semifixed/semivariable cost categorization, 317–318
Relative change, financial statement analysis, 105–106
Relevant costs, 299–300
Reports: as control measure, 208
manager’s daily report, 174, 175
Report form, balance sheet, 86
Residual value, 27
Resort hotel, 552
Responsibility accounting, 70–75
Responsibility centers, 70–71
Revenue per seat ratio, 170–171
Revenue per available room (REVPAR), 172
Revenue per available room, 172
Revenue per seat ratio, 170–171
Risk, and investments, 478, 513
ROI, see Return on investment
Room cancellations, tracking of, 285
Rooms department ratios, 171–174
average rate per occupied room, 171–172
labor cost percentage, 173
number of rooms cleaned, 174
occupancy percentage/double occupancy, 172–173
revenue per available room (REVPAR), 172
undistributed costs, 174
Room rates, 265–277
actual rate/potential rate comparison, 276
adjustment to prices, 278
and average occupancy, 271–272
bottom-up approach, 266–268
decreased rate, factors related to, 270
discounting, 272–275
double occupancy rate, 268
and elasticity of demand, 279–280
and market segment, 276–277
Rooms revenue, for feasibility study, 537–538
Rule-of-thumb method, pricing, 245
Salaries, accrual adjustments, 26–27
Sales revenue mix, and menu pricing, 254–255
Sales revenue, 17–18, 56–57, 71
and allocation of indirect costs, 301–303
budget estimates of, 377–378
buying business, cost analysis, 307–309
components of, 18
cost percentage, use of, 253–254
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
direct expense distribution, 72–74
and elasticity of demand, 279–280
and market segment, 342–344
Sales revenue accounts, 15
Sales revenue inflows, 9
Sales units, CVP formula equations, 346–348
Sales volume variance, 390–392
SCF, see Statement of cash flows
Scrap value, equipment, 507
Seasonal cycle, 3
Seat turnover, and pricing, 264–265
Seat turnover ratio, 264–265
Seating department ratios, 171–174
Semifixed/semivariable cost categorization, 301–319
comparison of methods, 318–319
high-low method, 312–315
multipoint graph, 315–317
regression analysis, 317–318
simplified method, 319
Semifixed/semivariable costs, types of, 300–301
Short-term budget, 369
Single room rate, 269
Site evaluation, feasibility study, 529
Social goals, 559–560

INDEX

Sole proprietorship, 77
Sole proprietorships, 53
Solvency ratios, see Net worth ratios
Specific identification method, 63–64
Specific item cost, 63–64
Staff:
  bonding employees, 208
  and control measures, see Internal control
  employee turnover, 201, 202
  schedules, 379
  staff meals deduction, 60, 70
  theft/fraud, types of, 228–233
  written procedures for, 202–204
Standards:
  cost standards, see Standard costs and ratio analysis, 139–140
  Standard costs, 224–228, 301
  computer applications, 227–228
  and pricing, 254
  recording costs/selling prices, 225–227
  weekly calculations, 227
Star menu items, 260, 261
Statement of capital:
  partnership, 84–85
  sole proprietor, 83–84
Statement of cash flows (SCF):
  accrual income statement, 243
  cash flow, segmentation of, 420–422
  cash flow conversion, 426–428
  cash flow from financing activities, 430–431
  cash flow from investments, 429
  computer applications, 448
  finalizing statement, 431–434
  financing activities section, 430–431
  investing activities section, 429
  net cash flow evaluation, 419–420
  operating activities section, 422–425
  ratios derived from, 431–434
  utility of, 418–420
  working capital analysis, 434–448
Statement of changes to working capital, 435, 437–447
  balance sheet information, 440–444
  information requirements, 440
  retained earnings information, 444–445
  transactions, effects of, 440
  utility of, 437–439, 446
Stock:
  capital stock, 82
  preferred stock, 82
Stockholders’ equity accounts, 82–83, 85
  capital stock, 82
  dividends payable, 83
  earnings per share (EPS) ratio, 164–165
  paid-in capital, excess of par, 82
  retained earnings, 83
Stockholder’s wealth, maximization of, 555–557
Stock rotation, and FIFO inventory method, 64–65, 69
Storage of product, and internal control, 214–216
Storeroom requisition, 215
Straight-line depreciation, 28–29
Strategic budget, 369
Strategies, and financial goals, 560–561
Sum-of-the-years’-digits depreciation, 30–31
Sunk costs, 300, 303
Supply and demand analysis, and feasibility study, 529–534
Surprise checks, as control task, 205
Tableware, as asset, 80
Tactics, and financial goals, 561
Tactical pricing, 247–248
Taxation, and cost-volume-profit (CVP) method, 354–355
Theft and fraud, 228–233
  of accounts payable and payroll, 229–230
  bar revenue, 231
  of cash, 200, 229
  of deliveries, 228
  of food/beverage revenue, 230–231
  and front office, 231–232
  lapping, 204–205
  prevention of, see Internal control of receiving and inventory, 200–201, 229
  Time period principle, 10
  Total assets to total liabilities ratio, 158–159, 433
  Total liabilities to total assets ratio, 159
  Total liabilities to total equity ratio, 159–161
  Trade-in value, equipment, 507, 516
  Trading securities, unrealized gain or loss, 78
  Training, as control measure, 202
  Transfer pricing, 71–72
  Treasury stock, 437
  Trend index analysis, 117–118
  Trend percentages, 115–117
  in financial statement analysis, 101
  Trial-and-error method, pricing, 245–246
  Turnover ratio, 166–167
  Turnover ratios, see Activity ratios
  Unadjusted trial balance, 20–21
  Unallocated expenses, and budget, 379–381
  Undistributed costs, 53, 299
  Undistributed costs ratio, 174
Undistributed expenses, and zero-base budget (ZBB), 384–385
Undistributed operating expenses, 60
Uniform System of Accounts, 55
Units-of-production depreciation, 29–30
Value received, 13
Variable cost lease, versus fixed cost lease, 309–310
Variable costs:
  determined from semi costs, 310–319
  examples of, 300
Variables, in multipoint graph, 316
Variances, 388–395
Variance analysis, 389–395
  corrective action, 394
  cost variance, 392
  percentage variances, 394–395
  price variance, 390
  sales volume variance, 390–392
  variance analysis matrix, 390–393
Voucher system, cash disbursements control, 218
Wages, accrual adjustments, 26–27
Weekly cycle, 3
Weighted average cost, 67–69
Window dressing, 146
Working capital:
  capital requirements, determination of, 447–448
  defined, 167, 435
  sources of (inflows), 435–436
  transactions, effects of, 439–440
  uses of (outflows), 436–437
Working capital, defined, 144
Working capital analysis, 434–448
  cash inflow identification, 435–436
  cash outflow identification, 436–437
  statement of, see Statement of changes to working capital
  utility of, 435, 437–439
Working capital turnover ratio, 167
Worksheet, 37–41
  accounting cycle activities, 39, 41
  column contents, 39
Written procedures, as control system, 202–204
Yield management, 282–285
  objective of, 284
  yield statistics, 282–284
Yield statistic, 282–283
Zero-base budgeting (ZBB), 384–388
  advantages/disadvantages of, 388
  decision units, 385–387
  ranking process, 387–388
  undistributed expenses, 384
