- definition of, 64
- disease incidence and, 64–65
- health effects of, 181–183
- income and, 181–183

Specificity
- calculation of, 201–202
- definition of, 198
- expression of, 198–199

Squamous cell carcinoma, 252

Standardization
- definition of, 106
- methods of, 106–107
- mortality, 28

Statistical hypotheses, 55

STDs. See Sexually transmitted diseases (STDs)

Stratification, 106

Subclinical disease, 194

Subpopulations, 10

Sudden infant death syndrome (SIDS), 94

Sudden unexpected infant death (SUID), 94

Sufficient cause, 45

SUID. See Sudden unexpected infant death (SUID)

Summative evaluation, 217

Surveillance programs
- criteria for, 170–171
- definition, 170
- origins of, 230

Survival rates, 97–98

Sydenham, Thomas, 26

Syndemic diseases, 230

Syndemic surveillance systems, 230–231

Systematic allocations, 127

Systematic error. See Bias

Teen pregnancy
- logic model for, 217–218
- race and, 62–63

Tertiary prevention, 30, 195

Therapeutic trials. See Treatment trials

Time patterns, 69–71

Transmissions
- air, 164
- definition of, 161
- direct, 42, 161–162
- epidemic, 164–165
- indirect, 42–43, 162
- vector-borne, 43, 162

Treatment groups, 127

Treatment trials, 126, 132–133

Trichomoniasis. See Genital herpes

True negatives (TN), 197

True positives (TP), 197

Tuberculosis
- cause and effect relationships
- in, 45, 47
- characterization of, 244–245
- incidence rates, 66

Tularemia, 246

2 × 2 Constituency tables
- attributable risk, 150–151
- definition of, 142
- odds ratio, 145–146
- screening test validity, 197, 199

Type 2 diabetes
- BMI and, 75
- BRFSS, 86, 87
- death rates for, 58
- incidence rates, 68
- natural history of, 39–40

U
- U.S. Public Health Service, 171
- Uncontrolled trials, 127
- Underdeveloped countries, 40–41
- Unexpected situations, 154
- University of Albany Prevention Research Center, 218

V
- Vaccine-preventable diseases, 99
- Validity
- clinical trial-associated, 131
- definition of, 131, 197
- parameters of, 197
- prevalence and, 204–205
- Vector-borne transmission, 43, 162
- Vehicle-borne transmission, 42, 162
- Vias de la Salud Health Promoter Program, 214
- Virulence, 161
- Vision loss, 59

W
- Water quality, 36
- Web of causation, 47–48
- Wellness at Work Program, 218
- West Nile virus (WNV)
- activity, state by state, 175, 237
- cases in United States, 174
- characterization of, 42
- confirmed cases of, 235
- deaths from, 235
- diseases associated with, 236
- group health and, 234–236
- Wheel of causation model, 49
- World Health Organization (WHO)
- bird flu response by, 234
- mission of, 232
- surveillance of diseases by, 173

Y
- Yield of screening tests, 195–196
- Youth Risk Behavior Surveillance System (YRBSS), 75
