*Preface*  
ix  

1 Introduction  

2 The Production Process in Aquaculture  

2.1 Salmon production  

2.1.1 Biological system  

2.1.2 The grow-out phase  

2.1.3 The physical system  

2.2 Bibliography  

3 The Supply of Salmon  

3.1 Farmed salmon production  

3.1.1 Norway  

3.1.2 Chile  

3.1.3 United Kingdom  

3.1.4 Canada  

3.1.5 Other farmed salmon producers  

3.2 Wild salmon production  

3.3 Regulation of salmon aquaculture  

3.3.1 Norway  

3.3.2 Scotland  

3.3.3 Chile  

3.4 The growth of large multinational companies  

3.5 Bibliography  

4 Productivity Growth and Technological Change  

4.1 Declining costs  

4.2 Scale  

4.3 Structure of production costs  

4.4 Smolt production  

4.5 Improved feed quality  

4.6 Diseases and increased survival rates  

4.7 Breeding  

4.8 Cycles in profitability  

4.9 Catching up: regional differences  

4.10 Productivity development in Norway relative to other producers  

4.11 Cost reductions in the supply chain  

4.12 Bibliography  

Bibliography  

ix
Contents

5 Environmental Issues  65
  5.1 The fish meal trap  65
    5.1.1 Fisheries management  66
    5.1.2 The markets for oil meals  69
    5.1.3 Concluding remarks on the fish meal trap  72
  5.2 Local issues  73
    5.2.1 Organic waste  74
    5.2.2 Antibiotics and chemicals  76
    5.2.3 Salmon escapees and sea lice  78
    5.2.4 Concluding remarks  80
Bibliography  80

6 Markets for Salmon  83
  6.1 The European Union markets  84
    6.1.1 France  85
    6.1.2 Germany  88
    6.1.3 United Kingdom  89
    6.1.4 Spain  90
    6.1.5 Italy  91
    6.1.6 Denmark  92
    6.1.7 Poland  93
  6.2 The Japanese salmon market  94
    6.2.1 Japanese salmon supply  97
    6.2.2 Outlook for the Japanese salmon market  99
  6.3 The United States salmon market  100
    6.3.1 US seafood consumption  100
    6.3.2 Imported fresh and frozen salmon  103
    6.3.3 Market trends  105
  6.4 The Russian market  105
  6.5 Price development  107
    6.5.1 Real versus nominal price  108
    6.5.2 Exchange rates  109
    6.5.3 Prices in different markets  110
    6.5.4 Prices in different weight classes and for different product forms  113
Bibliography  116

7 Competitiveness and Market Structure  119
  7.1 What is a market?  119
    7.1.1 Market size  121
    7.1.2 Market power  122
  7.2 The salmon market  123
    7.2.1 Pacific salmon  124
    7.2.2 The early development of the Atlantic salmon market  125
7.2.3 Early development of the farmed Pacific salmon and salmon trout market 126
7.2.4 Fresh versus frozen 126
7.2.5 Declining prices, new sales outlets and product forms 127
7.2.6 Salmon and supermarket chains: a marriage made in heaven 129

7.3 The size of the market 131
7.4 Salmon marketing 133
7.4.1 Health benefits, food scares and environmental concerns 134

7.5 Trade restrictions 136
7.5.1 Trade restrictions in the salmon market 139

Appendix: a market model 142
Testing for market interactions 147
Bibliography 148

8 Lessons for Other Farmed Species 151
8.1 Other farmed species 151
8.1.1 Shrimp 151
8.1.2 Sea bass and sea bream 153
8.1.3 Turbot 156
8.1.4 Tilapia 157
8.1.5 Other species 160

8.2 Lessons from other farmed species 160
Bibliography 162

9 Optimal Harvesting of Farmed Fish 163
9.1 A biological model 164
9.2 Bioeconomic analysis 165
9.2.1 Zero costs 166
9.2.2 Harvesting costs 168
9.2.3 Feed costs 168

9.3 The rotation problem 169
Appendix: optimal harvesting of farmed fish 171
A biological model 171
Bioeconomic analysis 172
Harvesting costs 175
Feed costs 177
Feed and harvesting costs 179

The rotation problem 179
Optimal harvesting: examples 182
Bibliography 184

10 Production Planning in a Salmon Farm 187
10.1 Cash flow analysis 188
10.2 Smolt release and biomass growth 190
10.3 Sales revenue 193
10.4 Feeding costs 195
10.5 Net present value 197
10.6 Selective harvesting 199

11 Investment in a Salmon Farm 201
   11.1 A production plan 201
   11.2 A liquidity budget 205
   11.3 Cost of production 209
   11.4 Investing in a new aquaculture company 211
   11.5 Licence value 215
   11.6 Buying a fish farming company 217
