**Selected bibliography** | 42 |
**Review questions** | 43 |
**Topics for discussion** | 44 |
7. SQA PLAN AND PROJECT PLAN

7.1 Introduction 111
7.2 The process of preparing an SQA plan 112
7.3 The SQAP elements 112
7.4 The process of preparing a project plan 116
7.5 Jack thanks his department manager – a mini case 117
7.6 The elements of the project plan 119
7.7 Project plans for small projects and for internal projects 130

Summary 134
Selected bibliography 136
Review questions 136
Topics for discussion 138
Appendix 7.A: Risk management activities and measures 139

8. PREPROJECT PROCESS – CONTRACT REVIEW

8.1 The CFV project completion celebration – an introductory mini case 141
8.2 Introduction 142
8.3 The contract review process and its stages 143
8.4 Contract review evaluation subjects 146
8.5 Implementation of a contract review 149
8.6 Contract reviews for internal projects 151

Summary 153
Selected bibliography 154
Review questions 154
Topics for discussion 155
Appendix 8.A: Proposal draft review 157
Appendix 8.B: Contract draft review 161

9. COST OF SOFTWARE QUALITY

9.1 This time the budget was approved – an introductory mini case 162
9.2 Objectives of cost of software quality measurement 164
9.3 The classic model of cost of software quality 166
9.4 The scope of the cost of software quality – industry figures 170
9.5 An extended model for cost of software quality 171
9.6 Application of a cost of software quality system 175
9.7 Problems in application of CoSQ measurements 179

Summary 181
10. THE EFFECTIVENESS AND COST OF A V&V PLAN – THE SQA MODEL

10.1 The data required for the SQA model
10.2 The SQA model
10.3 Application of the SQA model for comparing V&V plans

Summary

Selected bibliography
Review questions
Topics for discussion

11. SQA RECORDS AND DOCUMENTATION CONTROL

11.1 Jeff’s troubles – an introductory mini-case
11.2 Introduction
11.3 Objectives of documentation control processes
11.4 The implementation of documentation control

Summary

Selected bibliography
Review questions
Topics for discussion

PART III PRODUCT ASSURANCE ACTIVITIES FOR CONFORMANCE

12. EVALUATION OF PRODUCTS FOR CONFORMANCE

12.1 Introduction
12.2 The evaluation of project plans for conformance
12.3 The evaluation of project’s software products for conformance
12.4 Evaluation of project products for acceptability by the customer
12.5 The evaluation of project’s operation phase products for conformance
12.6 The evaluation of software product by measurements

Summary

## 16. SOFTWARE PRODUCT QUALITY METRICS

16.1 What are software quality metrics? – an introduction 346
16.2 Implementation of software quality metrics 349
16.3 Product metrics and their classification 352
16.4 Software product size metrics 353
16.5 Software product attribute metrics 356

Summary 362
Selected bibliography 364
Review questions 366
Topics for discussion 367
Appendix 16.A: FSM method implementation 370

## 17. PROCEDURES AND WORK INSTRUCTIONS

17.1 Introduction – the need for procedures and work instructions 375
17.2 Superbox pays $9000 in damages due to failing support center – a mini case 376
17.3 Procedures and work instructions and their conceptual hierarchy 378
17.4 Procedures and procedure manuals 378
17.5 Work instructions 382
17.6 Procedures and work instructions: preparation, implementation, and updating 382

Summary 385
Selected bibliography 386
Review questions 386
Topics for discussion 387
Appendix 17.A: Design review procedure 389

## PART IV PROCESS ASSURANCE ACTIVITIES FOR CONFORMANCE

## 18. EVALUATION OF PROCESSES AND DEVELOPMENT ENVIRONMENT FOR CONFORMANCE

18.1 Introduction 395
18.2 The evaluation of life cycle processes and plans for conformance 396
18.3 The evaluation of the required environment for conformance 397
18.4 The evaluation of subcontractor processes for conformance 398
18.5 The evaluation of software process by measurements 399
18.6 The assessment of staff skills and knowledge 400

Summary 401
19. IMPROVEMENT PROCESSES – CORRECTIVE AND PREVENTIVE ACTIONS 404

19.1 The “3S” development team – revisited – an introductory mini case 404
19.2 Introduction 406
19.3 The corrective and preventive actions process 407
19.4 Organization for preventive and corrective actions 416
Summary 417
Selected bibliography 418
Review questions 418
Topics for discussion 419

20. SOFTWARE PROCESS ASSURANCE ACTIVITIES FOR EXTERNAL PARTICIPANTS 421

20.1 Introduction 421
20.2 The Pharmax tender – a mini case 424
20.3 Benefits and risks of introducing external performers 427
20.4 Benefits and risks of using readymade software 430
20.5 QA activities for assuring external performers’ process quality 432
20.6 QA activities for assuring quality of readymade software 438
Summary 441
Selected bibliography 444
Review questions 445
Topics for discussion 446

21. SOFTWARE PROCESS QUALITY METRICS 448

21.1 Software process metrics – an introduction 448
21.2 North against South – who’ll win this time round? – a mini case 450
21.3 Software development process metrics 452
21.4 Software operation process metrics 460
21.5 Software maintenance process metrics 462
21.6 Management process metrics 466
21.7 Limitations of software metrics 467
Summary 470
Selected bibliography 471
Review questions 472
Topics for discussion 473
22. SOFTWARE CHANGE CONTROL PROCESSES 476

22.1 Introduction 476
22.2 How a well-planned project lost over half a million dollars – a mini case 477
22.3 The process of handling an SCR 479
22.4 The SCC function in the organization 481
22.5 Software quality assurance activities related to software change control 482

Summary 482
Selected bibliography 483
Review questions 483
Topics for discussion 484

23. STAFF SKILLS AND KNOWLEDGE – TRAINING AND CERTIFICATION 486

23.1 Introduction 486
23.2 Surprises for the “3S” development team – an introductory mini case 487
23.3 The objectives of training 488
23.4 The staff training process for software development 489
23.5 The training process for the SQA function team 493
23.6 The objectives of certification 495
23.7 The certification process 495

Summary 501
Selected bibliography 503
Review questions 503
Topics for discussion 504

PART V ADDITIONAL TOOLS AND METHODS SUPPORTING SOFTWARE QUALITY 507

24. TEMPLATES AND CHECKLISTS 509

24.1 Introduction 509
24.2 Templates 509
24.3 The organizational framework for implementing templates 511
24.4 Checklists 514
24.5 The organizational framework for implementing checklists 516

Summary 518
Selected bibliography 519
Review questions 519
Topics for discussion 520
