### Part I  Framing Pathological Lives  

1 Pathological Lives – Disease, Space and Biopolitics  
   - Introduction: The Emergency of Emergent Infectious Diseases  
   - The Four Moves of Pathological Lives  
   - References  

2 Biosecurity and the Diagramming of Disease  
   - Disease Diagrams  
   - The Disease Multiple: Germs and the Return of the Outside  
   - Biosecurity and the Diagramming of Disease  
   - Conclusions  
   - References  

3 Reconfiguring Disease Situations  
   - Disease Situations  
   - Microbial Life and Contagion as Difference and Repetition  
   - A Topological Disease Situation  
   - Conclusions  
   - References  

### Part II  Disease Situations  

- Introduction  
- References
