleshooting, 572–573, 573
/Add-Package switch, 77
Add permission option, 380
Add Printer Wizard, 369–370, 370
Add Roles Wizard, 92, 93
Add Workstations To Domain right, 493
Additional Domain Controller Options page, 400
addresses, IP
  - See IP addresses
Adjust Plan Brightness setting, 245
Admin Approval Mode, 477
Admin Approval Mode For The Built-in Administrator Account setting, 480
administrative permissions, 291–292, 291
Administrative Templates node, 434, 471, 471
administrative vulnerabilities, 195
administrator access tokens, 477
Administrator Account Status right – asterisks (*) in command prompt

Administrator Account Status right, 494
Administrators groups, 405
Advanced Boot Options screen, 277–278
accessing, 249–250, 249
Safe Modes, 280–281, 281
settings, 281–282
Advanced Encryption Standard (AES), 496, 513, 515
Advanced page
Internet Explorer, 563–564, 564, 567, 571, 574
performance, 265–266
printers, 365, 368, 391
Startup And Recovery, 285
Advanced Security Settings screen, 379, 379, 381
Advanced Settings page, 246
Advanced Sharing dialog box, 364
Advanced Sharing Settings page, 348–349, 348, 361
Advanced Update Services Options settings, 196
AES (Advanced Encryption Standard), 496, 513, 515
AIK (Automated Installation Kit). See Windows Automated Installation Kit (AIK)
aliases in PowerShell, 152–153
All Networks setting, 346–347, 347
/All switch, 322
All Users profiles, 417
Allow Active Content From CDs To Run On My Computer option, 568
Allow Active Content To Run In Files On My Computer option, 568
Allow All Users To Install Updates On This Computer option, 187
Allow Image Capture page, 111
Allow Local Admin To Choose Setting option, 213
Allow Log On Locally right, 492, 492
Allow Log On Through Remote Desktop Services right, 493
Allow permissions, 371, 372
Allow Software To Run Or Install Even If The Signature Is Invalid option, 567
Allowed To Format And Eject Removable Media right, 494
AllSigned setting, 158
Always Notify setting, 233, 480
AMD Virtualization Compatibility Check Utility, 30, 30
answer files, 84–87, 85–86
anti-malware software, 426–428, 427
anti-spyware software, 426
antivirus software, 426
APIPA (Automatic Private IP Addressing), 326–327, 326
App-V server (Application Virtualization server), 301, 301
/append switch, 73
Application Compatibility mode, 311
Application log, 225, 226
Application Virtualization server (App-V server), 301, 301
applications, 290
access restrictions, 467–468, 468
assigning, 303, 466
checking and repairing, 305–307, 305–306
compatibility, 310–314, 311, 313
configuring, 467
delivery strategies, 299–301, 300–301
deploying, 301–304, 466–467, 467
digital signing, 292–296, 293–295
distribution, 290–291
essentials, 314–315
features, 296–298, 297
installation permissions, 291–292, 291
installing, 63
killing, 169
licensing restrictions, 292, 292
logs for, 307–308, 308
packages, 302
previous versions, 313–314
Problem Steps Recorder, 309–310, 309
publishing, 34–35, 34–35, 466, 467
Safe Mode, 310
summary, 314
virtualization, 31–33, 33
Windows XP mode, 33–36, 34–35
WSUS, 204
AppLocker feature, 5, 467–468, 468
Apply Group Policy permission, 456–457
/apply switch, 70
arguments in PowerShell, 157
assigning applications, 303, 466
asterisks (*) in command prompt, 125
Audit-only AppLocker mode, 468
Audit Policies node, 489–492, 489, 491
