Contents

Introduction xxiii

Chapter 1 Planning for the Installation of Windows 7 1
Choosing a Windows 7 Edition 2
x86 vs. x64 4
AppLocker 5
BitLocker 5
BranchCache 5
Windows XP Mode 6
Software Assurance 6
Local Installation 7
Designing User State Migration 10
User State Migration Toolkit 11
Performing In-Place Migration 13
Wipe-and-Load Migration vs. Side-by-Side Migration 20
Determining Which User Data and Settings to Preserve 21
Local vs. Remote Storage Considerations 22
Securing Migrated Data 23
Testing Migrated Data 23
Virtualization Considerations 24
Considering a VDI Environment 24
Windows XP Mode 29
Installing Integration Components 38
Planning and Managing Client Licensing and Activation 42
Licensing Strategy and Compliance 42
Software Manager Licensing Manager Tool 45
Volume Activation Methods 47
Multiple Activation Key 48
Key Management Service and Licensing Infrastructure 50
Virtualization Licensing 54
Summary 54
Chapter Essentials 55

Chapter 2 Automating the Deployment of Windows 7 57
Understanding and Designing Images 58
Understanding Imaging 59
Designing Images 60
Creating Images on Reference Computers 62
Running Sysprep 63
Choosing a Deployment Strategy 65
   A Comparison of Installations 66
   Deployment Tools Overview 67
Imaging with the Windows Automated Installation Kit 68
   ImageX 69
   Understanding the Deployment Image Servicing and Management Tool 75
   Preinstallation Environment 80
   System Image Manager 84
Deploying Images with Windows Deployment Services 88
   WDS Requirements 88
   Deploying Images with WDS 89
   Adding and Configuring WDS 91
   Capturing Images with WDS 104
Using the Microsoft Deployment Toolkit 2010 107
   Installing MDT 2010 109
   Creating a MDT 2010 Deployment Share 110
   Creating a Task Sequence 113
Summary 119
Chapter Essentials 120

Chapter 3  Using the Command Prompt and PowerShell 121
Using the Windows Command Prompt 122
   Launching the Command Prompt 123
   Command Prompt Basics 124
   System Variables Identify the Environment 127
   Commands Use Paths 128
   Copy and Paste with the Command Prompt 134
   Capturing the Output 135
   A Sampling of Commands 136
   Advanced Shell Commands 143
   Creating a Batch File 145
   Scheduling a Batch File 147
   Just a Glimpse 150
Using Windows PowerShell and the PowerShell ISE 150
   Windows PowerShell ISE 151
   PowerShell Commands 152
   Verbs and Nouns 153
   Sending Output to a Text File 154
   PowerShell Syntax 154
   Running PowerShell Scripts 157
   Using PowerShell Commands 164
Summary 176
Chapter Essentials 176
Chapter 4  Managing the Life Cycle—Keeping Windows 7 Up to Date 179
Keeping Windows Up to Date 180
  Deploying Updates 182
  Auditing Updates 182
  Deploying Service Packs and Rollups 183
  Windows Update Client 184
  Viewing Windows Update Settings 185
  Installing, Hiding, and Restoring Updates 187
  Viewing Update History 189
Choosing an Update Tool 190
Using MBSA for Security Audits 192
  Picking Computers to Scan 193
  Vulnerability Checks 195
  Installing MBSA 198
  Running the MBSA 198
  Running the MBSCLI 199
Using Windows Server Update Services 202
  WSUS Updates 204
  WSUS Requirements 205
  Installing, Configuring, and Using WSUS 205
Summary 221
Chapter Essentials 222

Chapter 5  Maintaining and Troubleshooting Windows 7 223
Identifying and Resolving Performance Issues 224
  Analyzing Logs with Event Viewer 225
  Using the Action Center 228
  Configuring Services 234
  Managing Power Settings 242
Using Windows RE 248
  Accessing the WinRE 249
  Using the WinRE 254
Managing Hardware in Windows 7 263
  Managing Memory 263
  Managing Disks 267
  Managing BIOS 271
  Managing Devices 271
Troubleshooting Boot Issues 276
  Understanding the Boot Phases 276
  Using Advanced Boot Options 280
  Using MSConfig 282
  Startup and Recovery Options 285
Summary 286
Chapter Essentials 287
Chapter 6  Configuring and Troubleshooting
Application Issues 289
Installing and Configuring Software 290
  Installation Permissions 291
  Licensing Restrictions 292
  Digital Signing 292
  Enabling and Disabling Features 296
Designing a Delivery Strategy 299
  Windows XP Mode 299
  Virtual PC 299
  Remote Desktop Services 300
  Application Virtualization 301
Designing a Deployment Strategy 301
  Identifying Deployment Concerns 301
  Choosing a Deployment Method 303
Identifying and Resolving Software Failure Issues 305
  Checking and Repairing Installations 305
  Checking the Logs 307
  Problem Steps Recorder 309
  Checking Whether an Application Runs in Safe Mode 310
  Managing Application Compatibility 310
Summary 314
Chapter Essentials 314

Chapter 7  Networking with Windows 7 317
Understanding Network Connectivity in an Enterprise 318
  Unicast, Multicast, and Broadcast 320
  Using IPCfg 320
  Understanding the DHCP Lease 322
  Understanding the IP Addresses 327
  Configuring a Network Interface Card 332
  Using Proxy Servers 334
Resolving Names to IP Addresses 337
  Hostname Resolution Methods 337
  NetBIOS Name Resolution Methods 340
  Using NSLookup 340
Using the Network and Sharing Center 342
  Public vs. Private Networks 344
  Changing Advanced Sharing Settings 348
Troubleshooting Network Connectivity Problems 349
  Verifying Hardware and Cabling 350
  Using Ping 352
Chapter 8  Accessing Resources on a Network  357

Using Ping to Determine Scope of the Problem  353
Troubleshooting and Resolving Name Resolution Issues  354
Summary  355
Chapter Essentials  355

Chapter 9  Managing Windows 7 in a Domain  393

Joining a Domain  394
Creating a Test Bed  394
Authentication vs. Authorization  402
Authentication  402
Authorization  402
Built-in Groups  403
Organizing Users with Groups  405
Group Scope and Group Type  406
Identifying and Resolving Logon Issues  410
Hardware vs. Network  410
Using Cached Credentials  411
Password Expiration  412
Determining Logon Context  412
Logon Hours Compliance  414
Time Synchronization  415

Chapter 12  Supporting Mobile Windows 7 Users 511

Configuring and Troubleshooting Wireless Connectivity 512
  Using Wireless Security 513
  Configuring Wireless on Windows 7 515
  Connecting to a Wireless Network 519
  Setting Up Connections 522
  Troubleshooting Wireless Connections 523
  Troubleshooting Remote Access Issues 527
    Remote Access Overview 527
    Creating a Dial-up Connection 529
    Creating a VPN Connection 532
    Add a Certificate 534
    Troubleshooting a VPN Client 535
    A Few Words about Teredo 543
  Understanding DirectAccess 544
  Using BranchCache 545
    BranchCache Modes 546
    BranchCache Requirements 546
  Summary 547
  Chapter Essentials 547

Chapter 13  Administering Internet Explorer 549

Managing Windows Internet Explorer Settings 550
  Managing Cache 551
  InPrivate Browsing 556
  InPrivate Filtering 558
  SmartScreen Filter 559
  Security Zones 561
  Protected Mode 562
Understanding Advanced Settings 563
   Certificate Settings 565
   Active Content 568
   Branding Internet Explorer 568
   Group Policy Settings 569
Troubleshooting Internet Explorer Issues 571
   Check Network and Proxy Settings 572
   Troubleshoot Plug-ins and Add-ons 572
   Restore IE Original Settings 574
   Disable Add-on Crash Detection 575
   Enable Compatibility View 576
Summary 576
Chapter Essentials 577

Appendix A  Objective Mapping to Chapter Titles 579
Appendix B  About the Companion CD 589
